The game ended by a 5-2 score, Musser being a big factor with the stick as well as hurling in grand style. A Des Moines paper, which reached this office, in its narration of the game, devoted a column to the contest, the writer using the name "Musser" in nearly every sentence.

Parties on rural or star mail routes contemplating the erection of new mail boxes should keep in mind that after July 1st the present style of boxes will not be accepted by the Post Office Department. A new style and larger boxes have been adopted, and all new boxes erected must conform to the specifications that will be posted in all post offices from which rural routes start. Of course, the old style mail boxes now in service need not be replaced, but wherever a change is made or a new box erected, it must conform to the latest style of box.

Thomas Hardy, a lad of ten years, who is being reared in the home of Mr. and Mrs. Foster W. Frazier, near Penn Cave station, had a narrow escape from death Sunday a week ago when an infuriated cow struck him down in the barn yard and trampled him. But for the presence of Mr. Frazier the beast would have made short work of the boy, who received a number of scalp and body wounds. The lad had gone to the barn, followed by a dog for which the cow had a decided dislike, and upon spying the canine the cow made a mad rush in its direction. The boy happened to be standing in the way and as the dog jumped aside the cow struck the boy a hard blow, and started to treat him as she would have treated her enemy.

"Cosmopolitan" To Enlarge Its Size.
Cosmopolitan Magazine is to be published in a larger form beginning with the September issue. Its price is to remain fifteen cents. If magazines with but one or two star contributors can sell successfully for fifteen cents, it would seem that with every contributor to Cosmopolitan a star of the greatest brilliancy "there's a reason" for its "over five million readers."

Don't forget the festival on Tuesday evening by the Ladies' K. G. E., in Grange Hall.

The Thrice-a-Week World.

There has never been a time when a newspaper was more needed in the household. The great war in Europe has now entered its second year, with no promise of an end for a long time. These are world-shaking events, in which the United States, willing or unwilling, has been compelled to take a part. No intelligent person can ignore such issues.

The Presidential contest also will soon be at hand. Already candidates for the nomination are in the field, and the campaign, owing to the extraordinary character of the times, will be of supreme interest. No other newspaper will inform you with the promptness and cheapness of the Thrice-a-Week edition of the New York World.

THE THRICE-A-WEEK WORLD'S regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and The Centre Reporter together for one year for \$2.15.

The regular subscription price of the two papers is \$2.50.

Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remediation. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it becomes swollen, and the sound of imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; although cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular free.

**STOP
SLINGING COAL
and
CARRYING WOOD**

It's not a woman's job, but it's part and parcel of a coal range just as much as getting up before the folks to fix the fire for breakfast. It's unnecessary, a hardship, a waste of energy, health, time and money.

For you can get a **New Perfection Oil Cook Stove** at your dealer's that will do everything that a coal range does, and do it better, cheaper and quicker.

A Perfection burns kerosene. And kerosene is ever so much cheaper than coal and wood. And it consumes fuel only when actually in use.

The kitchen that houses a Perfection is a cool, a pleasant place—far different from the hot, stifling coal-range kitchen. And it has every convenience—fireless cooker, a separate

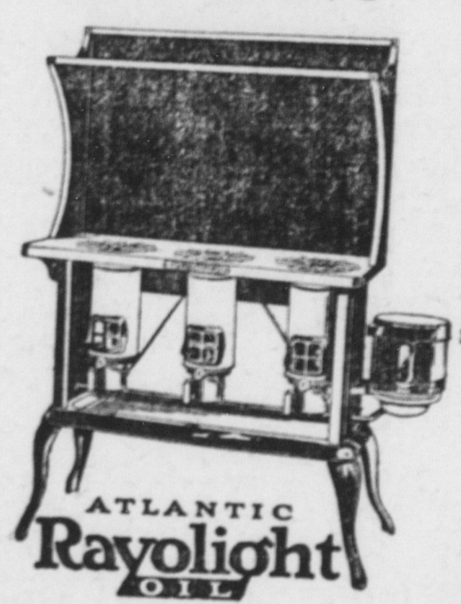

oven, complete control of heat, etc. Don't think of burning anything in a Perfection but Atlantic Rayolight Oil, for it is the one kerosene you can be sure of—that you can buy by name, knowing that every gallon will burn down to the last drop without a bit of smoke, without a bit of smell and without charring the wicks.

Ask for Atlantic Rayolight Oil by name, just as you get most other things the grocer sells. Then you can be sure that out of every gallon of kerosene you buy, you will get the greatest possible amount of heat.

Atlantic Rayolight Oil costs precisely the same as the questionable, unreliable kerosene.

Buy it from the dealer who displays this sign:
