Sawdust = hogs = and clothes

IT wouldn't be good business for you to try to fatten your hogs by mixing sawdust with feed, would it? You could save some money by doing it. You might kill the hogs.

The money you save in buying cheap clothes is like that. You lose more in the long run. Cheap clothes are made of adulterated fabrics; they won't wear. They soon lose their shape, style and fit.

Buy good clothes and be sure they're good—that's the real way to save money in clothes.

The kind we have here are made by Hart Schaffner & Marx; they're all wool; they're tailored to give long, stout service. They cost just enough to have the qualities you need. You can't get these essentials for less.

At this store we guarantee you satisfaction; we're doing business in your interest—and the more we serve you the more we serve ourselves. In other words, we make more friends by doing "more" for you. That's what you're after; more value. All we ask is a chance to show what we mean by "more."

HARRISBURG NEWS LETTER.

of Woodrow Wilson, as I have consistently done at all times since he became Governor of New Jersey in 1910.

"Recognizing that we face enemies no less at home than abroad, I would, if elected, favor the internment of all disloyal persons and enemy sympathizers, and, so far as Pennsylvania is concerned, put an instant end to enemy plotting and propaganda.

"I favor giving women the vote. For many years I worked for that cause, and if elected would do all in my power to make woman suffrage an accomplished fact in Pennsylvania.

"I favor the immediate ratification by the Pennsylvania Legislature of the national prohibition amendment. I have consistently fought against the liquor domination of the State through the Penrose machine. I cooperated with the candidates of our party in their sincere fight for local option in 1914, when they were opposed by the friends of liquor, who now seek to continue its control by methods which then unhappily succeeded. If elected I shall use all the power and influence that I legitimately can to bring about the prompt adoption of the prohibition amendment. On all other national questions my attitude will be controlled by wartime necessity and national need, always adhering to my pledge to stand by the President.

"If elected I will insist upon a complete reorganization of the system of appropriating funds for State charities and will absolutely oppose the perpetuation of the present practice of using society's unfortunates as pawns for political advantage.

"I favor the fullest development and enlargement of the harbors of Pennsylvania, with liberal State aid for this purpose. I favor a liberal

road policy, with co-ordinate development of the State highways, benefiting all sections of the State, the cost to be defrayed from current revenues.

If elected I will give the State an economic, efficient, business administration. This pledge I will make effective by introducing a budget system governing appropriations of all State funds. This outlines my position on the essential issues of the campaign, as I view them. As the campaign progresses it will be my purpose to amplify my attitude on this and other questions affecting the Commonwealth and its people.

McLean who has been either at the Mexican border or in the Federal army since that time. In 1916, he was again elected county chairman. Mr. Guffey is 47 years of age and is unmarried.

Mr. Guffey was born in Westmoreland county, December 29, 1871, and attended the public schools of Greensburg. He began his business life in the oil fields after leaving Princeton. In 1894 he became superintendent of city delivery at the Pittsburg Postoffice and he held that position for five years when in 1899 he was elected secretary of the Philadelphia Company at Pittsburg. In 1901 he was made general manager of the company. On the last day of last year he was elected president of the Equitable Gas Company, one of its subsidiaries, having been elected prior to that time as head of the other underlying companies. During all of his business activities he has always devoted much time to fighting for humanitarian legislation. He has led in his county and been a leader in the state in the campaigns for equal suffrage, local option and other non-partisan matters as well as in the affairs of his own party.
