

HAVE YOU A CHILD?

Many women long for children, but because of some curable physical derangement are deprived of this greatest of all happiness.

If one man tells a woman she is beautiful all the rest of the world can't convince her that she is homely.

Proof to the contrary. "All kinds of cats hate water."

No Harm Done. "What was the idea of putting old Gramps on the house committee of the Country club?"

Wrong Method. "Charlie doesn't seem to be doing very well at school," remarked his mother.

Hard Work. A visitor was being shown through the editorial rooms of a great newspaper.

"Is that the man who writes those profound editorials on affairs of state?" he asked, pointing to a man whose corrugated brow indicated deep thought.

"Oh, no," replied his guide. "That's the baseball editor trying to think up a new rumor about the Federal League."

A Powerful Physique

Is a valuable asset, but—

Strength of body must be combined with a healthy, active mind, to make for success.

It is well established that both body and brain are nourished and rebuilt daily from food—each taking up the particular elements required.

Grape-Nuts

made of wheat and malted barley, supplies all the rich nutriment of the grains, including the vital mineral elements necessary for building stout bodies and active brains.

Grape-Nuts food not only supplies rich, well-balanced nourishment, but is delicious and easy to digest.

THE ISSUES

TARIFFS AND PROSPERITY

Advocates of a high restrictive tariff blithely assume that the artificial prosperity that is supposed to bless manufacturers as a result of high tariffs, automatically filters through into the pay envelopes of the rest of the population.

There are several obvious facts that prove the contrary. First, there is no high import duty upon labor. The "cheap foreign labor" against which American workmen are supposed to be "protected" can and does come freely into America.

Second, the prosperity of manufacturers under high tariffs can be explained only because they are enabled, under high tariffs, to charge more for their products. But the workmen in American factories are consumers of American products.

Unless, therefore, they get this prosperity back by way of the pay envelopes, they are not better off, but worse off, than before the tariff is raised.

But wages are determined by the supply and demand of labor at any particular place and time. The manufacturer will pay only enough to obtain a sufficient force of workmen.

Specific examples of the kind of prosperity that the tariff creates for the workmen are afforded by the most highly protected industry in America, prior to the Underwood tariff law, the steel industry.

The only important thing for genuine progressives to remember, in connection with that game, is this: The reactionaries are in the saddle in the Republican party. They are confident that they can nominate a candidate satisfactory to themselves.

They propose to nominate a half-progressive for President. They propose to manage his campaign and to entrench themselves in his confidence.

Which will progressives have, Penrose or Wilson?

PENROSE FOR PRESIDENT?

Boles Penrose, in order to have the Pennsylvania delegates to the next National Republican convention, under his own particular thumb, and not running off after Brumbaugh or Flinn or some other Pennsylvania politician, has decided to go through with the farce of being a candidate for President.

No one who knows Penrose will accuse him of such child-like innocence as to believe that he can actually capture the nomination for himself. However much Standard Oil might wish to pour more certificates of deposit at his feet for campaign expenses; however much the Grundies and tariff barons might like to lift their special pet into the Presidency, they are not likely to sacrifice their cold financial interests on the altar of old friendship.

They will therefore demand and will get as the candidate of the next Republican National convention a man who can fool some progressives—which Penrose cannot do—and at the same time will stand firm for the special interests, as Penrose would.

Consequently, the Penrose game at this juncture is to make sure that the Pennsylvania delegates will be ready at the proper time to insure the nomination of such a candidate. Flashed with his success in 1914, Penrose is confident that he can be Pennsylvania's favorite son, a sham candidate, who will withdraw when the time comes to make way for the man chosen by the inner circle of reactionary politicians who now dominate the Republican organization throughout the country.

THE NEWEST REMEDY FOR BACKACHE, RHEUMATISM AND DROPSY

Kidney, Bladder and Uric Acid troubles bring misery to many. When the kidneys are weak or diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. There follow depression, aches and pains, heaviness, drowsiness, irritability, headaches, chilliness and rheumatism. In some people there are sharp pains in the back and loins, distressing bladder disorders and sometimes obstinate dropsy. The uric acid sometimes forms into gravel or kidney stones. When the uric acid affects the muscles and joints it causes lumbago, rheumatism, gout or sciatica. This is the time to send Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., 10¢ for large trial package of "Anuric."

Wherefore the Bible. Mr. Tomkins was obliged to stop over night at a small country hotel. He was shown to his room by the one boy the place afforded, a colored lad. "I am glad there's a rope here in case of fire," commented Mr. Tomkins, as he surveyed the room; "but what's the idea of putting a Bible in the room in such a prominent place?" "Dat am intended for use, sah," replied the boy, "in case de fire am too far advanced for yo' make yo' escape, sah."
