Better Yet" is Slogan for 1917. Executive

Committee Plans Much Work, The executive committee of the Centre County Sunday-school Association met at Orviston on June 30th

and transacted important business. An invitation from the Fundayschools of Centre Hall to hold the next annual convention at that place was received and accepted. The dates selected are June 22 and 28, 1917. The slogan for this year will be "Better

Reports were received from all parts of the county and from all department-Sunday-school work.

While the county is in better shape than ever before, in order to get into Larry Hile, of Axe Mann, were guests the Advanced Standard there is still a of Mr. and Mrs. Samuel Gingerich, great deal of work to be done before September 1st. Enough teacher training classes have not yet qualified. A. C. Thompson, of Philipsburg, the county teacher training superintendent, desires to urge every Sundayschool to do their best to have their teacher training classes take at least one examination at once and report same to him. The county organized Bible class superintendent, L. W. Nuttail, of Philipsburg, advises that the county needs quite a number of organized classes to qualify for Advanced Standard. So all Sundayschools are urged to get their classes organized

There are a great many schools that only need one or two points to place them in Front Line. They are urged to do all they can to secure these points. There are eighteen Front On Sunday evening Rev. Horner will Line schools in the county now; we need about forty.

Let every Sunday-school worker in the county do his utmost to put the county into the Advanced Standard.

The next executive committee meeting will be held at the Y. M. C. A .. Bellefonte, Tuesday, July 25tb, at 1:30 o'clock P. M.

Nescopeck, a pretty town of 1800 people, is planning for its sixth annual Village Picnic, on Saturday, July 15. at Bernesco Park, which is within the limits of the town, one of the most beautiful parks in that part of the state. In this picnic all the churches. civic, benevolent and beneficial orders unite to make it a gala day. Last year fully 2000 people were present; this year more are expected. Rev. G. W. McImay, well known to Reporter readers, is serving his second year as secretary of the general committee, and chairman of the program committee.

The west end of the Mrs. H. J Lambert property on East Church street, was occupied a short time ago by Mrs. Elizabeth West and son Erdman West, of Philadelphia. A large auto moving van was used to transport the household goods from Philadelphia. Another van load is expected here this week. Mr. West is a senior at Pennsylvania State College, and as announced in this paper a short ume age, is betrothed to Miss Ruth I. Lambert, of State College. Miss Ruth at present is at the West home where she is taking care of Mrs. West,

who is an invalid. Cattle-feeders will be interested in the builetin just issued by the Pennsylvania State College, giving results of experimental feeding of six lots of cattle, numbering twelve each. These steers were fed 140 days, on different rations and ratios; and its not only interesting but profitable to study results. The total gain was greatest in the lot which received no grain, which, of course, is a strong point in favor of silage, while the cost of producing the gain was much lower than in the cattle fed on corn and other foods. As to the quality of beef, corp fed and silage fed, that is a mooted question.

The automobile is responsible for acquainting residents of neighboring counties with the beautiful scenery and productive valleys in Centre county. It was the gas wagon that brought W. D. Stulz and Miss Anna Brandt through Centre Hall for the first time to lavish their praise on the metropolis of Penns Valley. The couple are residents of Holidaysburg, where Mr. Stulz is an automobile deal-Mrs Ameda Sechrist and daughter er. BELGIAN FARMS ARE SMALL

el G. Dixon, M. D., Lt. D., Commissioner National Law There That Results In Holdings Less Than an Acre in Size.

An outstanding feature of the Bellive. Living in impure air, his health gian farming is the small size of the gradually depreciates and he becomes farms. More than half of the Belgian

a dyspeptic, predisposed to tuberculc- farms are less than an acre in size. One cause of small farms in Belgium is a law prohibiting the leaving he is unable to enjoy the good things child, declares Wallaces' Farmer. It is required that the property be divid-In this climate the majority of us ed among his children. Of course the

The average acre of Belgian land rents for a cash rent of about \$10, but there is some share renting, the agreement being half and half, and the landlord to furnish half of the fer-

The average value of the Belgian land is now about \$300 an acre, pasture land averaging a little more than this and cultivated land a little less. Eighty years ago Belgian land was worth fust half this much

Why is Belgian land so high? It is not so fertile as much of the land of England or Germany, yet is more valuable because there are some half million Belgians who have the ability air in your rooms at your homes and this because they work hard and are satisfied with little. Another reason for the high price of land is the keen competition for it. Because of the small pieces into which it is divided land is constantly on the market and there are always farm hands and renters who are eager to own a piece of land for themselves, and so the price is bid up to the limit.

GIVES THEM THE WILD FLAVOR

Housekeeper Has Thought Out Particularly Clever Way of Cooking the Domestic Duck.

"I can cook the domestic duck so that you would think it was mallard!" declared a clever little housekeeper the other day.

"At any rate, you would think it was mallard if you knew the delicious and peculiar flavor of that particular bird well enough to recognize it.

"People say that this characteristic flavor is due to the fact that mallard feeds on wild celery. Well, naturally, when I buy ducks in the market it is too late to put them on a diet in the

ordinary sense. "But if I can't feed them celery while they're alive, I can do it after they're dead. Oh, yes, I can! And this is the way I manage it. Instead of stuffing them in the ordinary way, I take stalks of celery which I cut the length of the bird's inside measure ment.

"I put these stalks in 'where the dressing ought to grow,' and I then place the duck in the roasting pan. Instead of putting water in the pan. I pour in a pint bottle of moderate priced Sauterne. Maybe I put a little water in the Sauterne, but not much, Then I baste the duck with this while it is roasting. And if I can't deceive you with the result-well, your palate must have a pretty intimate acquaintance with the flavor of mallard."

The Centre Reporter, \$1.50 a year.

The Great American Smoke

Fall in line with hundreds of thousands of redblooded smokers of the good old U.S.A. Smoke the cigarette tobacco that's been an American institution for three generations-"Bull" Durham. The rich, relishy, star-spangled taste of "Bull" Durham puts the national spirit of get-up-and-hustle into your hand-rolled cigarette. "Bull" Durham is the freshest, snappiest, liveliest of smokes.

GENUINE SMOKING TOBACCO

"Roll your own" with "Bull" Durham and you'll find a far greater satisfaction in smoking your cigarette than you ever did before.

Made of the richest, mildest leaf grown, "Bull" Durham has a delightful mellow-sweet flavor found in no other tobacco.

Men who never smoked cigarettes before are now "rolling their own" with "Bull" Durham.

THE AMERICAN TOBACCO CO.

DURHAM
