

# WOMEN OF MIDDLE AGE

### Mrs. Quinn's Experience Ought to Help You Over the Critical Period.

Lowell, Mass.—"For the last three years I have been troubled with the Change of Life and the bad feelings common at that time. I was in a very nervous condition, with headaches and pain a good deal of the time so I was unfit to do my work. A friend asked me to try Lydia E. Pinkham's Vegetable Compound, which I did, and it has helped me in every way. I am not nearly so nervous, no headache or pain. I must say that Lydia E. Pinkham's Vegetable Compound is the best remedy any sick woman can take."

Other warning symptoms are a sense of suffocation, hot flashes, headaches, backaches, dizziness, impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness, inquietude, and dizziness. If you need special advice, write to the Lydia E. Pinkham Medicine Co. (Confidential), Lynn, Mass.

### 62 Die Every Minute.

The annual death rate of the human race is 33,000,000. That's 91,000 a day, 3,700 every hour, 62 every minute. One-half of the human race die before they are sixteen years old; one-quarter of the human race die before they are five years old. The average length of a human life is thirty-three and one-third years. Not one man or one woman in a million lives to be one hundred years old. But don't let this discourage you from taking as good care of your health as if it were a new motorcar.

### "SKY LINE" LOGGING LATEST

Modern Methods of Western Camps Said to Be Cheaper and More Efficient Than the Old Ways.

In the logging camps of Oregon and Washington a "skyline" method of logging is proving much cheaper and more efficient than the former method of dragging out logs from the forest by a donkey engine and cables operating on the ground, says Popular Mechanics Magazine. The skyline plan is to run a cable through blocks or pulleys suspended at a great height on giant trees, so as to form a sort of trolley line by which the logs are hoisted into the air and then hauled over the tops of ordinary trees and other obstructions to the railway, where they are loaded aboard freight cars for shipment.

The donkey engine which operates the skyline has five drums, including two for main lines and two for trip lines. The top cable, from which the log is suspended, is one of the main lines, while the other is used to haul the log. In operation the top cable is lowered with its block, or trolley, directly over the log to be picked up; it is then pulled taut, raising the log with it by means of a "chocker," or steel tongs. In the air a log can, of course, be moved much faster than on the ground.

### A Philadelphia Idea.

Music and cleaning the parlor have never been very closely associated. When the housewife wants to play the piano she generally waits until she has cleaned the parlor, taken a bath and dressed herself in party clothes. Now a Philadelphia man has patented a dust-filtering attachment which can be attached to the player-piano, and the ordinary housewife can now seat herself at the player-piano, obtain music via the keys, work the pedals for all she is worth and, with her child to run the vacuum cleaner about the floor, she can have it clean in a jiffy. The bellows of the player are attached to the vacuum cleaner by means of a special pipe, and in this manner the needed vacuum is created for cleaning purposes.

If a man is able to gain time he gains everything.

# PUTS DRY BILL UP TO STATES

### Senate Passes the Prohibition Amendment By 65 to 20

### SIX YEARS TO TAKE ACTION

### The Measure Goes Through Apparently in Order That Senators Might Rid Themselves Of Political Question.

Washington.—A resolution for submission to the states of a prohibition amendment to the Federal Constitution was adopted by the Senate. The vote was 65 to 20, eight more than the necessary two-thirds.

As adopted the resolution contains a provision that the states must be asked to ratify the amendment within six years. The House still must act on the resolution.

Senators voting for the resolution were: Democrats—Ashurst, Bankhead, Beckham, Chamberlain, Fletcher, Gore, Hollis, Jones, of New Mexico; Kendrick, King, Kirby, McKeellar, Martin, Myers, Newlands, Overman, Owen, Pittman, Ransdell, Robinson, Sausbury, Shafroth, Sheppard, Shields, Simmons, Smith of Arizona, Smith of Georgia, Smith of South Carolina, Stone, Swanson, Thompson, Trammel, Vardaman, Walsh, Williams and Wolcott. Total, 36.

