

Thirty-five Years Ago.

May 24, 1883.—The roof of Harper's smith shop was noticed in flames on the 16th inst., but timely aid and plenty of water soon put the fire out. Dr. Alexander has put the brick work to his new residence almost completed; it will be one of the handsomest homes in these parts. Dr. Jacobs is remodeling his residence at the upper end of town. William Lohr has put a large new front to his house on Church street. Dr. Bishop, of near Bellefonte, a recent medical graduate, has located at Pottery Mills. John Mullin, for several years a manager of a store in this place, has gone to Kenova to a similar occupation there. On Tuesday of last week when H. H. Tomlinson and A. A. Mill were on their way from Coburn to Millheim with a load of merchandise, they drove over a street crossing rather fast and were thrown out on the ground, lighting on their heads. Both were carried away unconscious. Although considerably hurt, both are on a fair way to complete recovery.

The Heroic Women of France.

Words are not powerful enough to do even scanty justice to the most heroic figure in the modern world and of ages past—the woman of France. Of the healthy men who are engaged in the military service in France, practically all are engaged either in transportation or in the manufacture of munitions, leaving the agriculture absolutely to the women. Not only this, but they have stepped into the place of work animals; you can go into any section of France today and see women of magnificent, noble womanhood hitched to ploughs and cultivating the soil. All of the agriculture rest upon their shoulders. The home, always an extremely efficient home, maintains a few old men the wounded, and the tubercular. Uncomplaining, with high devotion, with an attitude that amounts almost to religious exaltation, the women of France bear the burden. Now, conditions being as they are, does it lie within the heart of the American people to preserve and hold to every convenience of our life at the expense of adding an additional burden to the womanhood of France? This is the exact question that is involved in our substitution of other cereals for wheat.

What Your Liberty Bond Purchase Will Accomplish. The following figures give one a definite idea of what his or her loan to the Government by the purchase of Liberty Bonds will accomplish when used by the War Department. One \$50 bond will buy trench knives for a rifle company, or 23 hand grenades, or 14 rifle grenades, or 36 cases of surgical instruments for enlisted men's belts or 10 cases of surgical instruments for officers' belts. A \$100 bond will clothe a soldier, or feed a soldier for eight months, or purchase 5 rifle, or 30 lbs grenades, or 43 hand grenades, or 25 pounds of ether, or 145 hot-water bags, or 2,000 surgical needles. A \$100 and a \$50 bond will clothe and equip an Infantry soldier for service overseas, or feed a soldier for a year. Two \$100 bonds will purchase a horse or mule for Cavalry, Artillery, or other service. Three \$100 bonds will clothe a soldier and feed him for one year in France, or buy a motor cycle for a machine-gun company. Four \$100 bonds will buy an X-ray outfit. One \$500 bond will supply bicycles for the headquarters company of an Infantry regiment. Over in Sugar Valley prices ran wild on live stock offered at public sale. Twenty-eight hogs and four brood sows sold for \$952.50 at C. T. Royer's sale last Tuesday. A bay mare ten years old sold for \$350.00, and a team of black horses sold for \$500.00.
