

Thirty-five Years Ago.

August 2, 1883.—C. R. Neff, late graduate of Franklin and Marshall college, opened a select school at Rebersburg on Monday.

George Durt sent a sample of the clover he raises on his farm, east of Centre Hall, to this office, which measured 5 feet 6 inches in length.

A sad and fatal accident occurred on Monday evening two miles southeast of Boalsburg. Joseph Kohn and his family were at Fielesher's Gsp, in the act of cutting down a bee-tree; as the tree went down it struck another tree, causing it to fall in the direction where Jacob, the 12 year old son of Mr. Kohn was, and struck the boy on the temple, crushing the bone. The lad lingered unconscious until next morning, when he died.

Prof. Hosterman's select school opened on Monday with thirty students, with prospect for fifteen or twenty more.

Last Friday, while unloading grain, Alfred Hosterman had one of the prongs of a fork thrust through his wrist as he was coming down from the wagon, causing a serious and painful wound.

REBERSBURG

Harry Stever is nursing a painful swelling in the palm of his hand.

Mrs. Robert Parks and daughter, of Hazleton, were Saturday visitors at the home of Monassa Gilbert.

Jacob Heller, who is employed at Akron, Ohio, is spending some time here with his family.

Mrs. Thomas Walker and Mrs. Charles Bierly are visiting relatives in Illinois.

Mr. and Mrs. William Hubler and Mrs. J. W. Harter spent last week at Pittsburg visiting relatives.

Mrs. George Brachbill, of Pittsburg, visited the past week in town at the home of Mrs. John Woodling.

Mrs. Lester Minnich and two sons are visiting at Millburg, at the home of W. J. Minnich.

J. C. Aumar, of Wolfs Store, is sporting a new Ford car which he purchased quite recently.

Dr. Kelly and family, of State College, were visitors at the home of Henry Meyers last week.

Our road supervisor has a crew of men repairing the roads that were badly washed out during the heavy rains of last week.

J. N. Meyer the past week built a small addition to his large stone dwelling house and also made a concrete floor to his side porch.

Jacob Winkleblich, who recently finished up his lumber job situated two miles east of this place, is now moving his saw-mill to near Madisonburg, on the Jacob Deitrich timber tract.

Georges Valley

Mrs. Sara Reeder spent a few days last week with friends at Spring Mills.

J. C. Reeder made a business trip to Bellefonte on Monday.

Mrs. George Wingard and little son Clair, of Woodward, spent a few days with her mother, Mrs. Susan Davis.

Last Thursday while Harvey Vonada was driving along the Egghill road his horse became frightened at a flock of sheep and ran away, throwing Mr. Vonada out of the buggy and injuring him so badly that he has been confined to his bed ever since.

The funeral of Samuel Harler was largely attended last Saturday morning. Those who were here from a distance were: Mrs. Ida Harter, of Rebersburg; John Harter, of Youngstown, Ohio, and Mrs. Louisa Weaver, of Philadelphia.

During the hard thunder storm last Thursday evening, the barn on the J. W. Gobble farm was struck by lightning. The barn being protected by lightning rods only slight damage was done.

CENTRE OAK

Lots of rain; corn growing nicely; no one complaining about the corn not coming up in this section.

J. M. Ream, the painter, is kept busy all the time.

Mr. and Mrs. D. J. Vonada spent Sunday at the J. W. Raobau home.

Mr. and Mrs. Arch Eungard, daughter Est, and Miss Nettie Overdorf spent Sunday at Madisonburg with Mr. and Mrs. Jacob Musser.

William Sinkabine and family from Penn Hall, spent Sunday evening at the home of W. F. Rishel.

Edgar Feltonberger, from near Madisonburg, was taken ill very suddenly while attending the sale on Saturday, but is in good shape again.

The public sale of the personal property of the late Mrs. William Luse, on Saturday, was largely attended and everything brought good prices. The hall clock brought \$75.00

A group of 100 women telephone operators, to serve with the Expeditionary Force, have already been sent to France, and 150 are now in training schools to meet future demand. Wives of officers and men who are eligible for duty in France are not accepted.

Centre Reporter at \$1.50 per year.

Aaronsburg.

Mr. and Mrs. John Hosterman and daughter, from Millheim, were Sunday guests of Mr. and Mrs. John Halnes.

Mr. and Mrs. Ernest Stover on May 23rd celebrated their oldest son—Ray's—birthday by inviting a number of his friends to a grand dinner.

Mrs. Leroy Mensch and two children and Miss Musser, from Altoona, are spending a few weeks at the home of R. W. Mensch.

