By-Product Coke Oven.
 The iron industry of this country has been adopting the by-product coking process at a marvelous rate. There are practically no by-product coke plants in the United States, which do not recover ammonia, tar and light oil (crude benzol).

In the vast majority of the plants also surplus gas is recovered and utilized either at the plant itself or by distribution to outside consumers. There are possibly two or three very small by-product coke plants at which tar and ammonia are not recovered for disposal to the outside markets, but these would certainly represent considerably less than 1 per cent of the total by-product coking capacity of the country that is not now equipped with benzol recovery plants, and the by-product coking plants now under construction have either contracted for benzol recovery equipment or indicated a strong probability that such provision will be made.—Metallurgical and Chemical Engineering.

 "Does the possession of a car help you to make friends?"

When Work Is Hard

That kidney troubles are so common is due to the strain put upon the kidneys in so many occupations, such as: Jarring and jolting on railroads, etc. Cramp and strain as in barbering, moulding, heavy lifting, etc. Exposure to changes of temperature in iron furnaces, refrigerators, etc. Dampness as in tanneries, quarries, mines, etc. Inhaling poisonous fumes in painting, printing and chemical shops. Doan's Kidney Pills are fine for strengthening weak kidneys.

FIND VOLCANO IN MINDANAO

Recent Eruption Was Apparent, Lieutenant Donnelly Says of the Discovery.

Mindanao has a new volcano, according to the Mindanao Herald. Lieutenant Donnelly, while on a hike into the interior of Lanao province, discovered an active volcano in the Piagayungan range of mountains, which heretofore was not known to exist. Lieutenant Donnelly says of his discovery in the following report:

"June 5, 1916, the undersigned, in command of a combined detachment of the First Cotabato company, and the First General Service company, on reconnaissance patrol from Kapad northwest through the Piagayungan mountain range, came in sight of an active volcano which from all indications had recently erupted a discharge of volcanic ash and either smoke or flame.

"From the fact that foliage in the forest on the mountain sides three miles to the southeast had been scorched as though by flame, hot smoke or toxic gas, and that ground vegetation of scrub grass and weeds had been partially destroyed, leaving the stalks intact and the scorched leaves retaining their form, it was thought that the eruption had been recent. At all events, so recent that the wind had not blown away nor destroyed the fragile remnants of the burned foliage."

Simply Beyond Them.
 "The subjects of royalty are queer."
 "How so?"
 "They don't seem able to take it in when a king acts like an ordinary human being."

Adds to the Joy of Living—

It isn't alone the deliciously sweet nut-like taste of Grape-Nuts that has made the food famous, though taste makes first appeal, and goes a long way.

But with the zestful flavor there is in Grape-Nuts the entire nutriment of finest wheat and barley. And this includes the rich mineral elements of the grain, necessary for vigorous health—the greatest joy of life.

The Bluff That Failed.

"No," said the fair, but frigid maid, "I wouldn't marry any man on earth."

"I get you," replied the practical youth. "My trusty aeroplane is anchored to the trusty lightning rod, and a friend of mine who is a sky pilot, will gladly tie the knot above the clouds."

And seeing that her bluff was called the fair one struck a match to the iceberg pedestal on which she was posing, and fell into his waiting arms.

Japan's Rising Cotton Trade. Japan's exports of cotton yarn have shown a large increase since the latter part of last year. According to the Japan Chronicle, report of investigations made by the Spinning association, exports of various cotton cloths during the first half of this year amounted in value to \$23,415,072. This figure is unprecedentedly large and shows an increase of \$4,123,467 over the amount for the preceding six months and \$10,966,488 over that of the corresponding period last year. The highest rate of increase was seen in the exports to India, followed by the exports to Siberia, while the exports to the Philippines decreased by about one-half, as compared with the preceding half year.

Avoiding a Suggestion.
 "Do you think your townspeople will give you any banquets?"

Women Once Invalids

Now in Good Health Through Use of Lydia E. Pinkham's Vegetable Compound. Say it is Household Necessity. Doctor Called it a Miracle.

All women ought to know the wonderful effects of taking Lydia E. Pinkham's Vegetable Compound even on those who seem hopelessly ill. Here are three actual cases:

Harrisburg, Penn.—"When I was single I suffered a great deal from female weakness because my work compelled me to stand all day. I took Lydia E. Pinkham's Vegetable Compound for that and was made stronger by its use. After I was married I took the Compound again for a female trouble and after three months I passed what the doctor called a growth. He said it was a miracle that it came away as one generally goes under the knife to have them removed. I never want to be without your Compound in the house."—Mrs. FRANK KNOB, 1642 Fulton St., Harrisburg, Penn.

Hardly Able to Move.
 Albert Lea, Minn.—"For about a year I had sharp pains across my back and hips and was hardly able to move around the house. My head would ache and I was dizzy and had no appetite. After taking Lydia E. Pinkham's Vegetable Compound and Liver Pills, I am feeling stronger than for years. I have a little boy eight months old and am doing my work all alone. I would not be without your remedies in the house as there are none like these."—Mrs. F. E. Yost, 611 Water St., Albert Lea, Minn.

Three Doctors Gave Her Up.
 Pittsburg, Penn.—"Your medicine has helped me wonderfully. When I was a girl 18 years old I was always sickly and delicate and suffered from irregularities. Three doctors gave me up and said I would go into consumption. I took Lydia E. Pinkham's Vegetable Compound and with the third bottle began to feel better. I soon became regular and I got strong and shortly after I was married. Now I have two nice stout healthy children and am able to work hard every day."—Mrs. CLEMENTINA DUBENING, 34 Gardner St., Troy Hill, Pittsburg, Penn.

Jim Was Ahead of Him.
 "It's so strange," sighed the omnibus conductor, "how when two boys start out with equal chances, one of them is bound to forge ahead. There was Jim. He and I were the best of friends in youth. But look at me now. Equal as our chances were, Jim is ahead."
 "What is he doing?" asked the gentleman sitting near the door.
 "He's the driver of this 'ere bus," came the answer. "Did I give you yer ticket, please?"—London Answers.

What Woman Could?
 "It is said that Napoleon used to wipe his pens on his white trousers."
 "No wonder Josephine couldn't live happily with a man with habits like that."—Louisville Courier-Journal.
