

**Air Line Railway Being Revived.**  
The Air Line railway, which purposes passing through Boalsburg, Tusseyville and Coburn, on its route from Pittsburgh to New York, is being revived. Following a sheriff's sale in Pittsburgh on October 31st a new company was organized and plans for the new road, which will cost \$27,000,000, were discussed.

The company is now nominally owned by Edward T. Noble, of the law firm of Evans, Noble & Evans, of Pittsburgh, but in a statement filed with the Pennsylvania public service commission he says that he will convey the property, franchise and rights to the new corporation. Mr. Noble bought the property at the Pittsburgh sale, the company then being known as the New York, Pittsburgh and Chicago Air Line Railroad company.

The route as surveyed passes through Allegheny, Westmoreland, Armstrong, Indiana, Clearfield, Centre, Blair, Mifflin, Union, Snyder, Northumberland, Schuylkill and Lehigh counties. The road will pass through Pittsburgh, Millvale, Sharpsburg, Aspinwall, Hoboken, Montrose, Verona, Milligantown, Markle, Oklahoms, Apollo, Olivet, West Lebanon, Parkwood, Indiana, Sample Run, Pleasant Valley, Chesterfield, Houtzdale, Dix, Boalsburg, Tusseyville, Synagogue, Sober, Coburn, Glen Iron, Kreamer, Dornisfe, Gotschall, Cowen City, Dowdsville, Helfenstein, Mowry, Lavelle, Ashland, Girardville, Mahanoy Plane, Mahanoy City, Tamsque, West Penn, Zehner, Jordan valley, Unionville, Siegersville and Allentown. The Allegheny river will be spanned near Pittsburgh.

Counsel for the company points out that it will open new agricultural and mining districts that have been neglected. Most of the line will be through fertile valleys, studded with farms and sections of the bituminous coal fields that now have little railroad facilities.

**Former Pastor Aids in Good Work.**

The following is reprinted from the Berwick Enterprise and will be of interest to Penna Valley people because of the part a former pastor in the Methodist church played in bringing about excellent results, at the recent election:

Methodism figured largely in the recent election at Nescopeck. Under the leadership of the church people, only those men were elected to local offices who openly stand for a continuance of a "dry" town. Every local candidate not taking this stand was overwhelmingly defeated. The observance of "Pastor's Day" in the Nescopeck Sunday-school on a recent Sunday netted \$102 in cash for the board of stewards. Evangelistic services are now being held, and Pastor G. W. McInay is greatly encouraged by the manifest interest. Brother McInay and his choir recently conducted the Sunday afternoon religious service at the Berwick Hospital.

**THE WEAVER PIANO IN ROCHESTER, N. Y.**

"I am indeed pleased with the Style 20 Weaver Piano and think it one of the best pianos I have ever played on. I shall certainly recommend it to anyone who is thinking of buying a piano. I am proud to be the owner of such a fine instrument."

Yours very truly,  
Mrs. Hubert J. Martin,  
274 Alameda St.,  
Rochester, N. Y.

Mrs. Martin is a very prominent musician in Rochester and heard of the wonderful tone qualities of the Weaver Piano. After a most careful investigation and comparison with other makes, she purchased a Weaver. The constantly growing number of people who buy the Weaver after comparing it with other fine pianos is proof positive of the right of the Weaver Piano to the front rank of Artistic Pianos of the present day.

Let me give you full particulars.

**Water and Kerosene**

**YOU'RE** mighty careful about the water you drink—and so you should be. You want to know where it comes from and the probability of its purity. If you have any doubt whatever of its purity, you will not drink it, because you realize the danger of it being infected with bacteria. That's showing your good common sense.

Suppose you apply this same common sense when buying kerosene. What's the sense of paying for a poor quality kerosene when you can buy the *best* and pay no more for it? The next time you buy kerosene ask your grocer for

**ATLANTIC Rayolight OIL**

Insist on that kind because you get the most for your money. You're buying kerosene that burns longer and brighter, and gives out the greatest heat. Because it is pure and high grade it will not char the wick nor cause soot and smoke. It does not create unpleasant odors when burning.

Our scientific process of refining has eliminated all these objectionable features found in low-grade, common kerosene. Insist on having Rayolight Oil just the same as you would insist on having pure water.

Atlantic Rayolight Oil is a Sewing Machine Tonic. It just puts new life into the machine. Drop into all the oil receptacles, let it remain for twelve hours, then run the machine, without threading, for five minutes, wipe clean and oil in the usual way. New on you? Well, perhaps you've got a use that's new to us; if you have, in a short while, if you read these advertisements, you'll see something of interest.
