

Thirty-five Years Ago.

October 5, 1882.—The farm of Rev. P. F. Fisher, deceased, was sold to Andrew Korman for \$6000.

Jacob Meyer, an old and respected citizen of Linden Hall, died a few days ago.

Squire Herring, of Gregg, recently lost three cows from the effect of eating too much young clover.

The corner stone of the Evangelical church in Georges Valley, on the road leading to Potters Mills, will be laid on Sunday, Oct. 15th, 2 p. m. Rev. W. Swengle, P. E., and Rev. N. Young, of Brush Valley, are to officiate.

James McCormick, of near this place, died on Tuesday evening, after great suffering.

A sudden and mysterious death occurred in this place a few days ago. James Wolf, a young man and son of John Wolf, of Potters Mills, was found at the residence of John Gingerich, of this place, on Saturday evening, in convulsions and unconscious. His death occurred next day, symptoms of poisoning having manifested themselves. The young man seemed depressed a short time ago.

**IS MOST VENOMOUS SNAKE**

Echis Carinata of India, Found in Nearly Every Part of Peninsula, Is Death Itself.

The most venomous of snakes is held to be the Echis carinata of India. It is about 18 inches long and of a gray color. The creature is death itself, and carries in its head the secret of destroying life with the concentrated agony of all the poisons.

This snake is tolerably common in India, being found in nearly every part of the peninsula.

Fortunately, however, for man, it is not, like the cobra, a house-frequenting snake, for its aggressive habits would make it indefinitely more fatal to life than its dreaded relative.

This king of the asps does not turn to escape from man as the cobra will, or flash into concealment like the koriat, but keeps its path against its human assailant, and pitting its 18 inches of length against its enemy's bulk, challenges and provokes conflict.

A stroke with a whip will cut it in two, or a clod of earth disable it; but such is its malignity that it will invite attack by every device at its command, staking its own life on the mere chance of its adversary coming within the little circle of its power. At most, the radius of this circle is 12 inches. Within it, at any event, lies certain death, and on the bare hope of hand or foot trespassing within its reach, the Echis throws its body into a figure-eight coil. Then it attracts attention by rubbing its loops together, which, from the roughness of the scales, make a rustling, hissing sound, erects its head in the center and awaits attack.

**GIVE HIRED MAN A CHANCE**

Treat Him as a Human Being and the Result Will Be Profitable, Declares Writer.

Give the hired man's family a chance to go to places—to go to town once a week, to attend church, to take part in the neighborhood socials and meetings. It will mean planning and foresight, and in some cases a little sacrifice on the part of the farmer's family, but it is worth the cost, says a writer in Farm and Fireside.

"A good many farmers hate to make improvements in the tenant house and the result is that it often gets terribly uninviting and even uncomfortable before repairs and improvements are made. We try to paint and paper our tenant house often enough to keep it looking fresh and neat, and we consult the taste of the hired man's wife when we do it. It pays in the added care she gives to her housekeeping. We see that the windows are well screened and that the walks are kept in condition.

"There are a good many things that I like to do in partnership with the hired man's wife. Canning is one of them. Canning is a good deal more fun if two people work at it than if just one is doing it. I have a good canning outfit, and we really get a lot of pleasure out of our day's work besides exchanging knowledge on the subject. Since we have a power washer, the hired man brings his family laundry over every Monday and on Tuesday morning, bright and early his wife and I do the laundry."

**Beware of Ointments for Catarrh that Contain Mercury**

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. **Buy All-Wool Clothes**

Hart Schaffner & Marx Clothes are Absolutely Guaranteed to Satisfy You.

At a time when every dollar you spend ought to be looked at twice before you part with it, just remember that you ought to look more than twice at what you're going to get for it.

Hart Schaffner & Marx have based their whole business on the belief that all-wool is best for men's and young men's clothing; that cotton mixtures, though somewhat cheaper, are not economy.

They have maintained a strict all-wool standard in spite of steadily increasing costs of wool, in the face of the clamor for cheaper clothes. We know that the men and young men of America share this belief that all-wool is best; is real economy.

Good clothes, like everything else, cost more than they formerly cost, but if all-wool is cheapest in the long run, you ought to have it. It means more style, more service, more satisfaction. It's worth the price.

In spite of the war the weavers in England, Scotland, Ireland and America have supplied the wool goods for these clothes.

We believe we are upholding and strengthening the call for economy in offering these all-wool clothes, with an unlimited guarantee of satisfaction.

The Hart Schaffner & Marx label in a garment is the sign of an all-wool and an absolute guaranty of satisfaction; a small thing to look for, a big thing to find.

**The Mobilization Problem**

Great warships are sliding off the ways; navy yards and arsenals are working night and day; great mobilization camps have sprung up as if by magic; everywhere the vast resources of the Nation are being gathered together for war.

All over the Bell telephone system, thousands of employees are busily engaged in all branches of telephone activity, to keep pace with the extraordinary telephone needs of the Nation. And with the increased Government requirements, there will be greater demands for commercial service.

Not only is there a great scarcity of materials, but there is a similar scarcity of labor, and already many of our technically trained employees—men who cannot be replaced—have joined the colors.

As time goes on it will become continually harder to meet the demands for service from Governmental and private sources—and our patrons are asked to bear this extraordinary condition in mind and to help in the maintenance of an effective service by eliminating all wasteful use of telephone lines and equipment.
