Personal Reports of Real Cases

A VIRGINIA CASE.

J. F. Thomas, 27 Roxbury St., Clifton Forge, Va., says: "Uric acid had poisoned my blood and I had lost the use of my limbs. I was emaciated, my limbs were stiff and I endured awful suffering from pains in my back. I was in bed for months and it seemed as if nothing would help me. Finally I began taking Doan's Kidney Pills and in a few days a great change took place. Before long I was able to walk around in a little over a month I was well and happy again. My kidneys are now normal and I gained about thirty pounds."

A MARYLAND CASE.

Mrs. L. T. Somers, Extension Second St., Pocomoke City, Md., says: "Last March I was in a bad way with a run down condition of my kidneys. I had severe pains in the small of my back whenever I would bend and it was hard to straighten. The kidney secretions were scanty and distressing in passage and I felt tired and worn out and miserable. Through a friend, I learned of Doan's Kidney Pills and they did me more good than any other medicine I had ever taken. I am now in fine health."

Packers' Costs and Profits

How much do you think it costs—

1. To dress beef, cure hides, and prepare all the numerous by-products?
2. To cool the meat for two or three days before shipment?
3. To freight it to all parts of the country in special refrigerator cars, iced daily?
4. To carry it in hundreds of branch houses, each with its refrigerating plant?
5. And to deliver it to the retailer—sweet and fresh—in less than two weeks after dressing?

Swift & Company did all this for you in 1917 at an expense of less than 2½ cents per pound of beef sold, including an average profit of ¼ of a cent a pound.

Figure for yourself how little effect this cost and profit had on prices you paid for beefsteak.

ANOTHER BIG SHOVE FOR HUNS

British Advance Their Lines Over 1,000 Yards

YANKS GAIN IN LORRAINE

The Famous Lys Salient In The Region West Of Armentieres Giving Way Under British Pressure.

London.—Gradually the famous Lys salient in the region west of Armentieres is giving way under the pressure of the British. Again Field Marshal Haig's forces have compelled the enemy to seek ground to the eastward where he will be more secure from the shells of the big guns that for several weeks have been firing cross-cross over the entire salient, working havoc among the defenders of the insecure line.

Likewise the Germans are being given no rest by the Franco-British forces north and south of the Somme, and the French and Americans along the Vesle, and the Americans in Lorraine, also are harassing them by artillery fire and local attacks. Nowhere has the enemy had the better of any encounter.

Over a front of four miles between Baillou and Vieux Berguin, on the Lys sector, the British have forced back the Germans to a depth ranging from 1,000 to 2,000 yards taking in the maneuver the village of Outtersteen and 400 prisoners.

A little to the south along the Lys River near Merville the British also have advanced their line, and still farther south, between Arras and Albert, the Germans have been relieved, under pressure, of further terrain near Buquoy.

While as a whole the German line between the Somme and the Oise Rivers is still holding, notwithstanding the terrific pounding it is receiving from the Allied guns, the British have drawn nearer the road leading from Chaulnes to Roye between Chilly and Fransart, placing Roye in greater jeopardy by attack from the north.

It is in this region that the French are endeavoring—and in their initial efforts they have met with considerable success—to carry forward their two-fold purpose of outflanking both Roye and Lassigny by a drive eastward in the direction of the road leading southeastward from Roye to Noyon.

Along the Vesle River front, where the Americans and French are holding the line against the Germans, there has been considerable reciprocal artillery shelling, but with the weight of gun power and of shells resting with the Allied troops. They gave the enemy two shells for one. An indication that the German line immediately in front of the French and Americans is thinly held is the fact that American patrols at various points have penetrated sectors to the enemy's barbed wire and trenches without encountering infantrymen.

In Lorraine, where the Americans captured the village of Frapelle, near St. Die, Saturday morning, they have pressed on and gained more ground, notwithstanding a heavy bombardment by the enemy.

SOLDIERS GET FRESH PORK.

Now Being Substituted In Camps For Beef.

Washington.—Fresh pork is now being issued to troops in the camps and cantonments throughout the United States two days in every ten as a temporary substitute for fresh beef, the War Department announced. There is an abundance of fresh pork at this time, while the supply of fresh beef is not up to normal requirements. This temporary substitution will mean the saving of large quantities of beef and is expected to relieve somewhat the recent strained prices for that commodity.
