

THE JOY OF MOTHERHOOD

Came to this Woman after Taking Lydia E. Pinkham's Vegetable Compound to Restore Her Health

Ellensburg, Wash.—"After I was married I was not well for a long time and a good deal of the time was not able to go about. Our greatest desire was to have a child in our home and one day my husband came back from town with a bottle of Lydia E. Pinkham's Vegetable Compound and I wanted to try it. It brought relief from my troubles. I improved in health so I could do my housework; we now have a little one, all of which I owe to Lydia E. Pinkham's Vegetable Compound."—Mrs. O. S. JOHNSON, R. No. 3, Ellensburg, Wash.

There are women everywhere who long for children in their homes yet are denied this happiness on account of some functional disorder which in most cases would readily yield to Lydia E. Pinkham's Vegetable Compound. Such women should not give up hope until they have given this wonderful medicine a trial, and for special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of 40 years experience is at your service.

PATENTS Watson E. Coleman, Patent Lawyer, Washington, D. C. Advice and books free. Bases reasonable. Highest references. Best services.

W. N. U., BALTIMORE, NO. 35-1918.

Joy for Archeologists.
I was at Carchemish on the day the greatest Hittite find ever unearthed was revealed to the eye of man for the first time in three thousand years.

When the enthusiastic laborers had carefully uncovered the precious dolerite slab, and the overseer, bending over it like some near-sighted Silas Marner caressing his gold, had discovered that it bore the longest Hittite inscription ever found, ten shots from a big Colt revolver, fired as a back-sheesh to the stone, echoed and re-echoed across the Euphrates, and workmen and directors knew that a big find had been made.

Pandemonium was let loose. Laborers came running from all directions to share in the joy of discovery. I also shared in that joy. I shouted congratulations to Khalil, the giant pickman.

"Praise be to God!" I cried. He grinned so I could see all his teeth, and answered, "God's blessing return to you!"—Christian Herald.

Limit in Snobbery.
"These society leaders who go about administering snubs and insults," the late Barton Willing once said at the Philadelphia club, "remind me of Greens."

"Greens ran a little grocery in South Eleventh street. He was tremendously proud of it, though it was in reality a wretched hole. He used to stride up and down in front of it all day with his nose in the air and his chest puffed out.

"A humble hodgecarrier passing Greens one morning said affably: "How are you, Mr. Greens? It looks as if we'd have some rain, don't it?" "We'd?" snorted Greens. "We'd? Since when, young man, have you and I been partners?"

Grove's Tasteless chill Tonic Destroys the malarial germs which are transmitted to the blood by the Malaria Mosquito. Price 50¢.

Editor Finally Turned.
"And this," said the alleged old soldier, pestering a long-suffering editor who was an old soldier, "is where the Arabs were massed in front of us. 'Here'—pointing to another place on a dirty pocket map—"is where our division was drawn up in zereba.

"We deployed in this direction, and our left wing was attacked by the enemy on this knoll. Just at this point I was wounded on the left shoulder, and a hundred yards further on I got my right arm shattered by a piece of one of our own shells, and—"

"But," interrupted the bored editor, "where did you get your brains blown out?"—London Tit-Bits.

Influences on Temperament.
"You don't write any more delicate and soulful poetry."
"No," answered Mr. Penwidge. "By the time a man has gotten a fountain pen and a typewriter tuned up for a day's work he's in no mood for delicate and soulful stuff."

When Your Eyes Need Care Try Murine Eye Remedy
No stinging—Just Eye Comfort. 50¢ each at drugists or mail. Write for Free Eye Book. MURINE EYE REMEDY CO., CHICAGO

PORTABLE HOUSE BEST FOR SWINE

Advantage of Movable Cot Is That It Is Easily Changed. Around Pastures.

SELECT WELL-DRAINED SITE

Wooden Floors Are Good but Not Necessary—Should Be Higher Than Outside Level of Ground to Insure Dryness.

(Prepared by the United States Department of Agriculture.)

A well-drained site should be selected for the hog house and, if possible, there should be sufficient elevation to give the hogs a climb in reaching it, if practicable the house should occupy the south side of a hill.

Principles of construction: Four important things should be observed in hog house construction; namely, light, ventilation, warmth, and cleanliness. Light is provided by placing the house along a north and south line and by putting in suitable doors and windows. Doors, windows, and roof ventilation furnish a proper interchange of air. Hogs need good ventilation as well as people. A well-constructed house with good floor and bedding provides sufficient warmth.

