It is only natural for any woman to dread the thought of an operation. So many women have been restored to health by this famous remedy, Lydia E. Pinkham's Vegetable Compound, after an operation has been advised that it will pay any woman who suffers from such ailments to consider trying it before submitting to such a trying ordeal.

WORK ON BIG REVENUE BILL

Hits Gasoline, Autos and Tires-Employers Of More Than One Servant To Pay Impost

On Wages.

Washington.-The plan of the Treasary Department for taxing luxuries and semi-luxuries in the \$8,000,000,000 War Revenue bill was laid before the House Committee on Ways and Means and calls for a heavy levy on fancy furniture, carpets and other luxuries and semi-luxurious household articles. and on moderately priced and expensive clothes, underwear, hats, shoes and other fancy articles of wear. Jewelry is taxed 50 per cent, of its retail price, while automobiles are er'led upon to pay a 20 per cent tax on their cost price and gasoline 10 cents a gallon, to be paid by the wholesale dealer.

High-Priced Articles Hit.

The tax scheme is sweeping in its scope. Hardly an article escapes which a rich man or man of moderate means buys for the comfort of his home and for adorning his person. Only the household articles and clothing which people of moderate circumstances are ferced to buy on account of their limited means are left untouched.

The list of articles which the Treasury Department tax experts class as luxuries and semi-luxuries runs up into thousands. They were specified on a sheet of paper said to be several yards long. Chairman Kitchin and other members of the committee refused to make public the list, because they held the plan was incomplete. and returned it to the Treasury Department for additional information They especially desired to know how the plan.

The new tax proposition first draws a price deadline between the necessi-"I believe," said the bug who was ties and the luxuries and the semialways talking about things nobody luxuries. > The scheme also taxes the amount of money expended for servants. A family is allowed one servant. If it hires more than one it must pay a tax on the money paid in wages to the second servant. If as many as four servants are hired the tax reaches beteween 90 and 100 per cent on the amount paid out in servant hire. Servcooks, hall boys, yard boys, footmen, nurses and other persons employed tion. the amount of money paid him for driving the machine is also levied.

The tax on things to wear includes every article over a certain price. Fancy underwear, silk stockings, neckties and other articles, which cost more than a price fixed in the plan, must pay the tax. All high-priced carpets

and furniture are included. The Treasury Department's suggestions, in a nutshell, are as follows:
