

State Agricultural Notes.

Pennsylvania ranks fourth in the production of rye in the United States with Wisconsin, Michigan and Minnesota leading in the order named.  
For the past twenty-five years the production per acre of crops for the country has been increasing at the rate of one per cent. a year.  
Pennsylvania stands sixth in the production of potatoes in the United States and easily leads all other States in the production of buckwheat.  
The damage done by the Hessian fly in this State during 1915 was only about one-half as great as in 1914. Over one-half of the counties were affected. Berks county had one-fourth of the crop of wheat affected.

To capture the markets of the State, for Pennsylvania fruit, all that is needed is close attention to the appearance of the package, as the quality of the fruit is already established.

A former Pennsylvania resident now living in Oregon writes to a Pennsylvania fruit grower: "Oh for some Pennsylvania apple—the Oregon apples look good—but give me those rich, juicy, quality apples of the dear old Keystone State."

Fruit growers of Pennsylvania claim that the greatest need to the fruit growing business at present is a law compelling every shipper to mark his name and address on every package he ships, with the grade and minimum size of the fruit contained in the package.

The highest return during the past year to any Pennsylvania egg farmer was sixty-three cents a dozen, according to W. Theo. Wittman, the poultry expert of the Department of Agriculture. The break in prices was the earliest yet known, and it is claimed that fall eggs and not winter eggs now bring the maximum prices.

An average farm with six cows and four horses will produce in the barnyard probably fifty tons of manure in a year, which in comparison with commercial fertilizer has a cash value of about \$250.

In every horticultural district of the State, one or more commercial sprayers are needed. A man who will render good conscientious service with a spray pump, using the boiled lime-sulfur solution, either homemade or commercial, can do a lot of good in his community and should prove as useful to the citizens as a man with a threshing machine, corn shredder or older press.

BEAVER DAM.

A. C. Confer has a sick horse at present.  
Master Steril Bressler is confined to bed on account of sickness.  
Five car loads of lumber were shipped from landing No. 42 last week.

The sudden death of Clarence Lingle was a shock to the community.  
Thomas Miller sold a horse last week to U. W. Stamm, of Millheim.  
The roads were drifted through here on Sunday and men were busy shoveling snow.

Mrs. John Vonada and Mrs. Scott Decker spent a day last week at the William Lingle home.  
W. P. Lingle is laying up a good supply of wood, but let us hope winter is soon over.

Archie and Clyde Confer of Lock Haven attended the funeral of their friend, Clarence Lingle, on Sunday.  
A number of young folks attended the play rendered by the Millheim school, at Spring Mills, on Saturday night.  
Wedding bells will ring soon for two young people in this vicinity. The big event will be duly published in next week's issue.

William Stoner is busy moving his farm implements to Tusseyville, where he intends to move later, assisting his father, David Stoner, on the farm.  
Mrs. William Lingle and Miss Bertha Jamison visited at the Edward Jamison home on Wednesday and enjoyed a birthday dinner given in honor of the latter.

Georges Valley

L. M. Decker left for Bellefonte on Monday morning where he will serve as a jurymen this week.  
Ellis Hennigh of Bellefonte spent a few days with his parents, Mr. and Mrs. S. P. Hennigh.  
Mrs. J. W. Goble spent Friday in Brush Valley with her aunt, Mrs. John Messmer, who fell and broke her arm.  
This community was saddened last Wednesday on account of the death of Clarence Lingle. He was a favorite with the young people and was a model young man. Although he had been in poor health for some time his death came as a shock. His father, H. M. Lingle, preceded him to the grave not quite five months ago. Those from a distance who attended the funeral were A. D. Lingle, of Millheim; Mr. and Mrs. Ed. Eungard, of Lock Haven; Mr. and Mrs. Ralph Eungard, of Wolf's Store; and Joseph Solt, of Renovo.

The public sales for the first week in March in this section of the valley are: March 4th, at Old Fort hotel; March 8th, James S. Swaby, on the A. B. Lee farm, near Penns Cave station.

Y. W. C. A. MILESTONES or CONTRASTING THE YEARS

TWENTY YEARS AGO  
1896-1906

Twenty years ago today the country girl first began to come into her own, when the first county Association in Fillmore county, Minnesota, was organized in 1898.

The first World's Conference was held in London, June 14-16, 1898.

1900, The National Committee of C. I. H. was organized.

Miss Martha Berninger, the first secretary to China, sailed in 1903. Her support was furnished by the Associations of Detroit and Grand Rapids, Michigan, and a college Association of Wisconsin.

