Just to disprove that not all potatoes are under size this fall, John F. Breon, farmer east of Centre Hall, brought a few samples of his potatoes to the Reporter office. There is no room for disputing that a crop like the samples would make the grower feel like a quarter millionaire.

Theodore Davis Boal's Mounted Machine Gun Troop was due to arrive at El Paso, Texas, last Friday, according to a letter received from a member of the troop, mailed at Liberal, Kansas, enroute to the border. The borough schools opened on Monday, the pupils appearing more than anxious to begin the term which was delayed just one month. There was a large enrollment in all the grades, as well as in the High school. The teachers are: Primary, Miss Helen Bartholomew; Intermediate, D. Ross Bushman; grammar, Elmer Miller; High school, Prof. W. O. Heckman.

A demented man being conveyed by auto from Clearfield to the Danville asylum showed signs of overpowering the two authorities who were holding him in the rear seat of the car while passing through Centre Hall, Tuesday afternoon, and in order that they might have less trouble on the trip a stop was made at the Bozer harness shop where rope was procured for binding the hands and feet of the maniac.

Decker, east of Centre Hall, a short time ago completed the building of a large maure shed to his barn, and with the housing of the season's crops, now finds more time to attend to the selling of Edison amberolas, for which he has the agency. Mr. Decker has an advertisement inserted in this week's issue of the Reporter. Lovers of good music should invite Mr. Decker to give a demonstration of the instrument in their homes.

Michael Speicher, of Pleasant Gap, proved himself hale and hearty at seventy-two years by walking across Nittany Mountain, through Centre Hall, to his farm, west of town, where he is having a new barn erected to replace the one destroyed by fire a few months ago. After dinner he footed it back, a total of ten miles. Mr. Speicher believes walking one of the best means to longevity and during the delightful days of autumn he remains out doors the greater part of the time.

The borough school board met in regular session on Monday morning and besides approving several bills were confronted with a request from a member of the teaching corps to pay the first month's wages in advance, in view of the fact that the schools were closed during September on account of State Commissioner of Health Dixon's order. The contention of the teacher was that the school code made provision for payment in advance under the circumstances while a member of the board interpreted the code in a different light. No action was taken, which is construed as a refusal of the request.

AN ANTI-CAMPAIGN?

As a candidate Mr. Hughes has not yet come up to expectations. The trouble is that he has not yet told the American people positively and concretely just what he proposes to do if elected President. The American people want to know what constructive program Mr. Hughes has to offer them. They demand of a leader a demonstration of leadership. There is a serious danger that the Republican candidate may become an "anti." And it never pays in this world to be an anti-anything.—The Independent.

LIVING ON YOUR NERVES.

Little Talks on Health and Hygiene by Samuel G. Dixon, M. D., LL. D., D. Sc., Commissioner of Health.

Do you live on your nerves? Possibly you do and boast of it as if it was something to be proud of.

Despite ideas to the contrary few people ever work themselves to death. It is usually the combination of business and pleasure at a strenuous pace which does the damage.

It is so easy to go a little further on your nerves when you know that physically you need rest and relaxation. There may be times of stress and strain when it is justifiable to exert every atom of endurance but this is only under special circumstances. To practice it regularly in order to over crowd one's days is certain to result disastrously.

There is much in our modern life with its diversity of interests which tends to excite and irritate the nervous system. We should make an effort to offset this as much as possible. One may find pleasure and diversion without rushing madly about under high pressure.

People who live on their nerves until nervousness becomes chronic find that it brings a train of evils, indigestion, worry, excitability, temper, and restlessness, all great handicaps to efficient work and rational pleasure.

STATE AGRICULTURAL NOTES.

The codling moth is very abundant in orchards that have not been sprayed.

The Baldwin apples throughout the State seem to have been infested by pests and diseases more than any other variety.

Throughout the State greater success has been obtained this year in orchards that were sprayed systematically than for many years.

Dr. J. G. Stover, of Bendersville, Adams County, has sold his apple crop, estimated at 30,000 barrels, to one New York commission house.

Franklin County apple growers report the Jonathan and Gano apples fifty per cent. above last year and the York Imperials almost double. Grimes Golden and Ben Davis are also above the average.

The large peach crop of last year made some growers careless this year and in some sections where a good crop could have been grown there has been only fifty per cent. of an average crop of fair quality.

The Adams County apple crop is about twenty-five per cent. more than last year, but there is some sooty blotch and Baldwin spot. The quality of the apple is better than for some years. One Adams County fruit grower reported a crop of twenty-five carloads of peaches and 6,000 barrels of apples.

A Lancaster butcher was fined \$100 and costs on charges of offering unwholesome meats for sale. Agents of the State Livestock Sanitary Board visited the store on six occasions and found unwholesome meats displayed for sale and being prepared for manufacture into sausage.

Born 'neath  
Virginia's sunny skies

From the sun-bathed fields of Virginia comes the finest-quality cigarette tobacco on earth. Tobacco experts say so.

And it is this highest-grade Virginia tobacco that is in Piedmonts—they're ALL Virginia! Golden, lively, mellow as Virginia's sunshine itself.

That refreshing liveliness in a cigarette, that is known as character, is present from tip to tip in Piedmonts—because none but Virginia tobacco can give this character to a cigarette.

VIRGINIA TOBACCO PAYS NO DUTY—ALL THE VALUE IS IN THE CIGARETTE.

NOTE:—The duty on the Turkish tobacco that goes into a 5c package of so-called blended cigarettes is greater than the cost of the tobacco itself! But Piedmonts, made of highest-grade Virginia tobacco, have all the value in the cigarette—because there is no duty on Virginia tobacco—no ocean freight—no marine insurance, no wasteful handling.
