Your boy,

NED.

a letter conveying our thanks.

## INTERESTING LETTER FROM FORT NIAGARA. 3175 REGISTERED

Intensity of Training is Shown from Fact That Officers-to-be Are Required to Complete in Three Months, Work on Which Four Years is Spent at West Point.

[ By NED W. KELLER, to His Mother.]

Officer's Reserve Training corps. | of turning out for mess call we enjoyed 2nd Company Infantry. Fort Niagara, N. Y. June 2, 1917.

Dearest Mother :-

After three weeks of intensive training I can report to you that I am feeling well and happy and were you to see me now you would be surprised for I and tanned as can be and last night I tipped the scales at 170 pounds. With the substantial army mess and the have time to write and you can also rest assured that I am thinking of you have sent me I am faring very well and have no complaint coming.

This proved to be a very strengous week and aside from the half holiday on Weinesday we were on the go from Monday morning at five c'clock till noon today. I know very well that every fellow in Company 2 was very glad for a half day rest on Wednesday and also when all drill was called off at noon today.

While I am sitting on the edge of my bunk and writing to you possibly registrants, caused Sheriff Yarnell to half of the boys are resting here in the send the following notice to police and q arters, for we sure had a strenuous constables of Centre county : orning workout. We were up at flye o'clock and ready for Reville at tunity has now been given, and there 5.45. In the meantime we had time is no longer any argument upon to dress, make up our cots and police which non-registrants can be conthe quarters. At eight o'clock we doned, the period of leniency now has started out for a hike with full packs passed; therefore it is requested that and also our guns. This was some- every effort be now made to detect thing new for us, for up to this time and arrest persons subject to registrawe only marched with guns and side tion who have not registered, and to arms and I can say that I have enjoy- bring each case promptly to the attened the practice marches immensely, tion of the nearest representative of As I said before we were all looking the department of justice. It is the forward to this trip for according to duty of all registrants to assist in the reports of those who had been at bringing this matter to the attention the border we could then judge our- of constables and police. The secseives as to whether we had any staying qualities or not. We started to pack up at 6.30 and I dare say no pulsory registration by the officer easy task to arrange everything in full making the arrest, of each arrested marching order. The pack and have person immediately upon his convicersack containing mess kit, two cane tion. of hardtack, bacon can, canteen, one bi nket, poncho (gum blanket) shelter half (known as pup tent), towel, soap, tools, cartridge beit, first aid kit, gun and bayonet, all this weighs about 30 pounds and everything has its place tooth brush, one pair of socks, trench on our person so as not to interfere with our walking. We left the barracks shortly after eight o'clock and immediately started in on quick time, three weeks and became ill a week which means a full thirty-inch step and about 120 to the minute. After marching about 3½ miles we were given a ten-minute hait and it was a tired lot of boys who lay down immediately from where we fell out of line. This refreshed us very much and even though it was more laborious than it would seem yet we march- at her home near Zion on Thursday ed back to the quarters feeling none afternoon. She complained of pains the worse for the ordeal. In reality in the breast and laid down on the these practice marches are part of our couch after dinner. A daughter, who recreation periods, for indeed everyone had gone away for the day, returned seems anxious when the time comes in the evening to find her mother for them. We march along with our dead. Mrs. Shaffer was aged about guns thrown over our shoulders, some- seventy-six years, and is survived by times at quick time and again at her husband and eight children. gouble time which means running and it sure is inspiring to hear the whole Company singing the army song. Many of the companies have adopted their own and I think Co. 2 has the

The Old Gray Mare ". "Uncle Sammy, he needs the infantry. He needs the cava ry, He needs the artillery, And then, by gosh, we'll go to Germany. Then poor old Kaiser Bill, Poor old Kaiser Bill. Poor old Kaiser Bill. " (Repeat.)

best of them all. The first verse may

interest you for it is set to the tune of

When we came back we had inspec- June 3rd at her home in Slateburg. tion of arms and also of quarters. This means that we must stand at attention for an hour and this time everything has to be in apple-pie order. Our guns are inspected and every particle of dust must be removed. Our personal appearance must be of the first order and especially do we have to keep our snoes shined. This is a big part in our discipline for we may have them clean and during the next drill we may encounter a mud hole, and according to military rule there is "no getting around it." That occurs a dozen times s day, so you see, mother, why I am always writing for shoe polish. At present I am out so the order will stand good for this week. Thanks for being so prompt with the other things I needed.

I cannot begin to tell you all that weeks the desired for the stand of the stand and the stand so the other things I needed.

Wednesday.

I cannot begin to tell you all that happens here every day for we are busy from 5 a, m, till 9.45 p. m. You might get a better idea of how busy we are when I tell you that they are trying to give us in three months what they cover at West Point in four years, with the exception of higher mathamatics. In a few words let me say that it requires constant application to our work ffom morning till night and you may be sure every one is nere with the desire in his breast to get cut of it all that he possibly cap, for we realize that as we stand and witness the solemn ceremonies here every day just what the great call to democ racy is and what it was that brought ning.

I believe there was some talk before I | Charleston, South Carolins, are guests left home, that the young men were on- of the former's aunt, Mrs. T. L. Smith, ly enlisting here for the financial gain in this place. they would get out of it, but let me tell you that is all tommy rot, for very sel-dom do you ever hear any one men-tilds, and L. C. Reisner, of Millerstion the fact here in camp. After we arrived in camp it took a very short ville, were in town Tuesday evening time to realize the service that we interviewing the public school teachare called upon to perform and I feel ers in regard to a form of teachers' insure that every one here was "con-script of conscience" rather than a "conscript of draft." A cons