Republicans—Borah, Brady, Colt, Cummins, Curtis, Fernald, Frelinghuysen, Gronna, Hale, Harding, Johnson of California, Jones of Washington, Kellogg, Kenyon, Knox, La Follette, McCumber, McNary, Nelson, New, Norris, Page, Poindexter, Sherman, Smith of Michigan, Smoot, Sterling, Sutherland and Watson, Total, 29.

Senators opposing the resolution were: Democrats—Broussard, Culberson, Gerry, Hardwick, Hitchcock, Huston, James, Lewis, Phelan, Pomerene, Reed and Underwood. Total, 12.

Republicans—Brandegee, Calder, France, Lodge, Penrose, Wadsworth, Warren and Weeks. Total, 8.

Senator Smith, of Maryland, was not present, being indisposed.

### First To Pass Either House.

The proposed constitutional amendment is the first initiated by Congress since that providing for popular election of United States Senators, approved in 1911. It is the first time that either branch of Congress has approved a constitutional amendment for prohibition. A few years ago a similar resolution in the House received a majority but failed of the required two-thirds.

Prohibition leaders of the House now claim enough votes to insure submission of an amendment to the states. When the resolution can be considered in the House is uncertain, but its friends will seek early discussion. The Senate's action came after three days' debate. All efforts to amend the resolution failed except for the addition of Senator Harding's amendment fixing the six years' time limit within which three-fourths of the states must ratify the amendment to make it effective. This was approved by 56 to 23.

### What Resolution Provides.

As adopted, the resolution, which was submitted by Senator Sheppard, of Texas, Democrat, would add the following article to the Federal Constitution:

The manufacture, sale or transportation of intoxicating liquors within, the importation thereof into, or the exportation thereof from the United States and all territory subject to the jurisdiction thereof, for beverage purposes is hereby prohibited.

This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the Legislatures of the several states, as provided in the Constitution, within six years from the date of the submission thereof to the states by the Congress.

The Congress shall have power to enforce this article by appropriate legislation. Although most of the debate on the resolution had been perfunctory, the usual scenes marking the end of warmly contested legislative fights were re-enacted. Brief, spirited speeches under a 10-minute limit were made to crowded galleries, with the Senate sweltering in one of the hottest of summer days.

### May Put Off Dry Vote.

Washington.—Notwithstanding radical agitation among certain members of the House for an immediate vote upon the nation-wide prohibition amendment, the outlook favors a postponement of all action on the measure until Congress reassembles in December.

Early in the present session the Democratic caucus went on record in favor of taking up this amendment and the one providing for woman suffrage at the regular winter session. At the time this action was taken, however, the Senate had no plan for an early prohibition vote, and many of the Democratic members regard the vote in the Senate as effecting so complete a change in the situation that the caucus decision should be disregarded.

### More Than Two Million Russian Soldiers On Retreat—Eighth Army, Composed Largely Of Cavalry, In a Critical Position.

London.—A dispatch from the headquarters of the Russian Seventh Army says the situation is more hopeful. Panics among the retreaters are suppressed ruthlessly. Three divisions of cavalry have taken positions across the whole front of retreat. Deserters are shot and attempts to spread panic are suppressed by prompt executions. Deserters, spies and agitators who enjoyed complete immunity under the committee system lie dead on the highways. A paper pinned on the corpses reads: "Here lies a traitor to his country."

Red badges and other symbols which accompanied the demoralization have almost disappeared. It is conservatively estimated that more than two million Russian troops are steadily marching rearward. These constitute the Eleventh and Seventh Armies with their reserves. The Eighth Army, which is largely cavalry and not included in the foreign figures, also is retreating and its position, says the correspondent, is extremely critical. The Germans are straining every effort to capture it while following up the Eleventh and Seventh Armies and it looks as if the Eighth Army might be caught in a bag.

