

### What Makes You Feel Tired?

If it isn't hard work or exercise, then its your blood. Your blood has been poisoned by the bite of a malarial mosquito or by stomach and liver disorders. In some cases low vitality and lack of energy is due to thin, weak blood.

### Grove's Tasteless chill Tonic

Enriches the Blood and Purifies the Blood; by this means it Strengthens the body from head to toe and you can soon feel its Strengthening, Invigorating Effect. It contains just what the blood needs, Iron and Quinine, in a form acceptable to the most delicate stomach.

GROVE'S TASTELESS chill TONIC is an exceptionally Good General Strengthening Tonic for the Child, for the Mother or any of the Family, young or old. Pleasant to take. Price 60c.

Perfectly Harmless. Contains no Nux-Vomica or other Poisonous Drugs.

## Hot Weather Poisons Hit The Stomach First

### How to Keep Your Stomach Strong, Cool and Sweet

Hot weather always starts those quick chemical changes which produce poisons in meats, fish, fruits, vegetables, milk and food products. Such summer poisons in foods not only make well stomachs sick but develop with dangerous rapidity in sensitive, sick or ailing stomachs and bowels. These poisons not only generate gases and fluids which cause that bloated, lumpy feeling, heartburn, sour stomach, belching, acidity, but endless other stomach and bowel miseries. A sure, safe, quick acting relief has been found which absorbs and neutralizes these poisons, too much acid and harmful gases. EATONIC Tablets, one or two taken after every meal, will keep your stomach sweet. You will have a good appetite to eat what you like, when you want it and be

free from all those bad effects liable to come after a hearty meal in summer. EATONIC Tablets are hot weather protectors for the stomach. They guard against the germs that lurk in the things you eat and drink. They rebuild listless appetites, promote digestion by aiding proper action of the stomach functions and insure speedy relief from indigestion and all stomach distress. EATONIC is good to eat like candy. People from all over send grateful testimonials. Tens of thousands are obtaining relief with EATONIC every day but the best evidence is to let your own stomach tell you the truth. Go to your druggist and get a big box of EATONIC. Tell him you want it for the prevention and sure relief of stomach and bowel disorders produced by hot weather poisons. Then if EATONIC fails to satisfy you—return it to your druggist, whom you know and can trust. He will cheerfully refund your money. If your druggist doesn't keep EATONIC—drop us a postal. It will be delivered to your address and you can then pay for it. Address: H. L. Kramer, Pres., 1015 S. Wabash Ave., Chicago, Ill.

**A Pathetic Figure.**  
When a woman who married a man 10 years ago lives to be sixty years old without becoming a widow, she is about as pathetic a picture of unimpaired weariness as one ever sees.  
**It's wrong to talk about a man behind his back.** Talk about him in front of his back.  
**Quarantined Eyelets, Bites, Infamed Eyes** relieved over night by Roman Eye Balsam. One trial proves its merit. Adv.  
**Japan is building 115 contract ships** with tonnage of 550,000.

**Pat Was Satisfied.**  
As Pat was straying along a lone country lane the other day he met two pigs, so he stood wondering what term he would do in jail if he stole one and sold it.  
"Week, week!" cried the little pigs.  
"Begorra, then," said he, "I am satisfied to do a fortnight for both of ye"—driving them on before him.  
**A man's crookedness often gets him into financial straits.**  
**Love is sometimes blind and sometimes only a blind.**

## HAARLEM OIL CAPSULES IF YOUR BACK ACHES

Do you feel tired and "worn-out"? Are you nervous and irritable? Don't sleep well at night? Have a "dragged out," unrested feeling when you get up in the morning? Dizzy spells? Headache? Bad taste in the mouth, backache, pain or soreness in the loins, and abdomen? Severe distress when urinating, bloody, cloudy urine or sediment? All these indicate gravel or stone in the bladder, or that the poisonous microbes, which are always in your system, have attacked your kidneys. You should use GOLD MEDAL Haarlem Oil Capsules immediately. The oil soaks gently into the walls and lining of the kidneys, and the little poisonous animal germs, which are causing the inflammation, are immediately attacked and chased out of your system without inconvenience or pain.

Don't ignore the "little pains and aches," especially backaches. They may be little now but there is no telling how soon a dangerous or fatal disease of which they are the forerunners may show itself. Go after the cause of that backache at once, or you may find yourself in the grip of an incurable disease. Do not delay a minute. Go to your druggist and insist on his supplying you with a box of GOLD MEDAL Haarlem Oil Capsules. In 24 hours you will feel renewed health and vigor. After you have cured yourself, continue to take one or two Capsules each day so as to keep in first-class condition, and ward off the danger of future attacks. Money refunded if they do not help you. Ask for the original imported GOLD MEDAL brand, and thus be sure of getting the genuine.—Adv.

