LIBERTY BONDS TEACH THRIFT

Encourage Saving Habit in Those Who Never Saved Before—Great Crisis Demands the Best From All of Us.

By HERBERT MYRICK.

President of the National Farm Power Group of Agricultural Papers.

Did you read that item in the newspapers the other day, of a one-time distinguished and prosperous citizen of Chicago who died suddenly in the hospital, unknown, alone, unloved? He was an old man, a victim of adversity, forgotten by the acquaintances of his prosperity. The authorities were about to consign the body to the potter's field when they found in his pocket a Liberty bond for \$50 and a certificate of a fraternal lodge to which he had once belonged. That society was notified and gave him a Christian burial, the undertaker and cemetery accepting the bond in payment for coffin and lot.

Jamie, We Salute You!

A good man and true is Jamie Bliss, age five years, who lives with mamma and papa on a farm near Eau Claire, Wis. Jamie had heard all the discussion about Liberty bonds and Thrift stamps, and, not yet being established in business for himself, was puzzled a little to know how such a little boy could have a part in this great undertaking. At the same time he learned how sorely our fighting men need wool and the great idea came to him. Without consulting anyone, Jamie started about the farm harvesting from hedges and wire fences the little wisps of wool left there as his father's sheep pastured. As a result of his expedition Jamie came into the house with his pockets and inside of his waist bulging with wool. Mamma Bliss was somewhat astonished when he explained that he was gathering wool to sell so he could buy Thrift stamps, but being a wise mother, she saw the point quickly.

Since then Honorable Jamie, wool gatherer to Uncle Sam, makes daily excursions into the sheep pasture. Already his wool has purchased two \$5 War Savings stamps and a good start toward another one. This, folks, is something which was not taught out of a book, but it is a sample of the patriotic citizenship now growing up, ready to stand at the helm a few decades hence.

Becoming a Bondholder.

Among my friends for years is a hard-working farmer with wife and several children. He never seemed to quite "get there." Though he worked hard, he just lacked the knack of getting a bit ahead. During the past year he saw his home prospered. When I saw him last week he said: "It's this way: I subscribed \$50 for a Liberty bond last year, and simply had to pay for it. I did so by paying in every dollar I could spare. Instead of spending money for things we could just as well do without. It is curious how one accumulates if they go at it that way.

"I see now that one reason why I never saved any money was because I didn't have anything like this to take my cash a little at a time. I used to think that I would begin saving when I had my bills paid and \$25 to the good, but I have discovered at this late date that the way to do it is to save a little at a time and put it by as you get it. I have been surprised to find that the same is true of so many other farmers, especially renters. What they have put into the Liberty bond is money that would have slipped through their fingers. They would have nothing to show for it, whereas now they have got a bond earning good interest, while their money is helping to lick the Kaiser. My first bond is now paid in full and I am beginning to save up my subscription to the fourth Liberty bond."

This reminds me of still another case where the boys and girls have earned and saved along with their parents until their subscription for each of the three Liberty bonds are now paid up. They did not see how they could raise the money for their first subscription, but their second was double that, and the third was still larger. The oldest boy was taken by the draft, which made the family all the more determined. The mother's saving her egg money, each of the children has a bit of a garden from which they are selling stuff, one of the girls is a member of the pig club, and the oldest boy still at home has quarter of an acre of onions that promises a splendid crop. The father is harvesting a heavy crop of

LIBERTY BOND IN FIRE

Mixed With Newspapers It Was Used for Kindling.

Mrs. Charles Stoekel of Georgetown, Del., found it rather cool and damp one day recently and decided to make a little wood fire in one of her stoves. She used an old newspaper or two picked up from the center table, to start the wood. Among the papers was a \$50 Liberty bond, which her husband had just purchased at the

wheat, and last spring made up his mind to devote not less than one third of the proceeds to the war. This one family is planning to subscribe \$1,000 for the fourth Liberty loan, and if all goes well, will be able to pay down nearly half the amount.

A Horde of Huns at Your Door. You know what they would do to you and your women—a fate far worse than death. You know how Huns have laid bare the countryside they have conquered—no animal or plant allowed to survive, even trees and vines cut off close to the ground. Rural homes demolished, barns burned.

You know how the Boches enslave the farmers of Belgium, Poland, the Ukraine. Words cannot depict the horror of it.

To prevent the same thing happening right here to you and your family, to your own community, state and nation—that is what our boys are fighting for "over there."

It is a question of right over might! Shall liberty be destroyed by slavery? This is the question the war is to answer for you and me and for generations yet unborn.

This final struggle for the survival of the fittest among humans demands every ounce of our energy, every cent of our money. Noble men and women are patriotically devoting some or all of their time, without money and without price, to help Uncle Sam win a victory. Others are giving produce or money to the good cause. Millions of our healthiest young men, the very seed of the race, are sacrificing their lives that you and I and others may live in peace.

