"Then you did break the heart of one! Tell me about it." "It was several years ago—before the beginning of the war. I was traveling in Europe, and rode in one of the compartment cars they have over there. A woman got in. We were alone together. She was young—about your age—and pretty. I saw at once that she was an American.

For hours we rode on, and no one else entered our compartment. "Yes?" "I never said a word to her or gave her a chance to say anything to me." —Dayton News.

Don't Neglect a Bad Back! It's Mighty Poor Policy to Worry Along Thus Handcapped When Health and Strength is So Needed. THE man or woman handicapped with a bad back in these times when physical fitness is so necessary, is indeed crippled. It's mighty poor policy to worry along with an aching back day after day; work is neglected and the simplest duties are a burden.

Personal Reports of Real Cases. A VIRGINIA CASE. Alex. Umberger, constable, Spiller St., Wytheville, Va., says: "I had a steady dull ache across the small of my back. Hard work and heavy lifting, no doubt, brought on kidney trouble. The kidney secretions were highly colored and irregular and painful in passage. At times an ache in my back was so severe I could hardly straighten up. It was difficult for me to get out of bed in the morning. One box of Doan's Kidney Pills did me more good than anything I had ever tried. They strengthened my back and regulated my kidneys."

Hot Weather Hits Us Hardest in Stomach

Keep a close watch on your stomach this summer. We need all our fighting strength. War work—change of diet—will make us all easier prey to stomach and bowel trouble than ever before. It is so easy to become overheated on a blazing hot day, especially after eating a hearty meal. And then the excessive heat makes us flood our stomachs with all kinds of cold drinks. That's bad at any time; much worse—even dangerous—when there is the slightest feeling of stomach trouble.

Keep the stomach sweet and cool and free from too much acid—that's about all that is necessary. It's not so much the diet as to keep the poison from starting trouble. You can easily do this if you will just take a tablet or two of EATONIC after your meals.

EATONIC is the wonderful new compound that absorbs the harmful gases and juices and almost instantly drives away stomach misery. Instead of sudden and painful attacks of indigestion, after you begin using EATONIC you'll forget you have a stomach. And there will be no more heartburn, food repeating, sour stomach, gas pains, or that lumpy, bloated feeling you have so often experienced after eating. Then your appetite—you know how hard it is to satisfy in hot weather—eat one or two EATONIC tablets a half hour before meals—and you will enjoy the results and feel better in every way. These are a few reasons why you should start using EATONIC today and fortify your stomach against the chance trouble this summer. It costs only 50c for a big package. Your druggist whom you know and can trust, will promptly refund your money if you are not more than satisfied.