In 1901 the first Young Women's Christian Association building in Asia was dedicated in Bombay.

Miss Alice Newall, a Radcliffe graduate, went to India as the first student secretary from the United States in 1903.

The first division of conferences into city and student conferences was made at Silver Bay in 1903.

The Woman's Missionary Conference of Tokyo, Japan, sent an appeal to the World's Committee for secretaries to organize Young Women's Christian Associations in Japan, both for student and city girls.

In 1903 Miss Theresa Morrison began her work in the Young Women's Christian Association in Japan.

In 1905 Count Okuma gave a garden party to present the work of the Young Women's Christian Association to the people of Tokyo, saying, "I count it a privilege of a life time to have a part in inaugurating a work which will mean to the young women of Japan what the Young Men's Christian Association has meant to the young men."

In 1904 the first permanent Institute for secretarial training was opened in Chicago.

Swimming was first started at the Buffalo pool in 1905.

Today there are fifteen county Associations made up of 56 branches in eleven states. The membership is now 4420. There are a national secretary and twenty-two local secretaries for county work.

The Fifth World's Conference was held in Stockholm, Sweden, in 1914 782 delegates representing 22 countries were present.

China now has 18 secretaries in five cities.

Today there are 15 Association buildings in Asia.

One general, one county five city and eight student conferences will be held this year. Last year 4539 were in attendance in summer camps and conferences.

Japan has now twenty Associations with six American secretaries.

In October 1915 a beautiful new and spacious Y. W. C. A. building was opened in Tokyo. Miss Ruth Emerson, the Tokyo general secretary, writes that the joy in the girls' faces as they view their new quarters is beautiful to see. They feel that the building really belongs to them and that they are a part of it. She says it quite takes one's breath to try to estimate the difference this building will make to the work in that city.

Today the National Training School has a class of 51 students for a full year's course, who come from every state in the union as well as from Finland, Norway, Japan, Canada, Australia, Switzerland and Armenia. There are twenty-three colleges represented.

53 Associations have now swimming pools, and 15,420 girls had lessons last year.

STUDY YOUR INDIVIDUALITIES.

Little Talks on Health and Hygiene by Samuel G. Dixon, M. D., LL. D., Commissioner of Health.

Engineers will tell you that no two locomotives are ever exactly alike. They may be turned out to an exactness that defies the most modern instrument for measurement or weight to show any differences. Put into service, each machine will develop individual characteristics, one often being superior for its purpose. This same unknown quantity is experienced in sea-going vessels. The trial trip is the only test of their efficiency.

The medical man never finds two human beings with the same disposition, mental or physical strength, yet we are created after the same model, but owing to dissimilar nerve forces or the life of our tissues, each individual has certain differences and some have real idiosyncrasies.

There are broad rules of nature relating to our physical welfare which we cannot transgress without evil results. Likewise there are certain things which the majority of us can do without putting any unusual strain on our physique, but here begins the question of the adjustment of the individual piece of machinery. We must study our physical limitations and find out just what scope we have. Because one man can live or almost exist on an exclusive meat diet, it is no reason why the next fellow can. Men and women often ruin their health by trying to do things simply because others do them. Each should get his own measure.

The question of age must enter into consideration. It is well to bear in mind that exertion which does not seem a strain at one period in life may be dangerous in later years.

These same principles apply in matters of diet. There are foodstuffs wholesome enough to the average individual, which seem to have a deleterious effect on the few.

We must measure our individual characteristics and avoid those things that do not agree with us.  
All of these things should be observed and taken into consideration. They are the results of weaknesses or peculiarities in our living machinery and to reach and maintain efficiency, they must be recognized and respected.

Transfers of Real Estate.

Geo. H. Yarnell, Sheriff, to Jared Harper, tract of land in Bellefonte. \$505.  
Doubalene K. Cummings to Lyds Siegle, tract of land in Gregg twp. \$1400.  
Jesse T. Leathers et ux to Samuel E. Weber, tract of land in Spring twp. \$500.  
Anna W. Shortridge to J. Mylo Campbell et al, tract of land in Stylo College. \$5,700.  
Harry M. Showers et ux to Catherine Struble, tract of land in Walker twp. \$500.

Aaronsburg.

Z. D. Thomas is still confined to his home on account of rheumatism.  
Mrs. Sara Harper is getting along well considering the bad fall which she sustained a short time ago.  
Prof. and Mrs. Bartlett and little daughter, Elmore, are visiting friends at State College.  
Merchant Lark, of Lemont, spent last Wednesday with his aged mother, who was eighty years old on the 28rd of February.