The very least that each of us can do now is to lend our money to Uncle Sam so that he will have the funds with which to fight. The war is costing billions. The only way the government can get the money is to borrow it from the people or tax it out of them. The more the public lends to the government, the less taxes it will have to pay.

You can help in this crisis by subscribing to the fourth Liberty loan. These government bonds are the safest investment on earth. They are absolutely good. They yield good interest. You can get your interest money twice a year. If you have to use your principal, or you can use it as security at the bank to borrow for temporary wants. The latter is the better way, because it doesn't help the government any for you to sell your bond or for somebody else to buy your bond. Get your bond direct from the government; then your money goes direct to the government and will be used by it to pay the wages of soldiers and sailors and to furnish the ships and munitions with which they shall win the victory.

Must Do Our Best. It is up to each of us to do not our bit but our best. It's a question of life or death. Simplify, economize, go without things, so that the effort, time, thought and money thus saved may be transmuted into the things that shall enable the American flag to fly over Berlin—a symbol of the new civilization which is to insure peace through victory.

In our rural homes, on our farms, in the trenches, in other branches of service, in subscriptions to the Liberty bonds and War stamps, our American farmers have repeatedly gone over the top. Their efforts, their patriotism, their loyalty, have been universally recognized. Now in this fourth Liberty loan our rural folks will show the same generous confidence in the eternal principles of human liberty and of self government that were championed by those Middlesex farmers: "Their flags to April breeze unfurled, Who fired the shot heard 'round the world."

GOES WOOING IN AN AIRSHIP

Maiden's Neighbors in London Suburb Have Fears for Their Roofs.

London.—A pretty bit of chivalry was seen in a London suburb the other day. Early in the morning the knight-errant was out on his airplane and was flying low—so low as to make the tenants of the terrace anxious about their roofs.

On the miniature lawn in the center of the 30-foot garden the maiden waited until there fluttered down through the morning mist a little streamer of white material. It missed the garden and fell into the roadway.

The maiden rushed out and picked up her love letter.

The neighbors' curtains resumed their stillness, and the little episode of these grim days was closed.

Discard Hun Music Books.

A new series has been prepared for the pupils, which, it is announced, is "free from all German taint."

WEAK KIDNEYS MEAN A WEAK BODY

When you're fifty, your body begins to creak a little at the hinges. Motion is more slow and deliberate. "Not so young as I used to be" is a frequent and unwelcome thought. Certain bodily functions upon which good health and good spirits so much depend, are impaired. The weak spot is generally the bladder. Unpleasant symptoms show themselves. Painful and annoying complications in other organs arise. This is particularly true with elderly people. If you only know how, this trouble can be obviated.

For over 200 years GOLD MEDAL Haarlem Oil has been relieving the inconvenience and pain due to advancing years. It is a standard, old-time home remedy, and needs no introduction. It is now put up in odorless, tasteless capsules. These are easier and more pleasant to take than the oil in bottles.

Each capsule contains about one dose of five drops. Take them just like you would any pill, with a small swallow of water. They soak into the system and throw off the poisons which are making you old before your time. They will quickly relieve

those stiffened joints, that backache, rheumatism, lumbago, sciatica, gall stones, gravel, "brack dust," etc. They are an effective remedy for all diseases of the bladder, kidney, liver, stomach and allied organs.

GOLD MEDAL Haarlem Oil Capsules cleanse the kidneys and purify the blood. They frequently ward off attacks of the dangerous and fatal diseases of the kidneys. They have a beneficial effect, and often completely cure the disease of the bodily organs, allied with the bladder and kidneys.

If you are troubled with soreness across the loins or with "simple" aches and pains in the back take warning, it may be the preliminary indications of some dreadful malady which can be warded off or cured if taken in time.

PHTHISIS AS DEADLY AS WAR

Expert Says That in Four Years it Has Killed as Many as Have Died in Battle.

The war has served effectually to disclose that during the four years of hostilities mortality from tuberculosis in the civilian population and in the armies of all the countries engaged has at least approximated the total number of soldiers killed in battle, according to Dr. Livingston Farrand. As director of the prevention of tuberculosis in France Doctor Farrand will resume his work overseas within a few days. He returned to the United States for graduation exercises of the University of Colorado, of which he is president.

"To make our country really safe for democracy we must first make it healthy," is the slogan Doctor Farrand suggests.

Of the men called to the colors in this country's first draft summons 50,000 were found to be tubercular, his appeal states. This, it declares, is one of the striking indications of the prevalence of the disease in the United States.

Read to the Children.

When children read a book to themselves the words do not leave the same impression upon their minds as when they hear them read aloud. When some one reads a book to them they learn how to pronounce those words which puzzled them; and if they do not know the meaning, it is easy to ask.

In Nowise Playful.

"I understand you have quit playing politics?" "I never played politics," replied Senator Sorghum. "When I went into a campaign I never left the other fellow enough of a chance to warrant calling it any kind of a game."
