The borough streets are being oiled this week.

The present war will teach us one thing at least: to give.

Community picnic, on Grange Park, Centre Hall, July 4th.

F. D. Brislin is expected home from Connecticut today (Thursday).

Mr. and Mrs. L. H. Hoffman and family motored from Altoona on Sunday and spent the day at the John F. Breon home, near Centre Hall.

Rev. Josiah Still preached the sermon at the services in the Grange hall, Milesburg, last Sunday afternoon, in memory of the deceased members, Mrs. Resiges and Mr. Eisenhauer.

When you go to church or Sunday-school next Sunday, be prepared to make a contribution for the Red Cross that will make you feel that you are really patriotic on that Sunday.

Last week the Methodist church in Millheim was wired for electric light and this week the National hotel, of which J. R. G. Allison is proprietor, is being made ready for the current. Messrs. Edgar Sommers and C. W. Boczar are doing the work.

If you are interested in canning, preserving or drying be sure to attend the public meeting in the Grange Arcadia tonight. You may learn something that if practiced universally will greatly aid in increasing the food supply during the winter months.

Buckwheat was the only new crop generally sown by the Penna Valley farmers on account of the agitation to expand the variation of crops to help feed the world. There are patches of buckwheat on many farms today that did not grow a stalk in many years.

Mr. and Mrs. James A. Brown and three children; Mr. and Mrs. Frank Dietz, Miss Marie Fite and Mr. Pheasant, all of Altoona, were an auto party who spent part of Sunday with Mr. and Mrs. C. M. Smith and family, Mrs. Smith and Mrs. Brown being sisters.

Mr. and Mrs. L. L. Smith attended the commencement exercises at the Bloomsburg State Normal school this week, their daughter, Miss Ruth Smith, being a member of the graduating class. Miss Smith, a few weeks ago, was elected to teach the grammar grade of the Boalsburg schools next term.

In the Red Cross fund campaign conducted at Steubenville, Ohio, last week, a feature was an immense parade in which Guy W. Jacobs, whose home is in Centre Hall, captured first prize in the men's teams contest. The teams he had in the parade were those used by the Steubenville Ice company, of which he is the manager.

Hugh Smith, son of R. M. Smith, of Centre Hill, a lad of about fourteen years, had the misfortune to be hit by a Ford crank and the result was a broken bone in the forearm. He was cranking the car at the Sprucetown church, Sunday evening after the children's day service, when the engine back-fired and did the mischief. Dr. H. H. Longwell reduced the fracture.

On Monday afternoon when Daniel Weaver left his wagon to deliver some flour to Reish's saw mill at the east end of Brush valley, the horses took fright at a steam whistle and started on a hard run over a mile of corduroy road with a small boy, Stanton Hosterman, on the wagon trying to check the runaway. The team finally came to a stop, having torn a trace and broken a few bolts.

Josiah C. Rossmann, of State College, was a caller at this office on Tuesday evening on his return from a trip through Clinton, Lycoming, Northumberland and Union counties. His main object was to see his son, Abner Rossmann, who for a number of years has been a railroad clerk in the Montgomery station on the Penna. The junior Mr. Rossmann decided to leave the railroad service and has taken an interest in a shirt factory in Elizabettsville, which concern employs forty girls. His partners are his father-in-law and brother-in-law.

Messrs. T. L. Broitz, H. C. Siebert, and C. D. Booher were a hiking party from Lewisburg that crossed the Seven Mountains on Tuesday via the old turnpike that emerges from the mountains at Zsrby, and from there went to Penna Cave. After viewing the natural scenery there they voted their hiking finished, coming to Centre Hall in a car and here took passage on the bus for home, very much sore and tired out, yet repaid for their trip. The first two were the superintendent and principal, respectively, of the Lewisburg public schools, and the latter is one of the teaching corps in the High school.

Margaret Luse, daughter of Mr. and Mrs. Milford Luse, narrowly escaped from being run down by an automobile. The child, about six years old, was coasting on an express wagon from the Reporter office down past C. M. Smith's store and at the crossing ran into an automobile driven by a stranger. The wagon struck the rear wheel of the car and was knocked to the side and upset, throwing the little girl to the ground, but no injury was sustained. The driver of the car stopped it dead, jumped out and picked up the little girl and was much relieved when he found no injuries had been inflicted, although he was not at all responsible for the accident.

ALL BRANCHES OF ARMY SERVICE ARE OPEN TO YOU.

Effective June 21, 1917, the toll and long distance rates of the Bell Telephone Company of Pennsylvania has been so revised as to establish all such rates on an air-line distance basis and to bring about an entire uniformity of charges for like distances.

In general the rate has been reduced, although in some cases there has been slight increases and many of the former rates have been continued. Altogether a saving of \$250,000.00 will result.

Involved in this rate revision is the substitution of "two number" calling for "Particular Person" calling on toll messages between Centre Hall and certain nearby points to which the volume of traffic are such as to warrant the provision of a special no-delay service. By a "two number" call is meant a call by number only, no particular person being asked for when the call is given to the operator. On a "two number" call, the calling Subscriber should not leave the telephone but should remain with the receiver at his ear; the connection will be established immediately. Whenever this "two number" calling is substituted, the initial period of connections has been increased from three minutes to five minutes.

This method of "2-number" calling is now generally in effect throughout the Bell system and connection between nearby points; by facilitating the handling of the telephone traffic, it contributes very positively to the speed and effectiveness of the service and permits of a longer period of connection for the initial period.

In cases where "2-number" calling is now substituted for "Particular Person" calling, the revised rates are determined on the same basis—as mentioned above—all charges remain unchanged, certain of them have been reduced and a few have been increased.

There follows a comparison of certain of the old and new rates to points nearby.

OH, that dreaded wash day! Isn't there some way to do it easier—some way to avoid that terrific kitchen heat, the back-breaking job of toting wood, shoveling coal and cleaning out ashes? Yes, madam, there is.

**NEW PERFECTION OIL COOK-STOVES.**

have chased this wash-day bugaboo away to stay. With a Perfection in your kitchen you won't have heat all the time, but just when you need it. The water gets hot—off goes the heat, fuel expense stops, the kitchen cools off. You save money, time and work.

And the Perfection will bake, boil, fry or roast at a minute's notice. Just light a match and it'll begin to "do things up brown."

Your dealer will explain its many fine points, such as the fireless cooker and the separate oven.

Your Perfection, or any other oil-burning device, simply can't give best results unless you use Rayolight Oil. It burns without sputter, smoke or smell. And it doesn't cost a penny more than the ordinary kinds. Always look for this sign:
