JANLS THAT ARE PORTABLE

Structures Have Something of a Humorous Side, But Are Useful in the Philippines.

Portable jails such as are in use in the Philippine islands are doubtless lacking in architectural beauty, but they more than make up for the deficiency in usefulness. These one-room "cuartels," built more for coolness than for permanency, are established at intervals along the government higher islands of the archipelago, for the safe-keeping at night of the convicts who are employed by day on the roads. These convicts are farmed out for this purpose from the great Bilabid prison at Manila. The construction of these so-called jails is simple in the extreme; a floor of split bamboo, walls of two or three inch poles bound with barbed wire and a roof of grass thatch.

RHEUMATISM-ITS CAUSE AND TREATMENT.

The cause of Rheumatism is excess of uric acid and no real relief can be expected until this is eliminated. Many chronic sufferers find permanent relief after taking Rheumacide. on sale at your druggist .- Adv.

KEYSTONE STATE

Latest News Happenings Gathered From Here and There.

TOLD IN SHORT PARAGRAPHS

There was rejoicing among the 500 employes at the Atlas Powder Company's plant, at Tamaqua, when the announcement was made that the company will pay a cash bonus of ten per cent. of their entire wages to all employes who have worked there since December, 1914, or any fraction of that time. Payment will be made as soon as the accounts are audited. Many thousands of dollars will be distributed.

While W. H. Derk, wife and nine children were dining at home in Mahanny Valley fire started on the kitchen floor, owing to a live coal falling from the cook stove. The family had scarcely time to escape from the house, which burned to the ground, with a loss of \$1,500. Mrs. Derk was burned badly trying to rescue heir

George L. Brown, Charles Bowman and Henry Epply, all York countians, contributed \$100 to the State Treasury, they having pleaded guilty to charges preferred by Game Warden F. P. Gemmil that on November 21 they hunted and shot four rabbits on the farm of Mr. Brown, in Jackson Township. The four rabbits therefore cost them \$25 a piece.

Mrs. Stephen Benik, of James City, shot her daughter, Anna, four years old, when she thought she heard a in her arms, fired. The child fell to heart. The bullet also passed through diet. the palm of the woman's hand with which she clasped the child.

Samuel Counterman, forty-three years old, of Waymart, died from gunshot wounds inflicted accidentally by Dr. Frank Howley, of Philadelphia, on November 24. Dr. Howley and Mr. Counterman were on a hunting trip. The latter was crawling under a barbed wire fence with the doctor just back of him, when the latter's gun was discharged.

After working forty-five years as a railroad engineer, being retired last year, without an accident, John Clouser, sixty-eight years, of Waynesburg, met death under the wheels of a' locomotive on the Pennsylvania Railroad Tuesday night. Mr. Clouser attempted to alight from the engine and

Record prices are being received by farmers in New Castle and vicinity at the present time for cattle. Ten Holstein-Friesian cows at a sale last week brought \$1,073. Five of the cows brought \$710, the lowest price for any one of the five being \$130 and the highest \$170.

Benjamin T. Davis, chief electrician for the Susquehanna Coal Company and a well-known Mason, was injured internally and had a leg crushed at Hickory Ridge colliery, Shamokin, by a pole falling on him as he was overseeing the erection of a branch line underground.

The first regiment of field artillery in the State was organized when Batteries E and F, composed of men of the Fourteenth Infantry, which recently was dissolved, consolidated with four other batteries. It will be known as the First Pennsylvania.

Arrangements have been made by which the Nicholson-Hemminger evangelistic party, which conducted a campaign in Chester last spring, will return in March, 1916, and conduct a four weeks' revival.

With two revolvers pressed against his head by two masked men as he sat reading in his own home at Guava, Parvin Kile, a lumberman, was robbed of over one hundred dollars. The robbers fled to the mountains.

John Haller, a welder at the works of the South Chester Tube Company, was caught by a machine and sustained a fractured skulf and other injuries. He died a short time afterward in Chester Hospital.

Silver and copper and traces of gold have been discovered in the mountains two miles north of Bangor, by William Blake and his son, William, Jr. The specimens of silver and copper ore are said to be excellent.

Of the 1,800 pupils in the Carlisle schools only 863 or less than fifty per cent. are fully normal, according to the report of the medical examiners for the district. A new feature is to be introduced by the opening of night schools in cooking for working girls

Blinded by snow, Joseph Nutridge, thirty-five years old, a Pennsylvania Railroad track hand, did not see the approach of a train at Gallitzin. He was run down, and his right leg and right hand cut off. He died at a hospital several hours later.

WORD FOR THE ONION

VEGETABLE SHOULD HOLD HIGH PLACE IN THE HOUSEHOLD.

Without Doubt, It is the Best of All Flavoring Agents - Should Be Soaked in Cold Water Before Being Served Raw.

Onions, cabbages, turnips, carrotswhat housekeeper does not tire of the endless monotony of the displays of these vegetables in the winter shops? Of course, nowadays almost all of us can afford hothouse vegetables in the winter. So cheap they are that they are no longer a treat. Neverthless, these old winter stand-bys are still stand-bys for us, and the more we know about cooking them temptingly the better.

