Fond Auntie (questioning her nephew on the barometer)—Tommy, what is this? (points to the barometer). Tommy—Oh, I know. It's a barometer.
"A barometer, you mean?"
"Yes, that's it. I know all about it; papa has told me. It tells when it is going to be wet or dry, rain, snow, stormy, or fine."
"It reminds you very much of a clock when you look at it, doesn't it, Tom?"
"It reminds me more of you, auntie, than anything else."
"Why do you think so, dear?"
"Why, because mamma says whenever you come here you are either very stormy or very dry."—Providence Journal.

GREEN'S AUGUST FLOWER
has been a household remedy all over the civilized world for more than half a century for constipation, intestinal troubles, torpid liver and the generally depressed feeling that accompanies such disorders. It is a most valuable remedy for indigestion or nervous dyspepsia and liver trouble, bringing on headache, coming up of food, palpitation of heart and many other symptoms. A few doses of August Flower will immediately relieve you. It is a gentle laxative. Ask your druggist. Sold in all civilized countries.—Adv.

Boy Strong for Soapless Day.
A new war propaganda that is certain to be taken up enthusiastically by young America was given a start in Huntington, W. Va., by Jimmy Wallen, a schoolboy, who has been active in the different war activities. Wallen, who is always spick and span, suggests a "soapless day," saying it is easy to keep clean without using soap one day a week. The "soapless day" would help conserve fats so badly needed by the allies, Jimmy declared.—Columbus Dispatch.

INCREASE IN WESTERN CANADA ACREAGE

Will Prove a Big Factor in Winning the War.

Reports to hand indicate that Western Canada has a vastly increased acreage ready for crop this year over last year. The splendid open fall of 1917, gave a better opportunity for fall plowing than for some years. Work in the fields was almost continuous until the end of November. In fact, in the neighborhood of Pincher Creek, Alberta, there was sufficient mild weather in January of this year to permit farmers to plow, and many took advantage of it. A great many Americans owning land in Canada moved up last year, and this has also helped to increase the acreage. They came into possession of the land at prices varying from \$15.00 to \$30.00 an acre, and with the proven yields of wheat running from twenty and as high as fifty bushels per acre, with a set price of \$2.21 a bushel, they could join production and patriotism together with a big margin of profit. The Post-Intelligencer of Seattle, Wash., gives a very conservative statement of the agricultural development and opportunities in Western Canada. In its issue of December 14, 1917, it says:—

"Since the beginning of the year American emigration into Canada has been greatly stimulated according to the reports of the Dominion authorities, and has been almost entirely made up of farmers attracted by the fertile and comparatively cheap wheat lands. 'Whatever may be said of wheat culture as a profitable avocation in ordinary years, since the beginning of the war it has offered advantages quite beyond the usual opportunities. War has boomed the price of wheat until the farmer now receives around \$2 for his product at his granary. Average crops, according to the adaptation of soil and climate are from 12 to 25 bushels to the acre. Even the minimum crop, at \$2 per bushel, brings in these war times a reasonable profit. Before the war wheat culture was fast being abandoned by farmers who worked intelligently for results on the right side of the ledger. It has been the popular crop for new countries, but when the pioneers settled down to business it was generally corn, hogs, cattle and diversified farming that brought the profits. Iowa and the Dakotas in turn, as their prairies became settled, mortgaged the land on wheat culture and afterwards paid off the mortgages with corn and hogs. 'War is thus bringing a temporary encouragement to wheat farming. Many of the ranchers of Manitoba, Saskatchewan and Alberta laid away \$20,000 to \$30,000 in the banks last fall. It may be pointed out, however, that the growing of wheat is not the only inducement which is leading settlement to Canadian lands. Low taxation, favorable agricultural climate, and profitable prices not only for grain but for hogs, cattle and all forms of farm produce all contribute their share toward the rapid settlement of the fertile lands of Western Canada.'—Advertisement.

The Explanation.
"Pop, what does it mean when they say 'bills are laid on the table'?" "It means, son, that they are dish'd."

Minnesota last year shipped out 15,520,690 barrels of flour.

Win the War by Preparing the Land Sowing the Seed and Producing Bigger Crops

Work in Joint Effort the Soil of the United States and Canada CO-OPERATIVE FARMING IN MAN POWER NECESSARY TO WIN THE BATTLE FOR LIBERTY

The Food Controllers of the United States and Canada are asking for greater food production. Scarcely 100,000,000 bushels of wheat are available to be sent to the allies overseas before the crop harvest. Upon the efforts of the United States and Canada rests the burden of supply.

Every Available Tillable Acre Must Contribute; Every Available Farmer and Farm Hand Must Assist

Western Canada has an enormous acreage to be seeded, but man power is short, and an appeal to the United States allies is for more men for seeding operation.

Canada's Wheat Production Last Year was 225,000,000 Bushels; the Demand From Canada Alone for 1918 is 400,000,000 Bushels

To secure this she must have assistance. She has the land but needs the men. The Government of the United States wants every man who can effectively help, to do farm work this year. It wants the land in the United States developed first of course; but it also wants to help Canada. Whenever we find a man we can spare to Canada's fields after ours are supplied, we want to direct him there.

Apply to our Employment Service, and we will tell you where you can best serve the combined interests.

Western Canada's help will be required not later than April 5th. Wages to competent help, \$50.00 a month and up, board and lodging.

Those who respond to this appeal will get a warm welcome, good wages, good board and find comfortable homes. They will get a rate of one cent a mile from Canadian boundary points to destination and return.
