WEEKLY WAR NEWS DIGEST.

MANY OPPORTUNITIES OPEN FOR SPECIALISTS IN WAR DEPARTMENT

There is a list of 137 occupations where the demand for men in the War Department constantly exceeds the supply.

A pressing need exists in the Army for men experienced in handling mules, and before all future needs are met a recruiting campaign may become necessary. No difficulty has been experienced in getting men who can buy and handle horses, but blacksmiths are scarce.

There is a constant demand for butchers, and cooks are greatly needed. In several technical branches, particularly the Engineers, men for the higher positions are plentiful but the workers for the ranks are scarce. Experienced mechanics, especially those familiar with automobiles are always in demand.

More interpreters than can be used have applied for positions with the War Department, and applications for commissions as Army chaplains are also in excess of the need. The excess total thousands in each case. Clerks for general work are plentiful, but there is demand for specialists. At present there is a surplus of dentists and pharmacists.

TROOPS ARE BEING EQUIPPED WITH BROWNING MACHINE GUNS

Enough heavy Browning machine guns for instruction purposes have been shipped to every National Guard

training camp and National Army cantonment in the country where troops are in training. Heavy Brownings for overseas training have been shipped.

Light Browning rifles sufficient in number to equip the machine-gun units of more than four Army divisions have been manufactured, and overseas shipment of one half has begun. The other half of the output goes to Army divisions in this country.

MEN WHO LEAVE COUNTRY TO EVADE MILITARY SERVICE WILL BE WATCHED

Men of selective service age who leave the United States to evade military duty will have to stand trial on charges of violations of the selective service act when they return to the country, according to the Department of Justice, even though they do not return until after the war.

The department has at hand information from which complete lists may be prepared of all men who have left the country to avoid service, says a recent statement authorized by the Attorney General.

The two picric acid plants to be built at Little Rock, Ark., and Brunswick, Ga., contracts for which have been completed by the War Department, will cost approximately \$7,000,000.

Deliveries of the 8,000 motor trucks recently ordered by the Motor Transport Service of the War Department are to be made between August 1 and December 1. These trucks, known as "Class B Standard," will have a

capacity of from 3 to 5 tons, and will be distributed as needed through the various branches of the Army. Ten thousand of these class B standardized trucks have previously been ordered and are now in process of manufacture and delivery.

Women between the ages of 21 and 35 who have had a high school education or its equivalent, will be eligible for admission to the Army School of Nursing, arrangements for which were recently made by the War Department. It is intended to start several schools in selected military hospitals. Unless otherwise specified, applications should be sent directly to the Army School of Nursing, office of the Surgeon General of the Army, Washington, D. C.

Under a new agreement the Army will handle all mail for the expeditionary forces after it leaves United States ports. The Post Office Department will deliver the mail to military authorities at the port of embarkation in this country and receive it from them at a port in France for dispatch to the United States. The domestic money-order service to the troops will, for the present at least, continue under the direction of the Post Office Department in France.

The first Porto Rican laborers to reach the United States under Government auspices will be at work upon Government contracts within a month. The Employment Service of the Department of Labor has already found employment for at least 10,000 of these men as common laborers on construction work at Norfolk, Newport News, Baltimore, and vicinity. Arrangements are now being made by the Department of Labor to provide proper housing for these men.

A letter for Miss Alice Wood remains in the Centre Hall post office.
