Dr. and Mrs. U. S. G. Keller and three children—Daniel Martha and Kenneth Keller—motored from their home in Warren, Illinois, last week, and spent several days with relatives of Dr. Keller in Boalsburg and Pleasant Gap. The party were in Centre Hall last Wednesday and while here Dr. Keller favored this office with a call.

Dr. W. E. Fischer will fill the appointments for Rev. D. S. Kurtz at Centre Hall and Tusseyville Sunday next. The hours will be 10 o'clock a. m. at the former place and 2:30 o'clock p. m. at the latter. It is twenty-three years since Dr. Fischer vacated the local charge, but his former parishioners are always anxious to hear him expound the scripture, and it was at their solicitation that he consented to preach at the times mentioned.

Ten dollar fine each and the costs was imposed on two Centre Hall young men and one from Sunbury who on Saturday night "for fun" appropriated James I. Fetterolf's car while standing in front of the National hotel in Millheim and for three hours were on a lark. From the garage man's point of view the trick wasn't so laughable and as a result of having the young fellows brought before Judge Brungart on Monday night, Fetterolf collected thirty dollars damage. The young man from Sunbury was not at the hearing but his father guaranteed the payment of the fine.

Mrs. T. W. Simkins will leave this (Thursday) morning for Bloomsburg where she will spend several weeks with Mrs. James R. Schuyler and about September 1st will leave for Philadelphia to make her future home. Mrs. Simkins, during her few years residence in Centre Hall, took an active interest in community welfare work, and served as president of the local W. C. T. U. organization. Her interest in young people was always manifest and the life of more than one young person has been properly guided through her wholesome influence. The best wishes of the community will go with her.

Rev. D. J. Mitterling, after a short visit with his brother, J. W. Mitterling, in this place, departed for his home in Madison, South Dakota, on Monday. Rev. Mitterling, while not having charge of a regular pastorate any longer, still acts in the capacity of a supply minister in the Presbyterian church. Since leaving the ministry Rev. Mitterling has been engaged in the piano business in South Dakota. That he is doing a fine business may be determined when it is said that during his short absence from home his good wife secured twenty prospective piano purchasers. Consequently all that remains for the proprietor to do is to produce the necessary sales talk and land the orders. Rev. Mitterling is the same genial and warm-hearted individual as of yore and never fails to receive the glad hand when making a visit to his native home.

This Overland is the world's most powerful low-priced car. It has a 31 1/2 horsepower en bloc motor that is a perfect marvel for speed, power and endurance. By increasing the bore of the motor from 3 1/8 to 3 3/8 we are able to offer a power plant which at 1950 R. P. M. develops full 31 1/2 horsepower. Tests under every condition in all parts of the country demonstrate that it easily develops better than fifty miles per hour on the road. Speed of course varies under different conditions, but in practically every instance it has been getting fifty miles an hour and with ease. We have scores of telegrams showing that twenty to twenty-five miles per gallon of gasoline is not unusual. The performance of this car is almost beyond belief.

Take any other low-priced car on the market. Pit it against this new Overland. Compare them for sheer speed, for abundance of power, for riding comfort and economy, and you'll find this car will back anything else clean off the boards. That's a strong statement, but a fact nevertheless. Try it yourself and see. Here are more important facts.

It has four-inch tires which are more than generous for a car of this size. Not only has it a large and roomy body, but it has an attractive, up-to-date streamline body. It has the latest and most improved system of ignition. It has the cantilever springs—the easiest riding springs in the world.

What's more, it's complete. Not a thing to buy. You get the finest Auto-Lite electric starting and lighting system, magnetic speedometer, one-man top, demountable rims and practically every accessory found on the highest priced cars. It only goes to prove how big production can cut cost and save you money. First come, first served. Place your order now.