The notable growth in the number of enemy war prisoners escaping from Russia since the revolution is engaging the attention of the military authorities. According to published data from the beginning of the war until March a total of 5,350 escapes have been registered, whereas during March 735 managed to get away, in April 2,518 and in May more than 3,000 escaped.

North of Huslatyn, on the Russo-Galician frontier, the Russians restored their position on the East bank of the River Zbrocz, says the official statement by the Russian War Department. Austro-German efforts to force a passage across the Zbrocz in the region of Pukllany and Podlipie were frustrated.

Zaleszick has been evacuated by the Russians under heavy pressure. On the Roumanian front fortified positions on the right bank of the river Putna, northwest of Soveia, were captured by the Roumanians.

An official statement issued says: "According to reports of secret service agents, the present German offensive was undertaken as the result of detailed testimony concerning internal conditions of the Russian Army, which had been placed in the hands of the German chief of staff, Field Marshal von Hindenburg. It appears, had promised Emperor William that in two months he would put Russia out of action."

### Little Kingdom Getting \$7,500,000 a Month From America.

Washington.—A loan of \$2,500,000 was made by the United States to meet the immediate needs of the Belgian Government. It was in addition to the \$45,000,000 credit established some time ago, under which \$7,500,000 is being advanced to the little nation monthly.

### 1 OUT OF 7 WASHINGTON RATIO.

### Third Of Registration May Be Called To Get Quota.

Washington.—Only one out of every seven Washingtonians conscripted under the Selected Draft law has been found available for the new national army in the examinations so far made. The local boards put out calls for another 100 per cent. quota. At the present rate it looks as if 7,000 men, or one-third of the registration in Washington, will have to be examined before the District's quota is filled.

# Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and a FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrup," etc. You should not permit any medicine to be given to your children without your or your physician's knowledge of what it is composed. CASTORIA DOES NOT CONTAIN NARCOTICS, if it bears the signature of Chas. H. Fletcher.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*

# Canadian Farmers Profit From Wheat

The war's devastation of European crops has caused an unusual demand for grain from the American Continent. The people of the world must be fed and wheat near \$2 a bushel offers great profits to the farmer. Canada's invitation is therefore especially attractive. She wants settlers to make money and happy, prosperous homes for themselves by helping her raise immense wheat crops.

**160 ACRE FARMS IN WESTERN CANADA FREE**

You can get a Homestead of 160 acres FREE and other lands at remarkably low prices. During many years Canadian wheat fields have averaged 50 bushels to the acre many yields as high as 45 bushels to the acre. Wonderful crops also of Oats, Barley and Flax. Mixed farming as profitable an industry as grain raising. The excellent grasses full of nutrition are the only food required for beef or dairy purposes. Good schools, churches, markets convenient, climate excellent. There is an extra demand for farm labor to replace the many young men who have volunteered for the war. The Government is offering farmers to put extra acres for low prices. Write for literature and particulars as to road and railway rates to Dept. of Immigration, Ottawa, Canada, or J. P. JAFFRAY, Cor. Walnut & Broad Sts., Philadelphia, Pa. Canadian Government Agent

### Natural Study.

The teacher was hearing the class in nature. Trying to impress upon the children's minds the horror of cruelty to animals, she told the following story:

"Once a farmer went out to milk a cow and a little calf switched the man in the eye with its tail. The man took out his knife and cut off the calf's tail. Now, children, what verse in the bible should that man have remembered?" "Blessed are the merciful," but Philip had another answer: "What God hath joined together, let no man put asunder."—Exchange.

### Not So Smart.

Mr. Flatbush—It's the same old story. Mrs. Flatbush—What's wrong now? "I painted the front gate and hung a sign on it: 'Fresh Paint.'" "Well?" "The first man who came along put his hand on it to see if the paint was really fresh." "Don't be so smart." "Why?" "That wasn't a man that put his hand on the paint to see if it was fresh; that was me."
