WOULD TAKE BIBLE TO RICH

They Do Not Take Time for God's Werd, Is Assertion by New York Pastor.

"Pity the poor rich, for they are the poores of all. They are barricaded against the Bible. If the Master himself were to undertake to carry his message personally to the hotels and apartment houses of New York he would be turned aside by the doorman with the information that 'No peddlers are allowed."

So Rev. Joseph W. Kemp, pastor of Calvary Baptist church, explained to me the Sunday sermon in which he said that "the crying need of religion in this city is to put Bibles in the homes of the wealthy."

"How hardly shall they who have riches enter into the kingdom of heaven," the divine earnestly quoted. "It is not that the possession of riches is inconsistent with Christianity, but that the rich grow to worship the creature of their own brains-money. They believe that riches may be counted in the palm. This is not so. True riches are within. There are millionaires of the mind, Rockefellers of the soul, and they are found oftener than not among the poor-the rich poor whose doors and whose intellects are open to the Gospel of Christ."

"To what do you attribute the religious apathy of the rich?" I asked Doctor Kemp.

"The rich are obsessed with materialism." Doctor Kemp answered. "They have all the time in the world to read the latest novel, to go and see the latest play, but they have no time for the word of God."-Nixola Greeley-Smith, in New York World.

NORTH OF THE ARCTIC CIRCLE

Investigation Has Shown That Agriculture May Very Well Be Carried On In the Region.

That crop production may be practiced north of the Arctic circle is one of the interesting facts brought out by a report on a reconnoissance soil survey in Alaska. This embodies the results of a study of the soils of a vast area in Alaska by experts of the bureau of soils, made for the purpose of determining the possibilities of agricultural development.

It was found that gardening is carried on and grass thrives in Alaska, up to and north of the Arctic circle. In addition it is shown that the climate and soils of Finland are very similar to those of Alaska, the latitude of the two regions being practically identical. In Finland a number of crops are grown at a considerable distance north of the Arctic circle. Barley, for example, is generally grown as far north as 68 degrees 30 minutes, or 2 degrees north of the circle. Almost 7,000,000 acres in Finland were under cultivation and in improved meadow in 1911. That (reported in 1917), and about 85 per cent of this number live outside the cities. Crop production, stock raising and dairying are important indus-

This comparison with Finland and another with parts of Siberia are given to demonstrate the possibility of agricultural development in

## Positively Prevents Punctures

TOW, please don't say, "Oh, just another one of those tire-fillers," and let it go at that! ESSENKAY is a tire-filler, but not the kind you probably have in mind. It is nothing like the ones that have been tried and found wanting, but is a wonderful discovery that has at last solved the problem of a real substi-

#### Cuts Your Tire Cost in Half

ESSENKAY not only positively prevents punctures and 'blowouts," (there is no air to puncture or "blowout"), but also doubles life of your casings and saves half your tire cost. First cost of ESSENKAY is your last cost, as it lasts for many years and is transferrable from one set of casings to another indefinitely. Investigate ESSFNKAY Today!

D. S. ISHLER, Agent, Centre Hall. Pa.

# WEDNESDAY

RIGHT in the midst of everything—a sudden thought: "Wonder how the fire is?" Then, it's leave your sweeping, run downstairs, rake and shake, shovel coal and trudge back again. Wouldn't it be fine to go right ahead and forget about the kitchen? It certainly would! And you can.

# NEW PERFECTION OIL GOOK-STOVES

have brought a new kind of sweeping day-a new kind of every day to thousands of busy housewives.

A Perfection Oil Cook Stove will come into your kitchen and lighten your burdens. All you do is strike a match and "put on the things."

You can regulate the heat exactly as you want it. It stays that way without watching. You'll be specially interested in the fireless cooker and the separate oven. Look up the dealer near you who sells Perfection Oil Cook Stoves.

#### THE ATLANTIC REFINING COMPANY Philadelphia and Pittsburgh

Another important thing is that Perfection Oil Cook Stoves burn the most economical of fuels-kerosene. There's a difference in kerosenes -not a price, but a quality. To be sure of getting perfect results, ask for Rayolight Oil. It's so highly refined and scientifically purified that it always gives an even, intense heat without sputter, smoke or smell. Look for the sign:
