

"I DON'T SUFFER ANY MORE"

"Feel Like a New Person," says Mrs. Hamilton.

New Castle, Ind.—"From the time I was eleven years old until I was seventeen I suffered each month so I had to be in bed. I had headache, backache and such pains I would cramp double every month. I did not know what it was to be easy a minute. My health was all run down and the doctors did not do me any good. A neighbor told my mother about Lydia E. Pinkham's Vegetable Compound and I took it, and now I feel like a new person. I don't suffer any more and I am regular every month."—Mrs. HAZEL HAMILTON, 822 South 15th St.

When a remedy has lived for forty years, steadily growing in popularity and influence, and thousands upon thousands of women declare they owe their health to it, it is not reasonable to believe that it is an article of great merit?

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

The Large Bottle For 25¢

When you buy Yager's Liniment you get splendid value! The large 25 cent bottle contains four times more than the usual bottle of liniment sold at that price.

Try it for rheumatism, neuralgia, sciatica, sprains, cuts and bruises. At all dealers—price 25 cents.

YAGER'S LINIMENT

GILBERT BROS. & CO. Baltimore, Md.

His Qualification. "What did that fellow, who is always bragging about how he did everything for himself, advance to qualify for a position in the automobile works?"

"He claimed he was a self-starter."

Out of the Mouths of Babies. Teacher—Tommy, what is the possessive form of Mr. Vail? Tommy—Mrs. Vail.

Meat Eaters' Backache

Meat lovers are apt to have backaches and rheumatic attacks. Unless you do heavy work and get lots of fresh air, don't eat too much meat. It's rich in nitrogen and helps to form uric acid—a solid poison that irritates the nerves, damages the kidneys and often causes dropsy, gravel and urinary disorders. Doan's Kidney Pills help weak kidneys to throw off uric acid. Thousands recommend them.

A Virginia Case

"Every Picture Tells a Story"

Erasmus Williams, 1001 Clearing St., Lynchburg, Va., says: "For years I had trouble from my back and kidneys. The pain in my back came on by spells and it was hard for me to stop. I was often confined to bed for days. I doctored a great deal, but without relief until I began using Doan's Kidney Pills. They removed the pain and other kidney troubles."

HARMFUL CHINCH BUG

Evident That Pest Is Threatening Next Year's Crop.

One Plan of Eradication Is to Burn Over Fields, Woods and Other Favorable Winter Quarters—Heat Will Kill Many.

(By L. HASEMAN, Missouri Agricultural Experiment Station.)

Judging from the numerous complaints being received by the Missouri agricultural experiment station, it seems evident that the chinch bug is threatening next year's crops. Over the state generally the chinch bug's day was brought to a close by the heavy rains of 1915, but as usual, there were enough "for seed" this last spring, and with the unusually dry summer just passed these increased abundantly.

They seem to be most abundant in the central part of the state. Throughout most of the corn and wheat belts of the state there are probably enough bugs to cause severe outbreaks next year. If weather conditions should be especially favorable for them. A dry fall, mild winter, with but little snow and rain, followed by a dry spring and summer are the conditions which will favor the pest. The chinch bug is abundant now, due to the favorable summer just passed, but with plenty of rainfall and snow during the fall, winter, and spring, the chances will be decidedly against outbreaks next summer.

Since it is not possible to know what the fall, winter, and spring may have in store in the way of favorable or unfavorable weather, every farmer should do everything possible to reduce the chance of chinch-bug infestations next summer by getting rid of favorable winter quarters. They winter in dry, protected places, such as meadows, pastures, and waste lands, in woods, neglected fence rows, and similar places. Very few winter in corn fields or in wheat fields. After killing frosts have come, select a dry day when there is not too much wind and burn over fields, woods, and other favorable winter quarters. The heat will kill many of the bugs and expose the rest to the winter and to natural enemies. This pest can be fought successfully at only two times during the year, namely: while clustered in winter quarters, and while migrating from wheat to corn in the summer. Now is the time to get ready to fight the pest while in winter quarters and prevent it from proving destructive next year. A recurrence of this pest like the outbreaks of 1912, 1913, and 1914, which damaged Missouri crops at least \$5,000,000, should be prevented if possible.

HOLDING WOOD IN SAWBUCK

Illustration Shows Device for Preventing Stick From Rolling While Being Sawn.

Anyone who has used a sawbuck knows how inconvenient it is to have a stick roll or lift up as the saw blade is pulled back for the next cut. With the supplementary device, shown in the sketch, from Popular Mechanics, which can be easily attached to the

Stirrup Holds Wood.

sawbuck, these troubles will be eliminated. It consists of two cross-pieces hinged to the back uprights of the sawbuck and a foot-pressure stirrup fastened to their front ends as shown. Spikes are driven through the crosspieces so that their protruding ends will gouge into the stick of wood being sawed. The stirrup is easily thrown back for laying a piece of wood in the crotch.

BEWARE OF THE CROWN-GALL.

Considerable Danger in Using Raspberries as Fillers Among Fruit Trees in Orchard.

There has come to be considerable danger in using raspberries as fillers among fruit trees. The crown-gall disease now frequently attacks the different varieties of raspberries and will be communicated from raspberries to the fruit trees growing in their vicinity. It is therefore now considered the safer plan to use the blackberries or fillers among fruit trees rather than raspberries.

GREAT VALUE OF HONEY BEES

Wisconsin Horticulturists Recognize Worth of Insects as Pollinating Agents.

Wisconsin horticulturists producing annually thousands of dollars worth of fruit and berries recognize the value of bees as pollinating agents and either keep bees in, or near their orchard, regardless of whether or not any honey is produced.—Wisconsin Bulletin 204.

CONCRETE KEEPS AWAY RATS

Rodents Not Only Steal Grain, but Frequently Acquire Taste for Chicks and Eggs.

Rats are among the worst pests about the poultry house. They not only steal a large amount of grain, but frequently develop a taste for young chicks and eggs which seems to be insatiable. A well-made concrete floor and foundation makes an almost perfect protection against rats. A concrete floor itself is not sufficient, for the rats may burrow under it and thus find a perfectly protected breeding place.

A concrete foundation for poultry houses need not be heavy or expensive, if properly made. A trench may be dug below the front line and forms set up six inches apart. A mixture of one part portland cement, three parts sand and two parts gravel will prove plenty strong enough for this purpose.

After it is well set forms can be removed, the floor leveled up and covered with concrete three inches deep, mixed in the same proportions. The floor can be made smooth and level by a straight edge board. Frequently a finishing coat of three-quarters of an inch is put on of a richer mixture and troweled to a smooth finish. Beginning the day after the floor is laid it should be sprinkled two or three times daily for a week so as to prevent the concrete from drying out too rapidly and cracking.

FATTEN CATTLE FOR PROFIT

Baby Beeves Weighing 800 to 1,100 Pounds Are Most Economical for Market to Handle.

(By W. H. FEW, Iowa Experiment Station.)

Although it is nip and tuck whether the farmer who ships in range cattle to feed will make a satisfactory profit, it is quite certain that the man who produces his own cattle and fattens

Young Hereford.

them and markets them when they are from 15 to 20 months old, will make money.

At that age the baby beef will weigh from 800 to 1,100 pounds. The carcass will be the most economical for the market to handle and its production will insure profit for the farmer. Baby beeves will gain about as rapidly in the feed lot as older cattle, and the cost of gain will be less, as much as 3 or 4 cents a pound. If the market is not just right when the baby beef is ready, it may be held and fed until the market is right and it will keep on gaining and gaining economically. There are a number of notable success stories with baby beef production.

SPECIAL ATTENTION TO OIL

In Getting Farm Machinery Ready for Work Look Carefully to Lubrication of Wearing Parts.

In getting the machinery ready for farm operations, Prof. H. C. Ramson of the agricultural engineering department, Ohio State university, urges that special attention be given to the lubrication of all wearing parts. "A full oil can to every machine" is the way he states it. Especially on new machinery and the farm tractor does the use of oil become important. Make sure that all oil holes, wells, pumps, grease cups and bearings are thoroughly cleaned of dirt, grit, paint, and foreign matter before the holes are filled, so that waste matter cannot be carried into the bearings. Clean wool or cotton placed in cups will keep out sand and grit. It is a good practice to use a mixture of equal parts machine oil and kerosene in the bearings for the first few hours of operation of a tractor.

CARING FOR ASPARAGUS BEDS

It Should Receive Liberal Application of Manure—Keep Grass From Crowding It Out.

Cultivate the asparagus bed and keep the grass from crowding it out. It should receive a liberal application of well-rotted manure. Some authorities contend that salt is a good fertilizer to be applied at this season, but that is an open question, and its use is not advised if there is any other fertilizer known to be good, available.

CAREFUL HANDLING OF FRUIT

Necessity for Avoiding Bruising and Mechanical Injuries More Urgent Than Is Realized.

