Canada made me Prosperous

—that's what thousands of farmers
say, who have gone from the U. S. to
Canada. Canada's invitation to every
industrious worker to settle in
Manitoba, Saskatchewan or Alberta is
especially attractive. She wants
farmers to make money and happy,
prosperous homes for themselves
by helping her raise immense wheat crops
to feed the world.

You Can Get a Homestead of 160 Acres Free
or other lands at very low prices. Where you can buy good farm
land at \$15 to \$20 per acre that will raise 20 to 45 bushels of \$2
wheat to the acre—it's easy to become prosperous. Canadian farmers
also grow wonderful crops of Oats, Barley and Flax. Mixed Farm-
ing is fully as profitable an industry as grain raising. The excellent
grasses, full of nutrition, are the only food required either
for beef or dairy purposes. Good schools and churches;
markets convenient; climate excellent. Write for literature

A DAGGER IN THE BACK

That's the woman's dread when she
gets up in the morning to start the day's
work. "Oh! how my back aches." GOLD
MEDAL Haarlem Oil Capsules taken to-
day ease the backache of tomorrow—
taken every day ends the backache for
all time. Don't delay. What's the use
of suffering? Begin taking GOLD
MEDAL Haarlem Oil Capsules today and
be relieved tomorrow. Take three or four
every day and be permanently free from
wrenching, distressing back pain. But be
sure to get GOLD MEDAL. Since 1894
GOLD MEDAL Haarlem Oil has been the
National Remedy of Holland, the Govern-
ment of the Netherlands having granted
a special charter authorizing its prepa-
ration and sale. The housewife of Hol-
land would almost as soon be without
bread as she would without her "Real
Dutch Drops," as she quaintly calls GOLD
MEDAL Haarlem Oil Capsules. This is
the one reason why you will find the
women and children of Holland so sturdy
and robust.

GOLD MEDAL are the pure, original
Haarlem Oil Capsules imported direct
from the laboratories in Haarlem, Hol-
land. But be sure to get GOLD MEDAL.
Look for the name on every box. Sold
by reliable druggists in sealed packages,
three sizes. Money refunded if they do
not help you. Accept only the GOLD
MEDAL. All others are imitations. Adv.

GARDENS FOR SOLDIERS

(Prepared by the United States De-
partment of Agriculture.)
A backyard garden for every
soldier.

Keep this in mind in deciding
whether or not you will have a
garden this year.

Of course, the soldiers at the
front cannot enjoy the fresh
vegetables you raise, but you
can, and every meal made up of
the vegetables from your garden
will leave more meat and wheat
for the soldiers. These can be
readily shipped to France; most
fresh vegetables can not, and un-
less you eat more vegetables,
some soldier will not have his
share.

RASPBERRY FOR SPECIAL USE

Varieties Come From Different Parts
of America and Europe—Adapted
to Different Uses.

(From the United States Department of
Agriculture.)

The varieties of raspberries under
cultivation have come from different
parts of North America and Europe
and are adapted to different conditions
of environment and to different uses.
Thus the Sunbeam and Ohta original
in South Dakota and generally with-
stand the trying conditions of the cold
winters there. The Superlative, which
originated in Europe, where the win-
ters are milder than in most raspber-
ry-growing sections of this country, is
grown only in the Pacific coast
states. The King is a desirable variety
throughout the region between the
Mississippi river and the Appalachian
mountains, where raspberries succeed
in New York and New England, how-
ever, it has proved, for the most part,
inferior to many other varieties.

In selecting the varieties of rasp-
berries to cultivate in any locality it
is usually important to consider (1)
the hardness of the canes, (2) the pro-
ductiveness of the variety, and (3)
its fitness for the particular purpose
for which the crop is to be used. In
the characterizations here given spe-
cial attention has been paid to these
points.

TIMELY POINTS FOR SOUTHERN STOCKMEN

Pasture Grass Planted on Waste
Land Is Profitable.

Purebred Bulls Should Be Used for
Grading Up Native Stock—Fin-
ishing Cattle in Early Summer Is
Recommended.

(Prepared by United States Department
of Agriculture.)

Good pastures are essential for profit-
able beef production. Plant pasture
grasses over the waste lands.

Use purebred beef bulls for grading
up the native stock.

Always select the best heifers for
breeding purposes.

Eradicate the ticks on the farm.

Use the coarse fodders, straws, and
the stalk fields for wintering the breed-
ing herd.

Went the calves when the pastures
get short. Put them in the cornfields
and pea fields while weaning and teach
them to eat cottonseed cake or cotton-
seed meal.

Raise and finish beef cattle on the
same farm when possible.

A mixture of cottonseed meal, cot-
tonseed hulls, and alfalfa hay is a
good ration for fattening calves.

Slilage is the best roughage for fat-
tening any class of cattle.

More care is necessary in feeding
calves than in feeding grown cattle.

At the present prices corn silage is a
cheaper and better feed for fatten-
ing beef cattle than cottonseed hulls.

Hulls and cottonseed meal make an
excellent feed for a short feeding pe-
riod, but do not produce good gains on
cattle after the third month.

It is not entirely satisfactory to use
corn stover as the sole roughage.

When Johnson-grass hay costs \$10
and hulls \$7 per ton it is more profit-
able to feed the hulls alone.

Summer feeding on pasture is usu-
ally more profitable than winter feed-
ing.

Finishing cattle early in the sum-
mer is usually more profitable than fin-
ishing them later in the season.

Fattening steers on grass and cot-
tonseed cake is nearly always more
profitable than grazing them without
feed.

Thin steers when put on pasture
make larger and cheaper daily gains
than fleshy ones.

Pound for pound cold pressed cot-
tonseed cake is not equal to the com-
mon cottonseed cake.

The use of a small amount of corn
in addition to cottonseed cake has
proven profitable for feeding steers
on grass.—From Farmers' Bulletin No.
580.

SENTIMENT ALL RIGHT, BUT—

Youngster's Reason for Buying Carna-

of the Incident.

He was a poorly dressed youngster
of perhaps fourteen years.

His trousers were shabby, and there
was only one button on his thin coat.

He wasn't tall enough to push through
the crowd of women around the har-
galt country where fresh carnations
were on sale at two cents each.

Finally a saleswoman saw the grimy
hand reaching out, with six moist pen-
nies and a shiny dime in it, and in an-
swer to his "I want eight, please, all
colors," he received an assortment of
pink, red and white flowers, all show-
ing more or less the effect of rough
handling.

A woman who stood near by built
up a pretty little story about him.
She was certain he was a little news-
boy, and that the flowers were for his
mother, who probably was ill in a free
hospital.

Tenderly the child adjusted the tis-
sue paper around the carnations, and
a queer little smile curved his lips.

"Are your pretty flowers for your
mother, little boy?" asked the senti-
mental bystander.

"Naw," answered the youth with an
implish grin, "they're for my girl."
