Since the wheat crop in this county is harvested, we learn from a number of farmers that the heads are not as well filled as expected, and that the yield will be less than appearances indicated in the field.

**Coal That's All Coal Hourly-Tested Cement**  
We handle the choicest grades and you can count on our deliveries. Our coal comes from mines that have high reputations for careful grading, and our cement comes from the pioneer manufacturer whose product for a quarter of a century has represented the high-water mark of quality. It is  
**ALPHA THE GUARANTEED PORTLAND CEMENT**  
and ALPHA Cement is tested by chemists every hour, day and night, throughout the process of manufacture. They make sure that the raw materials are of the proper grade, and mixed, burned and ground exactly right. The result is that ALPHA is always high in binding power.  
We warrant every bag of ALPHA Cement invariably to meet standard specifications for fineness, tensile strength and binding-power. It makes concrete that grows harder and stronger with age. The people who buy ALPHA Cement once always come back for more.  
Try our coal or cement the next time you order. If you are planning to build or make repairs, come in and get our valuable 80-page book, "ALPHA Cement—How to Use It." It tells how to mix concrete and how to make dozens of interesting improvements on the farm or around the house.
