DIXON'S HEALTH TALKS.

Commissioner Sees Many Resolutions for New Year Being Formed That Will Result in Self Improvement.

The season for good resolutions is approaching. Within a fortnight thousands of men and women will have resolved to begin the new year with a definite purpose of lopping of some bad habit or commencing some effort at self improvement.

Human happiness so largely depends upon health that many of these resolutions will center upon conditions relating to personal welfare. It is not so difficult in this age of self education to analyze our habits and discover where our weaknesses lie. Neither is it beyond the majority of us to plan a sensible course which if adhered to would bring about improvement. The task lies in adhering to the plans that we have made.

Perhaps the most common plea which we make to excuse failure to carry out our good intentions is the want of time. "I haven't time" has grown to be one of the commonest of phrases. There is no question about it this is a rapid age we live in. The possibilities for accomplishment are great; what we lack is time. The man of business knows he needs more physical exercise and appreciates the fact that he feels the better for it but denies himself because he hasn't time. We lack time to eat properly, to think properly, to rest properly. Twenty-four hours seems too short a day for many of us and what is the result?

Continually pleading the lack of time we rush from one thing to another and in the end the aggregate of accomplishment is little enough to boast of. Our clocks seem to be ticking at the rate of one hundred and twenty seconds to the minute but still the hour hand crawls at the same old pace. Unquestionably the majority of us would be happier and healthier if we cultivated repose. Tranquility is becoming a lost art and as a result disturbing nervous complaints are far more frequent than formerly.

The cultivation of composure need mean a reduction in our ability to achieve results. It is almost certain to insure us time through application for many things which will make life better worth the living.

Bone Leg Inserted in Spine.

The best Christmas present Kenneth Geist, aged 4, of Altoons, will receive this year will be his discharge from the hospital. He was admitted Christmas Day, 1913, suffering from tuberculosis of the spine, and has been there ever since. He could neither talk nor walk. He can do both now, thanks to the doctors and nurse.

The hospital surgeons took a piece of bone from his right leg and inserted it in the place where they removed the diseased vertebrae from the spine. The operation was successful, and Kenneth can run and play like other boys. A great home-coming is being planned for him.

No paper next week.
