

# "CASCARETS" ACT ON LIVER; BOWELS

No sick headache, biliousness, bad taste or constipation by morning.

Get a 10-cent box. Are you keeping your bowels, liver, and stomach clean, pure and fresh with Cascarets, or merely forcing a passageway every few days with Salts, Cathartic Pills, Castor Oil or Purgative Waters?

Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will make you feel great by morning. They work while you sleep—never gripe, sicken or cause any inconvenience, and cost only 10 cents a box from your store. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, Coated Tongue, Indigestion, Sour Stomach or Constipation. Adv.

## AMERICAN SHOES IN MOSCOW

Even With Freight and Import Charges Added Prices Lower Than Russian Footwear.

American shoes which were put on sale in Moscow, late in the autumn, seem to have made a good impression, remarks Russia, a journal of Russian-American trade. The Journal of the All-Russian Company of Tanners says of them: "Shoes imported from America have appeared on the market in Moscow. Some firms have already put them on sale, and speak very highly of them. The workmanship of the shoes seems to first impression to be rough, but the prices (in spite of the fact that the price of footwear has risen by 25 per cent in America), plus the import duty and cost of transportation, are lower by two or three rubles a pair (\$1 to \$1.50) than current Russian prices. One is forced to believe that the import of these shoes must increase in the near future, although, on the other hand, it must be regarded as a handicap that the American supplier makes it a condition that a third of the cost must be paid in cash at the time the order is taken, and the balance of the money on the arrival of the goods at Vladivostok."

## HARRY K. THAW ADJUDGED INSANE

Will Be Kept in Hospital Pending Removal to Asylum.

## HARD FIGHT TO BE RENEWED

A Committee Appointed To Take Charge Of His Property—His Mother Personal Custodian.

Philadelphia.—Harry K. Thaw was adjudged a lunatic by the Common Pleas Court of this city, and under the law cannot be taken to New York on requisition to stand trial on charges of assassinating Frederick Gump, Jr., a high school student, of Kansas City, Mo. Thaw will be kept in St. Mary's Hospital here pending his removal to a Pennsylvania asylum.

The court's action was based on the report presented by a lunacy commission, which took the testimony of Thaw and his mother, his sister, Mrs. Carnegie, and his brother, Josiah Thaw.

Physicians testified before a lunacy commission that Thaw was suffering from dementia and would get worse as time went on.

The commission heard testimony reviewing his life from the time he was 21 until his recent attempt at suicide.

Judge Martin appointed J. Denniston Lyon, a Pittsburgh banker, and Dr. Walter Riddle, the Thaw family physician in Pittsburgh, as a committee to take charge of Thaw's estate. They will enter \$600,000 security. Thaw's present income, according to his counsel, is between \$75,000 and \$80,000 on two trust funds left by his father, William Thaw.

No appeal from the court's decision can be carried to the Supreme Court, according to Thaw's attorney. Immediately after the announcement of Judge Martin's decree, Thaw's counsel, in a telegram, notified Governor Brumbaugh of the action taken on the question of Thaw's sanity and the appointment by the court of committees of his person and estate.

By the court's decree the police guard at Thaw's bedside at the hospital will be withdrawn and a private guard substituted. The decree orders that he stand committed to the hospital for the time being pending his removal to another institution. In another decree Judge Martin appointed Thaw's mother custodian of his person.

## VILLA TAKES PARRAL.

Report Says He Then Marched On Chihuahua.

El Paso, Texas.—Francisco Villa captured Parral, Chihuahua, Saturday, according to a report received by Government agents and forwarded to Washington.

Villa then led his forces down the mountain and started toward Chihuahua City with the intention of attacking the State capital, according to the same source of information.

An American mining man arrived here from Magistral, Durango, and reported to his employers that Villa forces entered Magistral 15 days ago and killed two Americans, Lou Zeiler and C. A. Winn, and a number of Mexican men employed there. The report has not been confirmed.

## JAP WARSHIP TO BRING BODY.

Tokio Will Pay Signal Honor To Ambassador Guthrie.

Tokio.—As a special mark of honor to the late George W. Guthrie, American Ambassador to Japan, the Emperor is expected to detail a Japanese warship to transport the body to the United States. The official announcement designating the warship is anticipated with great interest because, broadly interpreted, it will be a special manifestation of friendship for the American nation, especially as Japanese warships are at present occupied in patrol duty in the Pacific and Indian Oceans.

## ALGONQUIN SUNK WITHOUT WARNING

U-Boat Commits Overt Act Against United States.

## CHINA BREAKS RELATIONS

Commander Of Submarine Refused Tow To Ship's Boat—Twenty Shells Fired At Ship.

London.—The American steamer Algonquin, of 2,832 tons, from New York to London with foodstuffs, was attacked by a German submarine on March 12 without warning and sunk 65 miles west of Bishop's Rock.

Capt. A. Nordberg and the members of the crew reached Penzance, Eng. There were 19 Americans in the crew of 27, four of whom were born in the United States and six naturalized; all escaped.

The Algonquin was torpedoed at 6 o'clock in the morning. The submarine refused assistance, according to the report of the Consul at Plymouth. Twenty-seven men have been landed.

