Palmer Makes Statement. National Committeeman A. Mitchell Palmer last week gave out the fol-

lowing statement:

"The result of the Primaries is, of of the Wilson administration and the present State organization. It shows a unity of purpose by the Democrate of Pennsylvania which promises well for the future. Contests within the party, like that which has just been decided, serve to clear the political atmosphere, remove misunderstandings and make for a permanently better feeling among party men.

"I have great confidence that the minority will readily acquiesce in the expressed will of the majority, and this is the only kind of harmony worth while. My best efforts will be given to the work of perfecting the organization and welding together all elements of the party in the hope that the Democracy may come to be accepted as the only fit and clean political agency in the State for the final redemption of Pennsylvania. There is urgent need now for such an instrument in this state, where the Republican party has demonstrated its utter lack of any patriotic devotion to the public interest. What We Hear About Our Ice Cream

"That's smooth cream."

"You sure must use REAL cream in making this ice cream."

"That's the best made cream I ever ate."

These and many other similar expressions are made each day by people who try our cream for the first time. The second statement above tells the story-REAL CREAM-that's it, good ice cream can only be made with rich creamy cream, and thats all we use.
