PRESIDENT ASKS WAR ON AUSTRIA

Message to All the World friends. **Outlining America's** Peace Ideal

Present German Government Impossible in League of Honor

Washington, Dec. 4 .- President Wilson delivered to Congress an address, considered so important in its relations to international affairs, that it has been transmitted in advance by the Government to practically every other capital in the world.

Immediate declaration of war against Austria-Hungary was recommended by President Wilson.

The President did not, however, recommend a declaration of war against Turkey and Bulgaria at this time.

The President spoke, as follows: Gentlemen of the Congress:

Eight months have elapsed since 1 last had the honor of addressing you. They have been months crowded with events of immense and grave significance for us. I shall not undertake to detail or even to summarize those events.

The practical particulars of the part we have played in them will be laid before you in the reports of the executive departments. I shall discuss only our present outlook upon those vast affairs, our present duties and the immediate means of accomplishing the objects we shall hold always in view. "Our Object Is To Win the War."

I shall not go back to debate the causes of the war. The intolerable wrongs done and planned against us by the sinister masters of Germany have long since become too grossly obvious and odious to every true American to need to be rehearsed. But I shall ask you to consider again and with a very grave scrutiny our objectives and the measures by which we mean to attain them; for the purpose of discussion here in this place is straight toward definite aims.

the bases of law of covenant for the life of the world-we shall be willing and glad to pay the full price for peace and pay it ungrudgingly.

We know what that price will be. It will be full, impartial justice-justice done at every point, and to every nation that the final settlement must affect, our enemies, as well as our

You catch, with me, the voices of humanity that are in the air. They grow daily more audible, more articulate, more persuasive, and they come from the hearts of men everywhere. They insist that the war shall not end in vindictive action of any kind; that no nation or people shall be robbed or punished because the irresponsible rulers of a single country have themselves done deep and abominable wrong. It is this thought that has been expressed in the formula, 'no annexa-

tion, no contributions, no punitive indemnities."

Just because this crude formula expresses the instinctive judgment as to right of plain men everywhere it has been made diligent use of by the masters of German intrigue to lead the people of Russia astray-and the people of every other country their agents could reach, in order that a premature peace might be brought about before autocracy has been taught its final and convincing lesson, and the people of the world put in control of their own

KIDNEY TROUBLE NOT EASILY RECOGNIZED

Applicants for Insurance Often Rejected

An examining physician for one of the prominent life insurance companies, in an interview of the subject, made the astonishing statement that one reason why so many applicants for insurance are re-jected is because kidhey trouble is so com-mon to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease have the disease.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

We find that Swamp-Root is strictly an herbal compound and we would advise our readers who feel in need of such a remedy to give it a trial. It is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper .-- Adv.
