STATE AGRICULTURAL NOTES,

The extensive demand for fat and bologna cows at good prices has bad the effect of reducing many dairies in Bucks county.

There are an unusually large number of farm sales this spring and in some sections the farmers, both owner and tenant, have given up the work on account of scarcity of farm help.

Secretary of Agriculture Charles E. Patton urges all farmers not to reduce their acreage in potatoes this year as a continued potato famine would be a great calamity with the country in its present unsettled state.

A Chester county cattle dealer was fined twenty-five dollars and costs amounting to over one hundred do!lars for illegally importing cattle into the State. A number of tuberculous cows were driven from Maryland

SILK-HATTED CROOK GONE

nals Like Those That Throve

The silk-hatted, bewhiskered higholess srook has shaken the New York dust off his spats and disappeared. He is absolutely extinct. A modern criminal who can boast a good suit of clothes now is termed "Raffles," or, if he is suspected of wearing what some call a dress suit he is a "gentleman burglar." Usually he "Raffleses" a couple of times, making a few small clean-ups, and then is netted, arraigned and sent away to a place where he gets his hair cutting and clothes pressing done free.

There are plenty of free lances of crime circulating around where legal tender or other valuables can be annexed by a little exertion at some risk, but the old-time bands of bold, bad, debonair knights of dark deeds have faded away. There are plenty of men who skulk through what is vaguely termed "the underworld" and who take a desperate chance at impromptu crimes, robberies, hold-ups or sneak thief jobs, which suddenly come under their attention.

These men are not the same caliber as the big criminals of thirty years ago, although occasionally one of the modern specimens stumbles upon a rich haul. The police say up-todate methods have driven them from the game. The green goods men and gold brick canvassers have followed the bison and the Indian over the last frontier, as an organized criminal industry. The "wireless" wire tappers have been hunted down and out. This band has been dispersed to various iron-barred havens of rest, leaving the country capitalist safe to wander through Manhattan without being tempted to play the races on some intercepted tip.

#### SAW THEMSELVES IN MOVIES

Exhibition at Vassar College That Caused Much Laughter Among the Student Body.

The students of Vassar college had an opportunity the other day to see how well they would appear as motion picture actresses, says a Poughkeepsie dispatch to the New York Tribune. They attended a show and aw themselves on the screen.

The pictures displayed were taken by Prof. George Burbank Shattuck, ead of the geology department. They ncluded features of last year's class lay, Founders' day and the recent fiftieth anniversary, such as the pageant, the gymnastic exhibition and the acadamic procession.

There was much laughter in the auience, which was composed mostly of the "actresses." Frequently such outbursts occurred as "Gracious! Did auct. look like that!" "Oh, look! Here come!"

One girl exclaimed: "Heavens! never knew my belt wes unpinned!" Another walled: "Why didn't I look at the camera, so I could see my-

## Busy Bulgarian City.

Varna, the Bulgarian Black seaort which the Russian fleet bombarded, has the unusual distinction of be ing a fortress, a seaport, a departmental capital, and an episcopal city. Its industries include brewing, distill ing, tanning, clothmaking, and cotton spinning. The city has been identiled with an ancient Milesian colony, that of Odessus, of the lower Moesian coast. In late days it figured prominently in history in connection with the battle fought near by, in which Sultan Murad II slew Vladislaus III of Poland and Hungary, and routed his army in 1444, ten years before the Turks took Constantinople. In recent years it has been successively in the hands of the Russians, of the Crimean allies, and of Egyptian troops. By the treaty of Berlin it was ceded to Bulgaria.

Unwholesome Scotch Atmosphere. Alaska's Timber Resources. The railroad now under construction in Alaska from Seward to Fairbanks will open large tracts of timber for cutting. It is estimated that twenty million acres of good forest are found in Alaska, and four times that area of scattered timber. Sawmills are preparing to follow the railroad builders into the country and in a few years the output of that region will hold an important place in the country's lumber cut. The principal wood is spruce, but there are fairly large quantities of others, including paper birch.-Hardwood Record.

New York Hasn't Any More Crimi-Some Thirty Years Ago.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being'a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