**Every Woman Wants**  
**Paxtine**  
ANTISEPTIC POWDER  
FOR PERSONAL HYGIENE  
Dissolved in water for douches stops pelvic catarrh, ulceration and inflammation. Recommended by Lydia E. Pinkham Med. Co. for ten years. A healing wonder for nasal catarrh, sore throat and sore eyes. Economical. For extraordinary cleanliness and germicidal power. 50c. all druggists, or ordered by mail. The Paxtine Toilet Company, Boston, Mass.

**ERADICATE MALARIA OUT OF THE SYSTEM**  
**BABEK**  
for  
That Tired Feeling  
A GOOD TONIC AND APPETIZER

**Kill All Flies!** THEY SPREAD DISEASE  
Daisy Fly Killer attracts and kills all flies. Kills, chills, or annihilates, even when they are in swarms. Made of the best fly-killers. Kills all flies, house flies, stable flies, and all other annoying flies. For more information, ask for Daisy Fly Killer. Sold by druggists, or by mail. (BIRDSONG, 140 S. WABASH AVE., CHICAGO, ILL., U.S.A.)

**OIL STOCK WANTED!**  
Three volumes—Free—O. O. D.—God, Oil and the World. J. M. WALKER, 14 Citizens' Trust Bldg., Boston, U.S.A.

## INCREASED HONEY CROP DESIRABLE

Beekeepers Can Add to Supply of This Sugar Substitute at Small Cost.

## MORE BEE COLONIES NEEDED

High Degree of Skill, Special Training, Faithful and Persistent Attention, Is Required for Marked Success.

(Prepared by the United States Department of Agriculture.)  
About 250,000,000 pounds of honey are produced annually in the United States, California being the leading state in the production of this sweet. Honey production in this country could be increased largely—ten or twenty times the present yield—without an appreciable increase in the cost of production, for the raw material—the nectar in flowers—is at certain times practically unlimited. To produce more honey we just need more colonies of bees properly managed. The proposition is very simple to state, but decidedly difficult to execute. Successful beekeeping requires a high degree of skill, special training, and faithful, persistent attention to the business, so any marked increase in successful beekeeping hinges upon educational work among present and prospective beekeepers.

**Losses by Disease.**  
Losses of bees by disease, principally foulbrood, range during the summer from nothing to 10 per cent. Winter losses of bees range from 10 to 15 per cent, and in some states the loss was almost 50 per cent during the winter of 1916-17. Winter losses may be greatly reduced by more careful attention. The honey production business, commercially, is getting more and more in the hands of specialists because disease and winter losses discourage many who are untrained and unable to prevent these losses by proper treatment.

Honey became established some years ago as a seasonal product rather than a staple food for use throughout the year. The bulk of the honey was produced by farmers as a side line, the bees were given little attention and the honey was produced at little expense. The crop was marketed at low prices during the autumn and stocks were usually exhausted during the winter. There was little demand and practically no supply, during the spring and summer. But honey is now handled in a large way as a staple food product.

**Produced in Three Forms.**  
Honey is produced in three forms: Comb honey, in one-pound sections as commonly retailed; extracted or liquid honey, which has been removed from the comb; bulk or "chunk" honey, in which the comb is more or less mixed with the liquid honey. From 1914 to 1917 the production of liquid honey has increased in proportion to the commercial output of comb and chunk honey. The bees are able to produce a larger quantity of honey, if they are not compelled to build a comb for it, and when the comb is emptied and replaced in the hive the bees are able, in periods of heavy nectar secretion, to proceed immediately to the storage of more honey.

## CONSERVE ALL GRASS CROPS

Meadows and Pastures Should Be Used to Best Advantage to Produce Large Tonnage of Hay.

(Prepared by the United States Department of Agriculture.)  
There is need of making use of all meadows and pastures to the best possible advantage for the production of a large tonnage during the current season, but without reducing the production of milk and pork from pasturage. In the Northern and Western

Dairy Cows on Timothy and Clover Pasture.

portions of the country there are a considerable number of farms where there is a substantial acreage of natural meadow and pasture such as prairie and marsh land, which can be profitably harvested for hay this year. The high prices of the past winter for both hay and straw point to the desirability of filling barns and stacking the surplus beyond the immediate apparent needs as a measure of safety. Transportation problems may be serious again next winter.

## HARVEST GRAIN WITH LITTLE OR NO WASTE

Especially Important That Farmers Adopt Effective Plan.

Careful Methods This Year Will Include Raking of Fields and Stacking of Cleanings—Covered Storage Is Favored.

(Prepared by the United States Department of Agriculture.)