Small bruises and breaks in the skin of fruits are large enough to afford entrance to the sports of fungi, and the necessity for the utmost care in all operations connected with the handling of the fruit, to avoid bruising and mechanical injuries, is more urgent than most growers realize.

THE MARKETS

BALTIMORE—Wheat—No. 2 red spot and November, 191½¢; December 2 red, 192½¢; steamer No. 2 red spot, 173½¢; No. 2 red Western spot and November, 197¢; December 2 red, 198½¢; steamer No. 2 red Western, 180½¢.

Corn—Prime Southern corn in fair local demand, but very little offering. A small bag lot of Southern yellow corn, 8y-cut, sold at \$1.12 per bu, delivered. Prime salt yellow corn, old, for domestic delivery, is steady at \$1.15 per bu for car lots on spot.

Do You Get Up With a Lame Back? Have You Rheumatism, Kidney, Liver or Bladder Trouble?

Pain or dull ache in the back is often evidence of kidney trouble. It is Nature's timely warning to show you that the track of health is not clear.

Danger Signals. If these danger signals are unheeded more serious results may be expected; kidney trouble in its worst form may steal upon you.

Thousands of people have testified that the mild and immediate effect of Swamp-Root, the great kidney, liver and bladder remedy, is soon realized—that it stands the highest for its remarkable curative effect in the most distressing cases. If you need a medicine, you should have the best.

Lame Back. Lame back is only one of many symptoms of kidney trouble. Other symptoms showing that you may need Swamp-Root are, being subject to embarrassing and frequent bladder troubles day and night, irritation, sediment, etc.

Prevalency of Kidney Disease. Most people do not realize the alarming increase and remarkable prevalence of kidney disease. While kidney disorders are among the most common diseases that prevail, they are sometimes the last recognized by patients, who very often content themselves with doctoring the effects, while the original disease may constantly undermine the system.

Regular fifty-cent and one-dollar size bottles at all drug stores.

Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., which you will find on every bottle.

SPECIAL NOTE—You may obtain a sample size bottle of Swamp-Root by enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y. This gives you the opportunity to prove the remarkable merit of this medicine. They will also send you a book of valuable information, containing many of the thousands of grateful letters received from men and women who say they found Swamp-Root to be just the remedy needed in kidney, liver and bladder troubles. The value and success of Swamp-Root are so well known that our readers are advised to send for a sample size bottle. Address: Dr. Kilmer & Co., Binghamton, N. Y. When writing be sure and mention this paper.

Early Christian. "Does your minister practice what he preaches?" the newcomer questioned.

"He does," the citizen answered with a sigh, "and I'd be perfectly willing to have him stop. He lives next door to me, and begins at seven o'clock Sunday morning to practice what he is going to preach."

DON'T LOSE YOUR HAIR. Prevent It by Using Cuticura Soap and Ointment. Trial Free.

If your scalp is irritated, itching and burning and your hair dry and falling out in handfuls try the following treatment: touch spots of dandruff and itching with Cuticura Ointment and follow with hot shampoo of Cuticura Soap. Absolutely nothing better.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Had Inside Knowledge. Fiance—And will Bobby be sorry when I marry his sister? Bobby—Yes, I will, 'cause I like you.

Kidney Disorder. (BY DR. V. M. PIERCE.) The most simple methods are usually the most effective ones when treating any disorder of the human system. The mere drinking a cup of hot water each morning, plenty of pure water all day, and a little Anurie before every meal has been found the most effective means of overcoming kidney trouble. Death would occur if the kidneys did not work day and night in separating poisons and uric acid from the blood.

The danger signals are backache, depression, pains, heaviness, drowsiness, irritability, headaches, chilliness, rheumatic twinges, swollen joints or gout.

Since it is such a simple matter to step into your favorite drug store and obtain Anurie, anyone who earnestly desires to regain health and new life will waste no time in beginning this treatment.

DELAWARE NEWS. Bethany Beach, Del.—"I had a complete break-down from overwork," the doctor said. I surely was a complete wreck and suffered terribly from bladder and kidney trouble; in fact, I was down on the flat of my back for about two weeks, could not do anything. My suffering was so great I can't explain it. The doctor said I had inflammation of bladder and kidneys. He came every day and finally managed to get me up and around, but I still was a great sufferer. I never got much relief until I began to take Dr. Pierce's Anurie, and from the very first dose I began to get relief, and in two days I felt well, and I never have had one symptom since. I can't praise this medicine enough. I have been waiting to see if the pain would return, but I believe I am cured."

MRS. ALMIRA I. HENDERSON, Send Dr. Pierce, Buffalo, N. Y., 10c for trial package of Anurie.—Adv.