The German submarine opened fire upon the Algonquin from a distance of 4,000 yards, firing about 20 shells. These were not sufficient to sink the steamer, so she was boarded by men from the submarine, who placed four bombs, and the Algonquin was then blown up. The crew was given plenty of time to leave the vessel.

### U-Boat Threat Fulfilled.

Washington.—All official comment upon the sinking of the American freighter Algonquin leads to the conclusion that the Administration will take no step further than those already taken to protect American ships and American lives pending the re-opening of Congress on April 16.

The view of the President's advisers is that there is nothing more the Government can do short of a formal declaration of war. Such a declaration, of course, must come from Congress. The Executive may recommend it, but that is as far as he may go in that direction.

It was admitted that the unofficial reports and the brief official reports as well, indicated that the sinking of the Algonquin was an overt act.

It seems to be a settled fact that the vessel was attacked without warning and that the lives of the captain and crew were saved only because the ship did not immediately go to the bottom.

## GERMAN SHIPS SEIZED BY CHINA.

Action Follows Upon Severance Of Diplomatic Relations.

Washington.—American Minister Reinach at Peking reported to the State Department that China had severed diplomatic relations with Germany and that the German Minister had been handed his passports.

China has taken possession of all German merchant ships in Shanghai, about six in number, placed their crews on shore under guard, and put armed guards on the vessels. Seizure of the German ships may be taken by Germany as an act of war, as in the case of Portugal.

## 20 BRITISH SHIPS DESTROYED.

U-Boats' Victims In Week Included Three Fishing Vessels.

## PARIS FIGARO SEIZED.

Published Editorial Criticizing Action Of Deputies.

Paris.—The Figaro was seized. This action is attributed to an editorial published in the newspaper criticizing the attitude of the Chamber of Deputies toward General Lyautey, who resigned as Minister of War.

## PAYS FOR 160 ACRES OF LAND

From the Crop of Wheat on 53 Acres in Western Canada.

This story of paying for your land out of one year's crop is fully authenticated by a great many farmers in Western Canada.

And now, all that the farmer makes is velvet and you find him going more extensively into stock raising, for all authorities agree that in a short time there will be a demand for live stock, such as even will tax the vast resources of Western Canada. They will go into stock raising because of the adaptability of the country to provide food and fodder without feeding grain if necessary. They will go into stock and improve their places. They will install steam and heating plants—in fact, many are now doing it. They will have automobiles, in fact in many districts there is not a farmer but has one. They will beautify their homes and erect fine barns until the whole country will be as attractive as many of the counties in the best states in the Union. But we started out to tell you of the farmer who paid for 160 acres of land from the crop of wheat of 53 acres. The Holden district on the line of the Grand Trunk Pacific does not appear to be the ordinary observer to be any better than many other districts along that line, and probably isn't. It was in this district that John Larocque, a settler, purchased in 1915 160 acres of raw prairie land. He broke and seeded 53 acres. His crop turned out well, and he sold the greater portion of it for \$2,970. His land cost him \$16.50 per acre, or \$2,640. So that the crop from the 53 acres paid for the land and left a balance of over \$300, which with part of the crop left over would just pay for the cost of operation. This is not really an unusual case, hundreds of other farmers in Alberta and Saskatchewan having been able to do the same.

Sales of land are being reported from many districts in Manitoba, Saskatchewan and Alberta at good prices. And values are yet low, but with the flow of any value that will take place after the war, no doubt they will be considerably increased. The homesteads in the Park sections which are to be had actually free are having the attention of a good class of settlers, who want to go into mixed farming.—Advertisement.

## BOMB EXPLODED IN COURTHOUSE

Two Men Blown to Pieces in Boston Building.

## JUDGE IN ADJOINING ROOM

Foreigner Who, With Janitor Is Killed in Anteroom Of Court, Believed To Have Been Bomb Carrier.

Boston.—A bomb exploded in the Suffolk county courthouse, killing two men and injuring another. One of the dead was Louis A. Zelinger, a janitor employed in the building. The other, unidentified, was believed by the police to have been the bearer of the explosive.

The object of the bomb carrier is uncertain, but the fact that Judge William A. Loring's session of the Supreme Court was only 25 feet from the anteroom in which the explosion occurred indicated to the authorities that he may have been the objective. It is thought the explosion was premature.

Except for the shattering of windows, no damage was done in Judge Loring's court, which was in session. The anteroom where the explosion occurred was damaged materially. Girl stenographers fainted, a jury that was locked up for deliberation in a room overhead clamored for release, and a court officer collapsed, but order was quickly restored and strong guards were placed over both the court house and the nearby state house.

The unidentified dead man apparently was a foreigner, probably of Southern European origin.

It was learned that the explosive probably was nitroglycerin contained in an iron vessel, and possibly loaded with shrapnel. A bomb of this nature was exploded at the harbor police station in the North End recently, and police are endeavoring to learn whether there was any relation between the two incidents. The authorities also are working on the theory that the bomb carrier had a grievance against the courts. An arrest was made, but the police said they placed no special significance in the man's detention.

## RELIEF STEAMER DESTROYED.