High prices and the need of supplying the country and our European partners in the war with grain make it especially important that grain farmers study the most effective methods of harvesting without waste every acre of grain. Careful harvesting methods

Wheat Well Shocked—Good Shocking Is One Way to Prevent Waste of Grain.

for this year will include the raking of grain fields and the careful stacking of gleanings in order to save all possible grain that may be grown. In connection with this comes the careful shocking and stacking of the grain. Many a farmer has raised a good crop of choice wheat or oats only to have a crop of inferior grain to market because of poor shocking or poor stacking and subsequent loss by protracted rainfall. Everybody needs to be on the lookout this year in order to prevent any of the wastes or losses that usually occur after the grain has actually been grown and harvested. Covered storage is especially important in all humid areas. Thrashermen should see that their machines are in order for prompt and clean threshing and that the cleaning up after the threshing is complete.

## AREA OF PASTURE LAND

(Prepared by the United States Department of Agriculture.)  
Of the total farm land in the United States at the time of the last census—1910—which comprised about 879,000,000 acres, somewhat more than one-third was in crops, one-third in pasture and a little less than one-third in all other kinds of farm lands. Land in improved pasture represents nearly one-tenth of the total land in farms, and is doubtless used for crops from one-half to three-fourths of the time, according to the crop rotation that is practiced. A large part of the pasture land is unimproved, about 99,000,000 acres being in "wood-land pasture," and 108,000,000 acres "other unimproved pasture."

## INJURY BY CORNSTALK BORER

Farmers and Gardeners Urged to Watch for Destructive Pest and Report Appearance.

(Prepared by the United States Department of Agriculture.)  
The European cornstalk borer, which was discovered in eastern Massachusetts last summer and which is one of the most destructive insect pests of corn, is reported to be spreading rapidly to other neighboring localities. The most vigorous and energetic action possible will be required on the part of farmers and gardeners, county agents and entomologists if the pest is to be eradicated or satisfactorily controlled.

It is known that shipments of infested ears of sweet corn were shipped last year to practically all the New England states before the presence of the worm was discovered. Corn growers are warned to be on the alert to discover this pest in growing corn or within the stalks of last year's crop, and gardeners are urged to watch for it in such vegetables as tomatoes, beans and some of the common weeds. In the caterpillar state this pest when full grown is about one inch in length, grayish in color, and covered with numerous small, round, dark-colored specks. Persons discovering the insect are urged to communicate immediately with the state agricultural college or the bureau of entomology, United States department of agriculture, Washington, D. C.  
This pest bores into cornstalks at the joints beneath the leaf sheath or into the bases of the ears. As many as two dozen caterpillars have been found inhabiting one dry stalk. The insects pass the winter in the pupal or resting stage protected inside the stalks or stems of corn or weeds of the previous year growth. When they are found in such places in the spring or summer, the dry vegetation should be carefully gathered and immediately burned to destroy the pest.

## Libby's

## Veal Loaf with such flavor!

THIS delicately flavored Veal Loaf is made with such perfection by Libby's expert chefs in the immaculate Libby's kitchens—that you will always want these chefs to make it for you. You find it so appetizing, so nutritious a meat at such little cost and trouble.

Order Libby's Veal Loaf for lunch-eon today. Serve either hot or cold, your family will delight in it.

Libby, McNeill & Libby, Chicago

### Goose Was a Fighter.

Fighting a goose a man had an exciting experience at Grand Lake, Newfoundland, the other day. The man was goose hunting, and it being after nightfall he had a searchlight rigged upon his boat, when he came upon two geese in the distance perched upon a piece of ice. He fired and struck one of the birds. He hastened to secure it, when the other attracted by the light flew right on board the boat, and for a considerable while both huntsman and bird fought with each other upon the dark waters of Grand Lake.

### Like Home.

There is real sentiment in the case of the dairy farmer boy who, when he was sent a can of condensed milk over in France, christened it "Hollstein Belle" and made a stall for it with two bits of board on the shelf in his dugout.

### No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS chill TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a general strengthening tonic to the whole system. Nature will then throw off of itself the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

### This Season's Objective.

"Where are you going this summer?"  
"Don't know for sure," replied the young man. "France, I hope."

Beauty is often one woman's thorn in another woman's flesh.

Scandal often stings itself.

## One Carload Every Two Minutes

**15,000 POUNDS MEAT A MINUTE GOING TO ALLIES**  
**One Hog Out of Every Four Being Sent Abroad.**  
Shipments of meat have been going to the allies for some time at the rate of 15,000 pounds a minute. As the shipments are kept up during a ten hour day they amount to 2,000,000 pounds daily. The meat goes to soldiers of the United States and the allies and to the civilian population of all the countries at war with Germany.  
—Chicago Tribune, June 1, 1918

These statements were made by a prominent representative of the United States Food Administration.

No industry in the country has played a more important part in helping to win the war than the American livestock and meat-packing industry.

Swift & Company alone has been forwarding over 500 car loads of meat and meat products per week for overseas shipment.

Swift & Company, U.S.A.
