Millheim Lad Caught Robbing T.H.

A Millheim youth has finally gotten himself into the clutches of the law after having gone unmolested in his thieving for several months. The Hartline bakery for some time has been the scene of robbing operations, both money and baked goods having been taken with consistent frequency.

Mr. Hartline finally enlisted the aid of Constable Ira Gramley and on Saturday a plan was devised to trap the thief. Secreting himself behind some boxes the constable remained in the shop after Mr. Hartline closed for the noon hour. Ten minutes after the proprietor left his place of business the constable heard a rear window being hoisted and saw a lad of tender years enter and make a bee line for the money till. The constable in shifting his position to gain a better view made a slight noise which caused the boy to make a dash for safety but he was collared before reaching the window. He was haled before a justice of the peace and put under bail for his appearance at the next term of court.

RAILROAD WAGES

Shall they be determined by Industrial Warfare or Federal Inquiry?

To the American Public:

Do you believe in arbitration or industrial warfare?

The train employes on all the railroads are voting whether they will give their leaders authority to tie up the commerce of the country to enforce their demands for a 100 million dollar wage increase.

The railroads are in the public service—your service. This army of employes is in the public service—your service.

You pay for rail transportation 3 billion dollars a year, and 44 cents out of every dollar from you goes to the employes.

On all the Eastern Railroads in 1915, seventy-five per cent of the train employes earned these wages (lowest, highest, and average of all) as shown by the payrolls—

	Passenger		Freight		Yard	
	Range	Average	Range	Average	Range	Average
Engineers	\$1641 3224	\$1931	\$1585 2992	\$1783	\$1303 2178	\$1543
Conductors	1553 3004	1831	1552 2901	1642	1145 1991	1315
Firemen	951 1704	1128	933 1762	1109	752 1633	935
Brakemen	957 1707	1141	862 1521	973	834 1635	1085

The average yearly wage payments to all Eastern train employes (including those who worked only part of the year) as shown by the 1915 payrolls were—

	Passenger	Freight	Yard
Engineers	\$1796	\$1546	\$1384
Conductors	1724	1404	1238
Firemen	1033	903	844
Brakemen	1018	858	990

A 100 million dollar wage increase for men in freight and yard service (less than one-fifth of all employes) is equal to a 5 per cent advance in all freight rates.

The managers of the railroads, as trustees for the public, have no right to place this burden on the cost of transportation to you without a clear mandate from a public tribunal speaking for you.

The railroads have proposed the settlement of this controversy either under the existing national arbitration law, or by reference to the Interstate Commerce Commission. This offer has been refused by the employes' representatives.

Shall a nation-wide strike or an investigation under the Government determine this issue?
