One day last week Mrs. Sara Schreffler in going to the creek for water, lost her balance and fell in. The water was low at this place. A cold water bath on a winter's morning with the mercury hovering around zero, may be all right for some people, but we believe Mrs. Schreffler didn't relish it.
Several weeks ago Solomon Columbus purchased a fine team of sorrel horses, the finest horses he ever owned and something he had been longing for nearly all his life as he is an admirer of good horses, but was financially unable to own this kind up to this time. He had the team only a few days when one took sick with scrotis and after suffering great agony for several days, died.
Last Thursday while working on the ice on the dam, Calvin Mingle (better known as Paddy) went to walk across the channel. The ice being very thin gave way and Mr. Mingle went down. He called for help and the other workmen seeing him struggling in the water rushed to his assistance. He was in the water about five minutes before being rescued and was nearly frozen when taken out. "Japlant"—Extravaganza.

Something new under the sun, new to this generation, if not to the old. That something is "Japlant," an operatic minstrel farce-comedy employing the joint efforts of John W. Vogel's Big Minstrels and a large cast of grand and comic opera principals and twenty pretty chorus girls. At German's Opera House, Bellefonte, Friday, February 4th. Prices 25, 35, 50, and 75 cents.

Less Horses Than Last Year.
Livestock on Pennsylvania farms was worth \$167,843,200 on January 1, according to a summary of township reports issued today by the state department of agriculture. The statement covers every county in the state and shows total of 4,230,000 head.
The number of horses is given at 596,000, which is believed to be considerably less than a year ago because of the heavy shipments to Europe on account of the war. One estimate is that fully 15,000 horses have been sent from this state to the countries at war.
The horses on the farms are rated at \$72,116,000, an average of \$121 a head.
Figures on other live stock are:
Mules 46,000, valued at \$5,888,000, an average of \$128 per head, milch cows 952,000 valued at \$52,836,000, or \$55.50 per head; other cattle 644,000, valued at \$18,676,000; sheep 806,000, valued at \$4,352,400, hogs 1,186,000, valued at \$13,974,800.
The department estimated that the corn in cribs on farms is about 94 per cent. of the average condition of the last ten years and that only 4 per cent. remains to be husked. Almost 90 per cent. will be fed on the farm.
The condition of wheat and rye in the ground is given at 97 per cent. of an average.

MR. FARMER, here is a farm implement which needs no introduction nor statement of its superior qualities. The large number of satisfied farmers who have been using the "NEW IDEA" for several years past, attests to its merits. A spreader that works the same all day long, under all conditions, and which truly presents a new idea in the construction of manure spreaders, is worthy of your inspection and we ask that you first see the "NEW IDEA" before buying a spreader of unknown quality.