Mrs. Chestie Wert, after spending three weeks at the home of J. J. Feidler, returned to her home in Rebersburg on Saturday.

Mrs. E. E. Ardry, from Bellefonte, Mary and Forence Guisewite, of Feidler, were welcome guests of Mr. and Mrs. George Weaver.

Florence Orwig and little brother, David, spent a few days with their grandparents in Hartleton, last week.

C. Feidler, who holds a good position in Milton, is not in his usual health at this writing.

The W. C. T. U. did fine on Saturday evening, and the Red Cross realized \$76.00.

STATE AGRICULTURAL NOTES.

Much of the wheat that has been turned down has been sown to oats and the largest crop in many years is predicted.

There has been an awakened interest in bee keeping throughout the State with many requests for colonies reaching the Pennsylvania Department of Agriculture.

The soft corn of the past season has had its effect in causing considerable sickness among cattle and losses higher than usual.

It is estimated that 23 per cent. of the farmers of the State spray for insect pests and plant diseases.

The splendid condition of the clover and timothy fields indicates high production records in this State this year.

Early plowing for wheat and rye is urged by the Pennsylvania Department of Agriculture which has farm tractors in service in many counties.

The Bureau of Markets of the Pennsylvania Department of Agriculture at Harrisburg, has a large supply of buckwheat seed and urges farmers to purchase at once in order to guard against unusual shipping delays and a later shortage.

Transfer of Real Estate.

Walker S. Shurt, Adm., to Frank Ream, tract of land in Harris Twp.; \$650.

J. W. Moyer et ux to Vernie A. Hachenburg, tract of land in Miles Twp.; \$3700.

County Treasury to Samuel Glenn et al, tract of land in Harris Twp.; \$9.00.

Adam F. Heckman et ux to Warren F. Stover, tract of land in Millheim; \$2175.

John H. Ishler et ux to Charles E. Flink, tract of land in Potter Twp.; \$1000.

Sarah McClenahan to Wm McClenahan, tract of land in Centre Hall; \$1.00.

Centre Reporter, \$1.50 a year.

Summary of Feeding Trials at State College, 1917-1918.

Object: To make a comparison of several rations to meet the requirements for present needs in beef production. Brings out very clearly the value of silage and cottonseed meal for economical beef production.

	Lot I	Lot II	Lot III	Lot IV	Lot V
Number of steers in each lot	12	12	12	12	11
Initial weight per steer	831.90	863.80	832.20	849.20	834.10
Total gain per steer	283.30	260.50	276.50	249.80	245.90
Initial cost per steer	\$79.86	82.92	79.90	81.52	80.07
Cost of feed per steer	\$57.48	46.74	58.75	37.12	40.05
Total cost of steer including initial cost, feed and marketing	\$142.04	134.36	143.35	123.34	124.82
Selling price per cwt. at Pittsburg	\$14.40	14.65	14.65	14.40	14.00
Profit per steer not including pork produced	\$13.35	24.96	14.14	30.25	22.32

RATIONS

Lot I. Received a ration of corn silage, broken ear corn or shelled corn, cottonseed meal and corn stover during the entire period. The total profit per steer from this lot, including pork, was \$19.18 or the lowest profit from any of the lots due to the greatest feed cost. The result of this lot would indicate that the feeding of corn during the entire feeding period is not as desirable as the practice of feeding roughage and cottonseed meal during the first part of the feeding period and supplementing it with corn during the latter part of the period.

Lot II. Received a ration of corn silage, stover and cottonseed meal for a period of 84 days after which broken ear corn was added to the ration. The profit per steer both with and without pork is higher than any other lot excepting lot IV, indicating that such a ration is desirable under existing conditions.

Lot III. Received mixed hay, corn stover, broken ear corn and cottonseed meal during the entire period. The profit per steer for this lot was \$19.90 or a little more than lot I where corn was fed during the entire period.

Lot IV. Received all the corn silage the cattle would consume, corn stover during the middle of the day. Cottonseed meal was fed at the rate of 2 1/2 pounds per 1000 pounds live weight daily during the first 84 days. During the balance of the period it was increased to 3 1/2 pounds per 1000 pounds live weight daily. This lot made a profit of \$30.25 per steer or the highest of any lot on the experiment.

Lot V. Was fed similar to lot IV except that the cottonseed meal was increased to 4 1/2 pounds during the last 28 days. This change increased the cost of making 100 pounds gain and the lot sold at \$14.00 which would indicate that it was not profitable to increase the amount of cottonseed meal.