TODAY  
Feb. 22 28, 1916.

Today there are fifteen county Associations made up of 56 branches in eleven states. The membership is now 4420. There are a national secretary and twenty-two local secretaries for county work.

The Fifth World's Conference was held in Stockholm, Sweden, in 1914 782 delegates representing 22 countries were present.

China now has 18 secretaries in five cities.

Today there are 15 Association buildings in Asia.

One general, one county five city and eight student conferences will be held this year. Last year 4539 were in attendance in summer camps and conferences.

Japan has now twenty Associations with six American secretaries.

In October 1915 a beautiful new and spacious Y. W. C. A. building was opened in Tokyo. Miss Ruth Emerson, the Tokyo general secretary, writes that the joy in the girls' faces as they view their new quarters is beautiful to see. They feel that the building really belongs to them and that they are a part of it. She says it quite takes one's breath to try to estimate the difference this building will make to the work in that city.

53 Associations have now swimming pools, and 15,420 girls had lessons last year.

Tusseyville

From last week.  
Miss Leah Camel from the Branch spent the past week with her cousin, Miss Rebecca Cox.  
Mrs. John Wert, who had been seriously ill several weeks ago, is able to be around again.  
Mr. and Mrs. Thomas Swartz spent Thursday at State College.  
Miss Rebecca Cox, returned home Tuesday after spending a week with relatives at Bellefonte.  
Mrs. Samuel Swartz, who had the misfortune of falling on the ice, is slowly improving.

Misses Elizabeth and Esther Bitner, attended the local Institute held at Centre Hall last week.  
Mr. and Mrs. William Eminhizer of Rock View accompanied by their son, Paul, who had been spending a few days with the former's parents autoted to the latter's home Friday.

FRUITTOWN.

From last week.  
William Jordan last week made a business trip to Philadelphia.  
Mrs. W. J. Copenhaver is keeping house for James Runkle at Tusseyville.  
Harris Bubb and Robert Boal, both employed in Altoona, spent Sunday at the home of their parents at this place.  
Fred Klinefelter, who is employed at the Burnham works, spent Sunday at home.  
Mrs. William Jordan and Ida Klinefelter spent one day last week at the Robert Glasgow home at Earlstown.  
Mr. and Mrs. J. B. Bitner and daughter E'hel are spending some time with friends at State College.  
Mrs. G. M. Cooney spent a day last week at the Roy Miller home.

Any person above the 6th year of school work may enroll.

For further particulars confer with—  
W. O. HECKMAN,  
A. B.,  
Principal of Centre Hall Schools

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.  
Address: F. J. CHENEY & CO., Toledo, O.  
Sold by Druggists. Take Hall's Family Pills for constipation.

Insurance and  
Real Estate

CENTRE HALL, PA.

To Eliminate Punctures  
USE  
DUPLUX DOUBLE THICKNESS  
AUTOMOBILE TIRES  
Guaranteed 5000 Miles Service

ABSOLUTELY PUNCTURE PROOF

Duplex tires are made of the best of material from standard tires. This means 100 per cent. more wearing surface, which means added life to the tire, and there is no chance of a puncture. Our construction gives from 10 to 12 piles of fabric.  
For rough country use the DUPLUX tire cannot be excelled. And they are as easy riding as any on the market. The air space and pressure is the same as with pneumatics, which makes them very resilient.  
They are the most economical for the car owner and save time by the elimination of tire troubles—no stopping to fix punctures. Tires of this type are used by the U. S. Government and large corporations.  
We have a limited stock we will offer at the following prices:  
30x3 1/2 ..... \$ 9.00 35x4 ..... \$17.00  
30x3 3/4 ..... 10.25 30x4 1/2 ..... 21.00  
32x3 1/2 ..... 13.15 36x4 1/2 ..... 22.50  
32x4 ..... 16.15 37x4 1/2 ..... 24.00  
34x4 ..... 17.10 37x4 ..... 26.75  
All other standard sizes also furnished. Add 10 per cent. for non-skid.  
Terms: Net cash at 10 per cent. discount.  
Try these tires now, and to assure prompt delivery send order today, making remittance by P. O. Money Order, draft or check. Sold direct to consumer only. Descriptive folder upon request.  
Akron Duplex Tire & Rubber Co., AKRON, OHIO

We are now making our own
