About that time Arch Confer was passing by in a buggy, traveling at an easy gait. When the little girl saw that the rest were not following she attempted to gain the side of the road she had left, but the horse and buggy were too close upon her and in an instant she was under the animal's feet. Mr. Confer did not see the little Miss but upon hearing her cries brought the horse to a summary stop. The horse's feet had tramped the little girl, however, cutting two gashes in her legs. "Where Good Goods Come From."
CHAS. PENNINGTON, Proprietor

YOU as a good housekeeper are particular about the coffee you buy. Experience has taught you that an expensive percolator, a dainty coffee service or a skilled cook cannot of themselves make good coffee. Hence you buy only that coffee whose quality is assured.

Just as surely as coffee to be fragrantly delicious must originate from a good bean, correctly and freshly ground, so also the best crude petroleum and careful scientific refining are necessary to a high-grade kerosene. There is such a kerosene—it's

ATLANTIC Rayolight

It's the one kerosene you can buy by name. It will leave no soot and it doesn't smoke. It burns without smell, shedding an even, soft yet brilliant light, and, when put in a stove or heater, it gives quick, certain results at a low fuel cost.

But, with all these qualities, its price is identical with the unknown and possibly poorly refined kind. Ask for Atlantic Rayolight Oil and then you can be certain you're buying the best at a price you'd pay for the ordinary product.

Give your rubber plants a bath of Atlantic Rayolight Oil and tepid water—it makes them glossy and beautiful and kills the bugs that would otherwise eventually wither them up.

That's only one use out of many. What do you do with kerosene? If you've got a good use, perhaps you may be able to exchange it for a beautiful stove. See these advertisements.

Keep the Bathroom Well Ventilated

Not only in the summer months, but every day of the year—it's necessary to the family health. Too cold in the winter time, you say. Not a bit of it, if you'll get a

PERFECTION Smokeless Oil Heater

It doesn't smoke, is inexpensive to buy and to use. You'll find it at practically all dealers.
