THE WEAKEST LINK.

Little Talks on Health and Hygiene by Samuel G. Dixon, M. D., LL. D., Commissioner of Health.

Do you know which is the weakest link in your chain of life? Is it heart, lungs, digestion or nerves? Which of the various organs and functions of the body seems to threaten trouble?

The chances are that unless you have a thorough physical examination you could not tell, for symptoms are misleading and oftentimes their manifestations are general or sympathetically indicates the trouble is located in some other organ than the one which is the actual seat of the trouble.

If there is a knock in the engine of your automobile you are the first to desire an over-hauling to rectify the trouble. You know if a mechanical defect of this sort continues it is going to multiply the trouble before long and that is just what happens with the human mechanism.

It is well known by the medical profession that those suffering from organic complaints may often, through vigorous adherence to certain rational methods of living, recover sufficiently to live long and useful lives while those suffering from functional disorders may, by following out the instructions of able medical men, entirely recover their health.

Everyone suffering with a persistent cold, headache or pain, should consult a good physician and submit themselves to a thorough physical examination. It would be well for everyone to be examined once a year. This should include an examination of the blood-vessel, blood, heart, lung, kidney, a consideration of weight in regard to height and the general activities of the various organs.

Such an examination superficially made is of no value. It should be thorough and the daily routine and habits of the individual carefully considered in relation to his physical condition.

Men ordinarily are obliged to submit to a medical examination now and then when they take out life insurance. Women are not so often insured and hence under ordinary circumstances are more apt to neglect physical examination. It is equally essential to both.

IF YOU WOULD BE ALWAYS WELL BATHE INTERNALLY

THOUSANDS OF TESTIMONIALS LIKE THIS: Dr. Chas. A. Tyrell, New York City. Dear Sir: I wish to place on record what the "J. B. L. Cascade" has done for me, within the short space of one week. I have been suffering for years with extreme nervousness, insomnia, physical weakness, loss of appetite, etc., until life was a burden to me. I tried many physicians but without relief. About ten months ago a physician decided that the seat of my trouble was in the intestines, and prescribed large enemas of warm water by means of the fountain syringe and long catheter. I purchased the best catheter I could find and used it faithfully, but without result, except weakening me. About one week ago I learned of your "Cascade Treatment," and at once procured it. And now, the change in my feelings! My nervousness has gone, I sleep like an infant, and wake thoroughly refreshed and feel like a new being. After one week's use of the "Cascade" I am firmly assured that I have found the Omega to all my troubles. MR. H. DAVIS, 219 West 94th Street, New York City.
