Pigs and Kerosene

Agricultural colleges experiment to ascertain the best feeding methods for pigs. By scientific study they determine what will practically assure success and profits.

What has this to do with kerosene? Just this: scientific research by experts has produced a kerosene for you to feed your lamps and oil stoves—a kerosene so highly refined, so pure in form, that it is called

ATLANTIC Rayolight OIL

to distinguish it from ordinary kinds. It will not smell, smoke or char the wicks. You can have a brilliant yet soothing light and a steady, room-filling heat without fussing with burners, trimming wicks and turning the flame up and down. When used in lanterns it gives a clear, far-reaching light. And it costs not a penny more than ordinary kinds. Always ask for it by name.

Watch for the sign—Atlantic Rayolight Oil For Sale Here. You're likely to find it a reliable place to do most of your buying. When the wind howls, and the snow packs along the windows, it's a heap o' comfort to have a barrel of Atlantic Rayolight Oil on hand. Don't take it home unless the brand name is on the barrel.

PERFECTION Smokeless Oil Heater

No chopping kindling, no shoveling coal, no tinkering with draughts. Just strike a match and your Perfection Oil Heater will keep you warm and comfortable, no matter how hard the wind blows. You won't have any smoke, soot, ashes, or the slightest odor. Any dealer will be glad to show you Perfection Oil Heaters, priced \$3.50 to \$5.00.