The results of this experiment again demonstrate the importance and value of silage as is shown by Lots II and IV.

R. H. OLMSTEAD,
County Agent.

UNITED DOCTORS SPECIALIST

Brings the knowledge of a Great Medical Organization and Their Experience in the Successful Treatment of

Thousands of Chronic Disease Cases OFFER SERVICES FREE OF CHARGE

Licensed by the State of Pennsylvania

The United Doctors is an organization of reputable licensed physicians for the treatment of certain diseases.

They are all specialists. The United Doctors treat, with Surgical Operations or hypodermic injections, diseases of the blood, skin and all internal organs, rheumatism, sciatica, tape worm, leg ulcers, weak lungs and all long standing, deep seated diseases.

Thirty-five years' experience and the

complete records of thousands of cases successfully treated prove that the methods of the United Doctors are right. They were among the first to be called "Bloodless Surgeons".

Each member of the United Doctors staff has at his command the knowledge and resources of the whole organization.

Many people go on suffering from diseases that can be alleviated just because they cannot afford to go to high priced specialists at a distance from home.

No community has a sufficient number of sufferers from the diseases mentioned to support special hospitals for their treatment and cure.

The United Doctors have solved the problem. Their highly trained specialists travel from place to place. They diagnose and prescribe a course of treatment for the sufferers in each community and teach them how to take care of themselves at home.

Worn-out and run-down men or women, no matter what your ailment may be, no matter what you have been told, or the experience you have had with other physicians. If your case is incurable they will tell you so. Consult him upon this visit. It costs nothing.

Married ladies must come with their husbands and minors with their parents.

PRIVATE SALE.—25 good & C. White Leghorn hens, for sale. Come and see them. H. W. DINGER, Centre Hall, Pa.

Do Your Share.

ASSISTANT SECRETARY OF AGRICULTURE Carl Vrooman, says that more than a billion dollars worth of stable manure is wasted annually in the United States. This is an average of \$167 for every farm. In the face of the urgent need for bigger crops, such waste as this is a national tragedy. The manure properly used will put us beyond fear of any crop shortage this year except one that might be made by bad weather. A bigger crop could be produced without the addition of another acre, another man, or another horse power, if every farmer would decide to waste no stable manure this year but buy and use a

Low Corn King Manure Spreader

Wheels just the right distance apart, and spread wide enough to top dress three rows of corn at once. Three sizes—small, medium and large. All narrow boxes. All steel frames with working parts of the spreader securely attached to the frame. Turns short. Drive from both rear wheels. Return apron driven by worm gear which insures even spreading up hill and down. Pull comes straight on steel frame. Solid 2-inch rear axle working in roller bearings carries seventy-five per cent of the load. Built up to International Harvester standards of quality in every respect.

Buy a Corn King spreader and use it. The increased yield from a few acres will pay for your spreader this year. Come in and place your order now.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; unless cause out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular free.

F. J. CLEMENT & CO., Toledo, Ohio. Sold by Druggists. Take Hall's Family Pills for constipation.

STOP! LOOK! and BUY! Get Rid of Iron Rust Soap, which removes all stains from clothing and hands; that ordinary soap will not remove. For sale by Miss Gladys Jones, Centre Hall, Pa.

Let Uncle Sam have the coal

Thousands of tons of coal will be saved this summer in homes that formerly used a kitchen range all during the hot weather. These homes are going to use oil cook stoves so there will be more coal next winter and therefore more for the government. Will your home be one of them? It should be.

NEW PERFECTION OIL COOK-STOVES

will be in the majority of these homes and there should be one in yours. You will not only save coal—you will save money. Kerosene is far cheaper than coal. And with a New Perfection you can have the same good things to eat and with less work, trouble and time. It doesn't heat up the whole kitchen like a coal fire does, either. You can regulate the heat exactly as you want it. No fire to fix. No ashes to bother with. Many good cooks prefer to use a New Perfection the year 'round. But they get the best results (and you will too) when they use Atlantic Rayolight Oil instead of ordinary kerosene. The difference is in the quality—the way it is refined and purified. All waste matter is taken out. All the heat-producing elements are left in. Atlantic Rayolight is a superior kerosene yet the price is no more than for the other kinds. There's a dealer near you who sells Atlantic Rayolight Oil. Look for the sign, "Atlantic Rayolight Oil For Sale Here." Decide right now that you will have a New Perfection Oil Cook Stove this summer. Your dealer can show you one now. Go and see it today.