Onions have more possibilities, perhaps, than any of the others, for onions are one of the best flavoring agents. And the number of times a week onions can be successfully used depends almost wholly on the ingenu-

ity of the cook. For flavoring salads, either rub the dish in which the salad is mixed with half an onion or else place a tiny piece of onion under a little piece of bread. In this way the flavor of the onion permeates the whole dish and yet the salad does not come into direct contact with it.

Onion juice or grated onion can be used in flavoring soups and stews when a strong flavor of onion is not desired. And if only a slight flavor is liked, parboil the onion before adding it to the stew or soup.

When raw onions are served soak them beforehand for an hour in cold water. This moderates their flavor and really improves them immensely. The sharp taste is lacking and only the best of the onion flavor remains.

Many persons who do not like raw onions do like them cooked, and almost nobody finds cooked onions inburglar at a window. Turning quick- digestible-raw ones cannot always be ly, the mother, while holding her child digested. Moreover, cooked onions contain desirable food properties and the floor with a bullet through its are an important item in the winter

One delicious cooked onion dish is prepared from onions boiled tender and put in a buttered baking dish, with grated cheese over, under and between them. A little milk is added and the dish is baked until the cheese is melted. Another good onion dish is made

from boiled onions, placed in a buttered baking dish, covered with cream sauce and sprinkled with grated cheese and bread crumbs. This should be browned in the oven.

Plain boiled onions served with melted butter and pepper and salt are They should be cooked tender and served very hot.

Onion soup, too, is good unless one really dislikes the onion flavor. Onions are boiled to pieces in water and this water, strained, is then mixed with hot milk, seasoned and lightly thickened. It is served very hot with croutons.-Frances Marshall, in Chicago Daily News.

Buttermilk Doughnuts.

One cupful of buttermilk, one cupful of brown sugar, two tablespoonfuls of butter, one egg, one-half teaspoonful of baking soda, one teaspoonful of cream of tartar, flour, one-fourth of a teaspoonful of salt. Cream the butter and sugar together, then add the egg well heaten, the buttermilk, soda, cream of tartar and enough sifted flour to make a stiff dough. Roll out about a quarter of an inch thick, cut with a doughnut cutter and fry in plenty of smoking-hot fat. Drain and dust with sifted sugar.

Delicate Corn Starch. Heat one pint water, add two tablespoonfuls corn starch, three tablespoonfuls sugar, pinch of salt, mixed together. Then add well-beaten whites of two eggs and cook until thick.

Custard Sauce for Above.-One pint hot milk, one teaspoonful corn starch. three tablespoonfuls sugar, mixed together. Add to hot milk. Then add yolks of two eggs, cook until thick and flavor with vanilla.

Bake Ham or Sausage.

Who has ever fried ham or sausage without becoming annoyed at the spattering of grease and smoke which filled the room? All this can be avoided by preparing the ham or sausage for frying, and placing in a moderately hot oven, bake for half an hour or until as delicately browned as desired. It will be deliciously tender, and no one can tell what meat is to be served until it is placed upon the table.

Hominy Cakes. Materials-One cupful cold cooked hominy, one egg, one tablespoonful melted butter.

Utensils-Bowl, measuring cup, beat er, tablespoon, griddle. Directions-Break up hominy with fork, add beaten egg and melted butter. Fry like griddle cakes. Serve with sirup or bacon gravy.

Salade Louisa. Cut up a julienne of celery, apples. chicken, tongue, potatoes and beets and season with French dressing. Serve in fresh artichoke bottom with a

Jeffy Bag Rack.

julienne of truffles sprinkled over it

Serve very cold.

Take an old kitchen chair, saw off part of the legs, turn upside down, use a square of cheesecloth reaching all four legs. Pour in the fruit to be strained and put a dish underneath; It to catch the luice.

A STATE OF THE STA SIMPLE PLAN OF IRRIGATION

Extensive Reservoirs and Expensive Machinery Not Used in Certain Parts of India.

In India famine has always been a serious question to cope with, and by means of canals and irrigation works much has been done to mitigate the ef-

fects of drought. In certain districts a primitive but effectual method of irrigation still exists among the natives, who convey water to their rice and paddy fields by a simple contrivance of their own

It consists of the trunk of a tree dug out to form a kind of scoop or trough, which is attached to one end of a long pole. The other end of the pole is weighted with lumps of earth. and the whole is balanced at the center on an upright so as to form a lever The irrigator dips the trough into

the water, and, on releasing his hold, the weights at the other end of the pole cause the water to run down the trough into a well dug in the ground. The supply is then distributed by means of channels. This performance is carried on in duplicate, one trough taking in water and the other discharging it .- Popular Mechanics.

HANDS LIKE VELVET

Kept So by Daily Use of Cuticura Soap and Ointment. Trial Free.

On retiring soak hands in hot Cuticura scapsuds, dry and rub the Ointment into the hands some minutes. Wear bandage or old gloves during night. This is a "one night treatment for red, rough, chapped and sore hands." It works wonders. Sample each free by mail with 32-p. Skin Book. Address Cuticura, Dept. XY, Boston. Sold everywhere .- Adv.
