Twenty-Five Years' **Experience With This** Kidney Medicine

It is a quarter of a century since I introduced Dr. Kilmer's Swamp-Root to my trade and they all speak very favorably regarding it, and some friends said it is the best medicine they have ever used. The sale we have enjoyed on the preparation and the splendid reputation that it feels is a positive proof that it is one of the most meritorious remedies on the market. Very truly yours,

OLD-TIME CHICAGO AND NEW YORK PLAYERS

When Fred Merkle went to the Cubs he found not a single player who was with the team in 1908, when the Cubs won the pennant from the Giants through Merkle's oversight in not touching second. All of the old Cubs are gone, though four still remain in the National league. Evers and Reulbach now form the coaching squad of the Braves. Schulte plays the outfield for Pittsburgh, while Zimmerman, the kid infielder of 1908, now is McGraw's third

Of the 1908 Giants, only Herzog is left in New York and he has been a Gotham inhabitant only off and on-McGraw having traded him away twice and traded him back twice. Charley put in terms in Boston and Cincinnati. Like Zimmerman, Doyle and Merkle, Herzog was a rookle infielder in 1908. He came into the league that season. Marquard, now with Brooklyn, went to the Giants in the fall of 1908, while Leon Ames, though a veteran of the Giant pitching staff in 1908, still is pitching good ball in St. Louis. Matty, of course, still is in the league as manager of Cincinnati, but Big Six is no longer in active service.

Then you know what it is to see the Pittsburg club without see the Pittsburg club without Hans Wagner in the show.

C., where Dave first attracted attention.

Dave is temperamental. He is a Southerner with the Southerner's contempt for the Northerner's brusqueness. He is a great ball player, and he knows it fairly well. But Dave wants to be great in his own way. If he doesn't feel like stretching his legs in a sprint to first base, why it's nobody's business, so he does as he

Exhibition Game Between Giants and Tigers Called on Account of Unusual Wind Storm.

Ball games have been called off on ccount of wetness, but seldom on account of too much dryness. This is what happened to the Giants-Tigers contest scheduled for Oklahoma City exhibition. A high wind took all the moisture out of the diamond and scattered the sand diamond so that it couldn't be played on. The visiting players took a look at the situation and refused to go on. "Why, the whole in St. Louis. Mitler Huggins seems to infield is up in the air," said one of them, as the wind scooped a wagonload of sand out of second base and Cincinnati politicians are grooming deposited it in the pitcher's box. Not many persons who come to the Waldorf-Astoria travel with a frying pan as an important part of their baggage, and when a guest from Nevada telephoned down to the office that his frying pan was missing, and that he was anxious to catch a train for his home inside of half an hour, there was consternation among the clerks, says the New York Times. Investigation showed, however, that the man from the quick-divorce state had not been trying to lower the cost of living by turning his room into a kitchenette during his visit. He is part owner of a gold mine out in Nevada, and when he came east he brought the pan along to show his old friends here what panning gold was like. He had been demonstrating this during the morning before an interested group, using the washstand as a sluice, when, receiving a sudden call, he put the pan withsome gold in it in the handlest spot, and hurried downstairs. When he came back later to pack his grips, the pan was missing. Investigation revealed that the maid who attended the room had found the frying pan, and its presence was such an unusual

Would Have Doctors Exempted. Many members of the medical profession are indignant at the fact that medical students have not been exempted from military service under the compulsory-service bill, although theological students have been exempted. The need for a supply of physicians, of course, will be increased by the war, which will take many of them to the front. Keeping enough doctors at home to take care of the civil population is one of the perplexing questions faced by the council of national defense. Also, the number of students in this country has been reduced in recent years by the strict standards imposed upon schools, which has put many of them out of business and increased the length of time required for a physician to qualify for practice.