Make Quarters Comfortable.
Let it be remembered that the hog has little natural protection from cold; hence the necessity for comfortable

Good Type of Individual Hog House—This House Has a Number of Windows and Doors Which Can Be Opened to Provide Ventilation When Weather Conditions Permit.

quarters. Cement makes a satisfactory floor, but in colder climates must be covered with wooden false floors. A good floor makes it much easier to keep the house clean. The arrangement of the house should be such that the beds and feed floors are well separated.

There are two general classes of houses—large community or stationary, and small individual or movable. The large house has individual pens and is intended for quite a number of hogs. The advantages of the large house are: It is more economical for a large number of hogs; it is convenient for feeding and affords provisions for saving manure. If the house is to be quite large it is usually advisable to arrange the pens in two rows with an alleyway between them. The alley should be 4 to 6 feet wide unless it is desirable to have space for the passing of a wagon. In that event the alley should be 8 to 10 feet wide.

Individual Hog House.
The individual house, as the name suggests, is intended for one hog or for a sow and her brood. One decided advantage of the individual or portable house is that it can be moved from place to place and can thus be kept sanitary and made accessible to pastures. There are two general styles of individual houses, namely, the box-shaped with four upright walls and the A-shaped. The dimensions should be 6 feet by 10 feet, or 8 feet by 8 feet. Wooden floors are good, but not necessary. The floor should be higher than the outside level of the ground, to insure dryness. All houses should be sufficiently high to permit the attendant to move about them with comparative freedom. By placing fenders on the walls a few inches from the floor, individual houses may be used for farrowing pens.

When a number of sows are kept on a farm it may be desirable to have a regular farrowing pen. A small house provided with fenders serves as a farrowing pen. Fenders may be made of 2 by 6-inch scantling and firmly attached to the walls of the pen some 6 inches above the floor. The object of the fender is to prevent the sow overlying young pigs.

Keep Flies in Check.
Every farm should have as a part of its equipment a sprayer of some sort as well as suitable fly "dope" so that the flies may be kept in check as far as their tormenting the stock is concerned.

Object in Applying Lime.
The purpose of applying lime to the soil is to correct or neutralize acidity or sourness of the soil and improve the tilth or mechanical condition.

DISTRICT ENRICHED BY CHEESE FACTORY

Prosperity Brought to Isolated Community in Southeast.

(Prepared by the United States Department of Agriculture.)

Cheese making is transforming many isolated mountainous districts of the southeastern states into prosperous farming communities. For many years the remoteness of these districts and the lack of ready communication with the outside world has retarded agricultural development. An interesting story of the rapid development of small co-operative cheese factories which, with the improvement of cows, appears to point the way to financial and industrial independence, is told in Yearbook Separate 737 of the United States department of agriculture.

The first co-operative factory in this section was put into operation in the spring of 1915 in a mountainous section of North Carolina. On June 5 a small building only 14 by 16 feet was built and equipped at a cost of only \$400 and opened for business. Before the end of the year this modest factory returned to its patrons almost \$1,500, a net gain of more than \$1,200, because the total income for the sale of butter in the community previous to the establishment of the cheese factory averaged less than \$300. About six weeks after it was established another factory, built and equipped at a cost of \$375, was started in a neighboring community and was conducted with equally good results.

The first factories were established with difficulty because of lack of interest among the farmers, but after the profits began to roll in it was impossible to meet the demand for assistance and no solicitation was needed to induce the people to put up new factories. The first year the factories were opened, about \$3,100 worth of cheese was made and sold. In 1916, 26 factories were established in North Carolina, Virginia, Tennessee and West Virginia. During last year \$30,000 worth of cheese was made in North Carolina alone, and the 34 factories then in operation in the states mentioned produced cheese which sold for more than \$125,000. The cost of operation, says the publication, added to what the farmers would probably have received from the milk if there had been no cheese factories, would amount to about one-fourth of the gross receipts. Therefore, three-fourths of this amount, or a little more than \$90,000, was newly created wealth.

The effect of the increased income from the mountainous farms has brought about a higher standard of living. Farm houses have been remodeled; roads improved; better farm equipment introduced, and more interest has been taken in educational work of all kinds. Though some high-grade cows have been purchased and brought into the section, the greatest progress in dairy improvement is shown by the better care and more skillful feeding of the cows already at hand. The introduction of cheese factories, the publication says, is only the first step forward, but they furnish the financial support for the movement which is slowly but certainly bringing prosperity to these southern mountain districts.

DON'T FORGET YOUR SILO

Advice to Beef Cattle Farmer by Specialists of Department of Agriculture.

"Don't forget your silo," is the advice to the beef cattle farmer by specialists of the United States department of agriculture. In every case, the specialists say, a sufficient acreage to provide crops to fill the silo should be provided by beef cattle farmers. This will assure that the silo investment will yield its proper annual return and prevent losses coming from giving the cattle more expensive feeds. The comparative cheapness with which cattle can be fitted for market with silage insures that well-filled silos will be a paying investment. It is good farm practice, the specialists say, to put more acreage to silage crops than it is estimated under ordinary conditions will be necessary. This provides for unanticipated shortage.

Two Excellent Silo Types.

Milk is "Perfect Food."
Milk is called a "perfect food" because it contains all the food elements in nearly the right proportion for proper nutrition and in the most digestible form; butter is probably the most attractive fat and is 100 per cent digestible; cheese has high protein value and is a good substitute for meat.

VERMIN ATTRACTED BY FOOD

If No Scraps Are Around There Will Be Little Trouble With Ants or Roaches.

The surest way to keep a house free from ants is to leave no food lying about on shelves or in open places, where they can reach it. Ants go where they find food, and if the food supplies of the household are kept in un-proof metal containers or in ice boxes, and if all foods that may be open to be scattered by children or others is cleaned up promptly, the ant nuisance will be slight. Cake, bread, sugar, meat, and like substances, are especially attractive to the ants, and should be kept from them.

Roaches will find some available food material, and if such materials can be kept from living rooms and offices or scrupulously care exercised to see that no such material is placed in drawers where it can leave an attractive odor or fragments of food, the roach nuisance can be largely restricted to places where food necessarily must be kept.

SHE GOT COMPOSERS MIXED

Queen Victoria's Error Must Have Caused Mascagni to Pass an Uncomfortable Few Minutes.

Sometimes when a great personage essays musical criticism embarrassing errors arise. Once Queen Victoria invited Mascagni, the composer of Cavalleria Rusticana, to play for her at Windsor castle. When the musician stood at the piano her majesty said: "I am passionately fond of one of the numbers of your opera."
Mascagni played the Intermezzo.
"No," said the queen, "that is not the melody I mean."
Mascagni played the Prelude.
"That's not it, either."
Mascagni played the dramatic Duet.
The queen became almost impatient. "I'll help you to remember it," she said, and hummed a few measures.

With increasing consternation Mascagni listened as the queen sang the Prologue to Leoncavallo's I Pagliacci! Le Gaulois, in telling the story, does not say whether the musician informed the queen that she had made a mistake.—Youth's Companion.

TOO WEAK TO FIGHT

The "Come-back" man was really never down-and-out. His weakened condition because of overwork, lack of exercise, improper eating and living demands stimulation to satisfy the cry for a health-giving appetite and the refreshing sleep essential to strength. GOLD MEDAL Haarlem Oil Capsules, the National Remedy of Holland, will do the work. They are wonderful. Three of these capsules each day will put a man on his feet before he knows it; whether his trouble comes from uric acid poisoning, the kidney, gravel or stone in the bladder, stomach derangement or other ailments that befall the over-zealous American. The best known, most reliable remedy for these troubles is GOLD MEDAL Haarlem Oil Capsules. This remedy has stood the test for more than 200 years since its discovery in the ancient laboratories in Holland. It acts directly and gives relief at once. Don't wait until you are entirely down-and-out, but take them today. Your druggist will gladly refund your money if they do not help you. Accept no substitutes. Look for the name GOLD MEDAL on every box, three sizes. They are the pure, original, imported Haarlem Oil Capsules.—Adv.

One Talk, One Penny.
Donald had just finished reciting "Little Boy Blue" when his uncle said, "Say it over again and I will give you a penny."

Donald did as he was requested, and when he had ended his uncle again said, "Now say Tom, the Piper's Son, Donald."

Quick as a flash Don asked, "You hasn't got another penny, has you, Uncle Bill?"

No Older Than Your Face.
Is true in most cases. Then keep your face fair and young with Cuticura Soap and touches of Cuticura Ointment as needed. For free samples address, "Cuticura, Dept. X, Boston." Sold by druggists and by mail. Soap 25, Ointment 25 and 50.—Adv.

