**Save Pennies—Waste Dollars**

Some users of printing save pennies by getting inferior work and lose dollars through lack of advertising value in the work they get. Printers as a rule charge very reasonable prices, for none of them get rich although nearly all of them work hard.  
Moral: Give your printing to a good printer and save money.

**Our Printing Is Unexcelled**

**Got Something You Want to Sell?**

Most people have a piece of furniture, a farm implement, or something else which they have discarded and which they no longer want.  
These things are put in the attic, or stored away in the barn, or left lying about, getting of less and less value each year.

**WHY NOT SELL THEM?**

Somebody wants those very things which have become of no use to you. Why not try to find that somebody by putting a want advertisement in THIS NEWSPAPER?

**ADMIRAL DEWEY LAID TO REST**

Public Honors Seldom Equaled Accorded Dead Hero.

**SALUTE OF 19 GUNS FIRED**

President Wilson and Other High Dignitaries To Be In Cortege. Three Services Arranged.

Washington.—Admiral Dewey, the hero of Manila Bay, was buried at Arlington Saturday with public honors seldom equaled in the nation's history. After services in the rotunda of the Capitol the body was followed down Pennsylvania avenue and across the Potomac to its resting place by a cortege including all the officials of the Federal Government, the diplomatic corps, ranking officers of the army and navy, many military and naval bodies in uniform, committees of the House and Senate and representatives of many patriotic societies and other organizations. Flugs on American public buildings, forts and naval vessels throughout the world were at halfmast, and at noon, senior warships of the American Navy everywhere fired a farewell salute of 19 minute guns. During the services at the Capitol, which were attended by President Wilson and many other officials and distinguished men and women, the body rested on the same catafalque and at the same spot in the rotunda where Lincoln, Garfield and McKinley lay in state. Chaplain Frazier, Dewey's and the Olympia's chaplain at Manila, officiated.

A brief ceremony at the Dewey residence, attended by near relatives, by the President and Mrs. Wilson and by a few close friends, preceded the Capitol observances, and in conformity to the Admiral's expressed desire, the Annapolis midshipmen were the only military escort when the body was taken from the home. The larger military escort following included the entire corps of midshipmen, the bluejackets of the battleship New Hampshire, marines from Norfolk and Philadelphia, artillerymen from Fort Monroe and points along the Potomac, and many other units. Accompanied by their officers on foot, they marched in the inverse order of their rank in special full-dress uniform.

Behind the military in carriages was the President, the Cabinet, the Chief Justice and Associate Justices of the Supreme Court, the diplomatic corps and the committees of Congress. The Society of Manila Bay, made up of officers who were under fire with Dewey at Manila, was given a special place in the military section, but the committee of other patriotic societies and miscellaneous organizations rode behind the Government officials.

By order of President Wilson, all executive departments were closed throughout the day. All business houses in Washington were closed from 11.30 to 12.30 o'clock.

Navy officers said that perhaps the most unusual of all the honors paid the dead hero was the salute of 19 guns fired at noon by American warships. It is the salute of the Secretary of the Navy, and 17 guns is the designated admiral's salute. The extra honors, given under order of Secretary Daniels, was extended in recognition of Dewey's rank, unique in American history, as the Admiral of the Navy.

**375 MINERS KILLED IN 1916.**

West Virginia Planning State Rescue Crew.  
Charleston, W. Va.—Earl Henry, chief of the Department of Mines, announced that 375 miners had been killed in the mines of the State in 1916. Of this number 119 met death in McDowell county, 60 in Fayette county and 40 in Raleigh county. In each of four counties only one fatality occurred. While the mining department has received notable aid from the Federal Bureau of Mines after a number of explosions, a movement has been set on foot for the creation by the State of a rescue body, to be provided with its own car and trained crew, modeled after the United States standard.

**CAVALRY INAUGURAL ESCORT.**

Fort Myer Troops Selected By Wilson As Personal Guard.  
Washington.—President Wilson has decided to use the Second Cavalry troops at Fort Myer, Va., as his personal escort at the inaugural ceremonies. The announcement ends a competition nation-wide between volunteer military organizations and National Guard troops, which had been striving for the honor.

New York.—Increased prices for cigarettes were announced here by the United Cigar Stores Company and the Tobacco Products Corporation. Advances by the United, to become effective Monday, range from 1 to 3 cents a box. The higher cost of labor, tobacco and wrapping material is given as the reason.

**TIME TO WAKE UP**

REPUBLICANS TRY TO CONTROL FUTURE FROM PAST.

When the War is Over We Shall Face Totally New Situation in Oversea Trade—Will Not Need High Tariff Wall.

The Republican element keeps harping on the protective tariff issue. It takes its ultimate stand on the declaration that we shall witness at the close of the war a tremendous industrial productivity on the part of the nations now at strife and that the only hope for our own possession of our home market will be the erection of the highest of high tariff walls about it. It is the purpose of this article to demonstrate that in so holding the G. O. P. turns to the broken bottles of the past to hold the new wine of the commercial future of America.

