SWAMP-ROOT STOPS SERIOUS BACKACHE

When your back aches, and your bladder and kidneys seem to be disordered, remember it is needless to suffer-go to your nearest drug store and get a bottle of Dr. Kilmer's Swamp-Root. It is a physician's prescription for diseases of the kidneys Only Successful When Stock, Farm and bladder.

It has stood the test of years and has a reputation for quickly and effectively giving results in thousands of cases. This prescription was used by Dr. Kilmer in his private practice and was so

very effective that it has been placed on sale everywhere. Get a bottle, 50c and \$1.00, at your nearest druggist. However, if you wish first to test this

great preparation seud ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.--Adv.

Best Excuse."

"Does your husband ever tell you. when he stays out late at night, that it was because somebody gave an interesting talk at the club?" "No."

"How interesting! Doesn't he ever give you any excuse at all or make ny explantion?"

"Never. He works on a morning newspaper."

HOW TO TREAT DANDRUFF

Itching Scalp and Falling Hair With Guticura. Trial Free.

On retiring touch spots of dandruff and itching with Cuticura Ointment Next morning shampoo with Cuticura Soap and hot water. A clean, healthy scalp means good hair and freedom, in most cases, from dandruff, itching burning, crustings and scalings.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L. Boston. Sold everywhere .- Adv.

She Ought to Know.

Harold was passing through a period of soldier worship; anyone with epaulets was to him all-wise and whol ly perfect.

He went one day with his mother to call on an elderly widow whose husband had been a general in the Civil war. During the course of the conversation the two ladies became involved in a very mild disagreement as to some trifling detail. Harold endured it for a moment, then he observed, chidingly:

"Mother, don't you think a general's wife ought to know?"

Making Him Useful. Walter Damrosch is quoted as tell

TO PRODUCE BABY BEEF BIG TRUTH IN "LOAFER LAND" Job of Clearing Fields of Stumps Can Be Done on Days When Other First Essential of Ticklish Busi-

Work Is Not Pressing.

Everybody hates a loafer around who consumes without giving anything in return. United States agricultural department, in naming stump land "loafer land," has struck upon a big truth that every farmer should take into consideration.

Men who have made careful study of the situation claim that every 12-The production of baby beef is a square feet of land. At first this statefully done only when stock, farm and ment may seem somewhat surprising the man behind both are all adapted and many farmers seem to feel that to a very risky undertaking. The by pasturing their stump land there is whole object is to turn twelve to sixteen month-old calves off as prime fat

Cultivator. In most stump fields pounds in much less time than rethere is an average of 150 stumps to quited for general steer raising. The the acre, some much larger than 12 whole thing means quality animals inches. With an average of 150 stumps to start with. It means offspring from to the acre you are simply wasting 15,000 square feet of land to each acre, and as there are only 43,000 no other breed need apply in the prosquare feet to the acre, you are wastduction of real baby beef, says a ing one-third of your land. Suppose writer in Baltimore American. Both mothers and offspring must be abunsomeone were to propose to you that of each 30-acre pasture you shut off dantly fed so as to keep these young ten acres for the pure joy of seeing things steadily on the gain, eating to it wasted. You would think him uttheir full capacity, from birth to marterly absurd, but it is no more absurd than to continue letting your land and be given an abundance of nu-

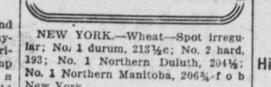

with dynamite you will find a surprising lot of "loafer land" converted to usefulness for the year's end.

Rubbish Can Be Utilized in Or-

chard and Garden.

The value of refuse hay, straw litter and other rubbish for vegetable might be used to enrich the garden and orchard soil.

time for it to decay and be of use to the soil. By applying this fall and turning it under the soil will be revived and enriched and hence made next spring.

General Carranza has acted for the betterment of Mexico by issuing a decree abolishing bullfighting, long regarded as the national sport of Mexico. The decree states the government is under obligations to stamp out cus-

toms which are opposed to culture, and to aid civilization by elevating the moral level of the people. It de-Canada is stronger than ever in the nounces bullfights as needlessly endangering the lives of men, torturing beasts, provoking sanguinary sentlments and disgracing the country.

Then what a commentary on the poor of Mexico follows !- Immediately after the denunciation of bullfighting the decree ads that builfights cause misery to the poor; who, for a moment's enjoyment, go without the necessuries of life. This remarks the El Paso (Tex.) Herald, is an admission that the masses of Mexico are willing to deprive themselves of food and clothing to enjoy something which is a disgrace to the country.

This recalls a statement ascribed to the late President Diaz, who, when asked once whom the people of Mexico would elect for president if allowed an unrestricted exercise of the ballot, is said to have replied: "Bombito, the bullfighter."

There may have been some truth in market value of Western Canadian the alleged interview, or it may be wheat. The same may be said of oats, wholly fictitious. If at all true, it ilof barley and of rye. But when it came ustrates the hold which the so-called to notice that Western Canada took sport has had upon some Mexicans, first prize for alfalfa, it was then that especially the lower classes. more special attention was given to