Three Million Spangles in Flag.
A flag of extraordinary beauty, composed entirely of spangles, was recently displayed in a Chicago store window. The brilliant emblem, flashing back the light from innumerable points, extended almost the full width of the panel at the back of the display area. Three and one-half million of the tiny metal disks, strung on threads, were used in fashioning this flag.—Popular Mechanics Magazine.

Oh, Well!
"Do you raise flowers, Mrs. Subb Urbs?" asked Mrs. Stitty-Folks. "No, we merely plant 'em. The chickens raise 'em."

He Could, All Right.

"The sounds of battle are something terrifying," roared the lecturer. "Can you imagine the screaming of the shells, the roaring of the cannons, the yells of the men, the rattle of the rifles and machine guns?"
"Yes, sir, I think I can," said the meek little man in the front row, who thought the question was meant for him. "We got three singers, two trombone players, eight pianos, fourteen talking machines, a violinist and a cornetist in our block, all trying to get back in practice."

A Bright Pupil.
Teacher—Into what two great classes is the human race divided?
Pupil—Motorists and pedestrians.

Properly Indignant.

One of our neighbors was trying some of the late dance steps when his two small sons toddled out on to the floor to join in the exercise. In mock anger he commanded:
"Get out of my ways, boys! You can't dance!"
Little Melvin was much insulted, and after a moment's reflection indignantly exclaimed:
"Daddy, I guess you think us little kids is just boneheads!"—Exchange.

Yum Yum.
After watching some folks eating the delightful fruit, one is inclined to say with that distinguished statesman whose name we forget, "Come on in—the watermelon's fine."

A Message to Mothers

YOU know the real human doctors right around in your neighborhood: the doctors made of flesh and blood just like you: the doctors with souls and hearts; those men who are responding to your call in the dead of night as readily as in the broad daylight; they are ready to tell you the good that Fletcher's Castoria has done, is doing and will do, from their experience and their love for children.

Fletcher's Castoria is nothing new. We are not asking you to try an experiment. We just want to impress upon you the importance of buying Fletcher's.

Your physician will tell you this, as he knows there are a number of imitations on the market, and he is particularly interested in the welfare of your baby.

Genuine Castoria always bears the signature of *Chas. H. Fletcher.*

Canada made me Prosperous
—that's what thousands of farmers say, who have gone from the U. S. to settle on homesteads or buy land in Western Manitoba, Saskatchewan or Alberta is especially attractive. She wants farmers to make money and happy, prosperous homes for themselves by helping her raise immense wheat crops to feed the world.

You Can Get a Homestead of 160 Acres Free
or other lands at very low prices. Where you can buy good farm land at \$15 to \$30 per acre that will raise 20 to 45 bushels of \$2 wheat to the acre—it's easy to become prosperous. Canadian farmers also grow wonderful crops of Oats, Barley and Flax. Mixed Farming is fully as profitable an industry as grain raising. The excellent grasses, full of nutrition, are the only food required either for beef or dairy purposes. Good schools and churches; markets convenient; climate excellent. Write for literature and particulars as to reduced railway rates to Supt. of Immigration, Ottawa, Canada, or to

NO WORMS In A Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance.

Grove's Tasteless chill Tonic

contains just what the blood needs, Iron and Quinine in a form acceptable to the most delicate stomach and if given regularly for two or three weeks will enrich the blood, improve the digestion and act as a general strengthening tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. It is pleasant to take. Price 60¢.

PERFECTLY HARMLESS. CONTAINS NO NUX-VOMICA OR OTHER POISONOUS DRUGS.

When A General Strengthening Tonic is Needed in the Home For The Child, For the Mother or the Father, Take Grove's Tasteless chill Tonic

Grove's chill Tonic Tablets

You can now get Grove's Tasteless chill Tonic in Tablet form as well as in Syrup, the kind you have always bought. The Tablets are intended for those who prefer to swallow a tablet rather than a syrup, and as a convenience for those who travel. The tablets are called "GROVE'S chill TONIC TABLETS" and contain exactly the same medicinal properties and produce exactly the same results as Grove's Tasteless chill Tonic which is put up in bottles. The price of either is 60¢.

Are You Bloating After Eating
With that gassy, puffy feeling, and hurting near your heart? For Quick Relief—Take ONE