When the war is over we shall face a totally new situation in foreign trade. Up till August, 1914, we were debtors internationally. Every year we exported far more than we imported, the excess going to pay interest and dividends to foreign creditors and foreign holders of our stocks. This normal export balance is a sign of a debtor nation. It is characteristic of the trade of Russia, Japan, Peru, Argentina, Chile, the United States. On the other hand, the normal trade of Great Britain, Germany, France, Austria-Hungary and Italy has for years shown a large import balance. These nations owned so many overseas enterprises and had so much money lent beyond their own domains that, taking their pay in the products of the debtor countries, as they needs must, they received more goods than they sent out.

Now for the situation after the war. During the past two years the United States, as nearly as we can tell, has changed from a debtor to a creditor nation. It is not money lent to new and undeveloped countries like Brazil and Argentina that has wrought this change; it is money lent to the great manufacturing nations of Europe.

How will they pay our dividends and interest?

Not in gold. We have, during the past two years, received some \$450,000,000 gold on balances, and to take more would mean to weaken the foundations of international credit so far as to invite a general European financial smash which would destroy the ability of our European debtors to pay their debts. We cannot, generally speaking, take raw materials from our European debtors for the very sufficient reason that they haven't got them; we are ourselves sellers of raw materials to Europe. There is but one thing left; we must take Europe's manufactured goods in amounts altogether new to our former experience, simply because Europe owes us, must pay and has nothing else to pay with. This is not going to happen by reason of anybody's desire or choice, nor can it be staved off by any kind of legislation, political change or trade policy. When Smith owes Jones, Jones must take what Smith has to pay with, or go unpaid.

**McAdoo on Dollar Diplomacy.**

No American of the present hour is more typical of the best things in his generation than Secretary McAdoo. Take this utterance from the secretary: "We have substituted dollar exchange for dollar diplomacy, which is the true way to secure and hold our share of the world's commerce. Dollar exchange represents the conquest of foreign markets through friendship and reciprocally advantageous trade relations. Dollar diplomacy represents the attempt to secure foreign concessions and trade by force—by the use of the army and navy of the United States."

Secretary McAdoo believes that the possession of great wealth means increased opportunity for service. And he has placed the impress of his constructive statesmanship upon the finances of his country in the most critical hour in the history of world finance.

**Thought Everyone Knew That.**

Readers of some of the newspapers so anxious to prove things against President Wilson will soon be convinced, no doubt, that he started the war in Europe.

**Let 'Em Live.**

There will be no general objection to the continued existence of the Republican party if it will cease to contend for the offices.

**Get a G. O. P. Leader.**

It will be time for the Republicans in congress to talk about changing their leader when they succeed in getting one.

**Those Progressive Members.**

The few Progressive members of the next house of representatives at Washington must be highly complimented by the distinguished attention that they are receiving from Oyster Bay. Three months ago Mr. Roosevelt was devoting his days and nights to the proposition that the highest duty of a Progressive was to vote the straight stand-pat ticket. Not one of these men would be in a position to accept instructions from the colonel if his admonitions had been heeded at the polls.

**\$24,850,000 ASKED FOR HIGHWAY WORK**

Budget Prepared For Legislature Calls For \$6,000,000 Yearly Construction.

Harrisburg.—The State Highway Department announced that it had prepared a budget for submission to the General Assembly calling for \$24,850,000 for two years. Commissioner Black said that the budget contained "the department's own figures," and had no reference to previous announcements.

The budget is as follows: Six million dollars per year for State highway construction, \$12,000,000. One million dollars per year for construction of State highway routes in boroughs, \$2,000,000.

This money is to be used only in building missing links in boroughs, where a State highway route is improved up to each end of the borough, the money to be allotted to the various counties on a mileage basis. Final decision as to the expenditure to be left to the State Highway Commissioner. Any unexpended balance in each county to be available for use on routes outside of boroughs in said county.

One million five hundred thousand dollars per year for State aid construction and maintenance, \$3,000,000. Two hundred and fifty thousand dollars per year for the purchase of turn-pikes and toll bridges, \$500,000, local authorities paying fifty per cent. of the cost of freeing toll roads and bridges.

Township road bonus deficiency for the years 1912, 1913 and 1914, \$1,350,000. In addition, the necessary legislation is asked to make available the automobile license fees for State highway maintenance, three million dollars per year, \$6,000,000.

**Normal Schools Ask More Money.**

Increases in the State appropriations for normal schools will be asked of the General Assembly when the budget for the educational departments of the State Government is made up and there will be a request for \$100,000 to enable the State to continue purchase of control of such schools and for some means to extinguish debt on the properties. Principals of the State normal schools have asked for additional allowances because of the advance in prices, the increases in pupils and demands due to the establishment of vocational and agricultural training. The debt on the normal schools amounts to \$700,000 and was taken over when the State bought the ten schools it controls. These schools are valued at about \$5,000,000. Three schools remain to be bought.
