FOOD DIRECTOR HEINZ CALLS FOR SEVEN WHEATLESS MEALS A WEEK

America Must Reduce Daily Wheat Ration One-Third to Provide Food to Keep Allied Armies on the Firing Line Over Winter.

A stirring appeal to every citizen in the State of Pennsylvania to observe seven wheatless meals each week has been issued by Howard Heinz, Director of the Food Supply Department of the Pennsylvania Committee of Public Safety. It follows:

"The appeals of recent months to the American people for such a conservation of food as would enable us to fulfill our obligations to our own soldiers and our allies abroad have fallen upon willing ears and the response in patriotism and self-denial has been worthy of the best traditions of this great free nation. Notwithstanding, however, our undoubtedly great saving of important food staples, and particularly of wheat, the disappointing crops of the 1917 season and an over-seas demand greater, through the exigencies of war, than we had expected, has brought us to the verge of a grave crisis in the wheat situation that can be overcome by a more vigorous self-denial, a far greater degree of saving by the substitution of other foods in place of wheat than anything we have before undertaken.

Save Wheat For Fighters.

"The demands of those who are helping to fight our battles for the cause of democracy and of their supporters behind the lines are urgent, insistent and compelling. They must be met. Any break in the regular movement of supplies from America at this time would mean inevitable disaster and it is a fact which all should understand that our wheat supply is now known to be inadequate to permit a continuance of our present rate of home consumption and keep our own men and our allies on the firing line through the winter.

"The greater wheat saving at home need not be a hardship. Americans like and know how to prepare appetizing breads of corn meal, rye and other cereals in substitution for wheat. Buckwheat, and corn cakes, oat and oat products for breakfast are an American institution and we can increase our consumption of all these plentiful commodities with no injury to our health.

"Mr. Hoover has asked that the response to the request for cutting down the consumption of wheat flour be made at once, before it is too late. The time to begin is today. It is now necessary to become more drastic in our saving. Mr. Hoover has asked the people of Pennsylvania to have seven wheatless meals each week, meals in which there will be absolutely no wheat flour used, either for

FRUITTOWN.

John Fahringer of Nittany is spending the hunting season at this place. Charles Fye, of State College, spent two days at home the beginning of the week.

Eva Dippery and son Walter spent last week visiting friends at State College.

Alfred Reiber and son George, of Johnstown, spent a few days last week at the William Reiber home.

Mrs. Moyer and son James, of Port Royal, are visiting among relatives at this place.

Helen Bodorf, of Jersey Shore is spending a short time with friends and relatives at this place.

Norman Fleisher, of Harrisburg, and Clyde Weritz, of Lewistown, were Sunday callers at the T. J. Fleisher home. The former came to say good bye to his grandparents before leaving for Ohio, where he will be in training.

STATE AGRICULTURAL NOTES.

It is estimated that the total alfalfa crop for the State during the past season was 183,840 tons, an average of 2.8 tons being cut to an acre.

Records show that there are 28,500 silos in use on the farms of Pennsylvania, an increase of about 5,200 over last year.

Tripp, Susquehanna and Bradford counties lead with the largest number of silos, but farmers in other sections of the State are rapidly adopting silage methods.

Despite the large wheat acreage Lancaster county farmers have found it possible to make an increase of 4 per cent, or approximately 6,800 acres for next year's crop.

The average production of tobacco to the acre was 1365 pounds as compared with 1340 pounds last year.

Estimates show that about 75 per cent of a normal grape crop was grown in the State during the year.

The average weight of wheat per bushel for the year was 59.5 pounds while the average weight of oats was 31.6 pounds, over a pound heavier than last year and a above the ten year average.

The average yield of honey per colony was 33 pounds as compared with 54 pounds last year.

There is a possibility that the ore mines in Snyder county will be reopened after a lapse of from fifteen to twenty years. The high prices paid for iron may again make these mines profitable.

Use ATLANTIC Rayolight OIL

It will give you more satisfaction per gallon, better light per lamp and greater heat per stove. All the impurities that cause smoke, smell and charred wicks are removed. All the qualities that give a clear, mellow light and a steady, even heat are retained.

Perhaps you've thought that kerosene is kerosene and that's all there was to it. There's a lot more to it. You should see our expert chemists testing and experimenting to produce the highest refined kerosene in the world. And they have succeeded. That's why it is called Rayolight Oil—to distinguish it from ordinary kerosenes.

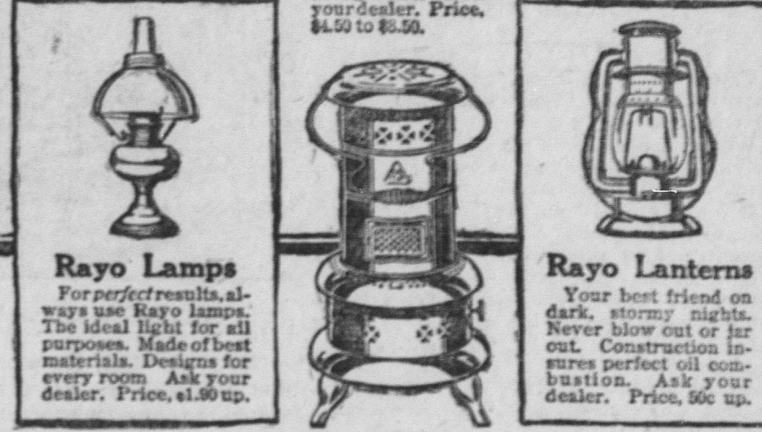

Besides heat and light, Rayolight Oil has many other uses in every home, such as cleaning bathtubs and windows, polishing furniture, etc. Hundreds of thrifty housewives have told us their experiences with Rayolight Oil and we have put all these helpful suggestions in an attractive, illustrated booklet for the use of our customers. A copy will gladly be sent upon request.

The next time you need kerosene look for the store with the sign: "Atlantic Rayolight Oil for Sale Here." Then ask for it by name. The dealer won't charge you a cent more than for the inferior, nameless kinds.

Service Insurance

It is often a temptation these pressing times to call telephone numbers from memory.

In a surprisingly great percentage of cases this results in serious losses of time, the referring of calls to special operators, and unexplainable annoyance to those called in error.

There is no better insurance on effective service than the two following practices:

- first—invariably to consult the directory and call by number, slowly, one numeral at a time; second—to evidence the same consideration and politeness that is shown by the operator when difficulties arise, regardless of their origin.
