

Had to Give Up Work

Mr. McMurray Was in a Bad Way Until He Used Doan's—They Brought a Quick Cure.

R. K. McMurray, 48 W. Hickory St., Chicago Heights, Ill., says: "I was always a strong man until I was taken with kidney trouble. I worked many years as a blacksmith and this work brought me into the habit of standing over there was a grinding pain in my back and I couldn't straighten up for four or five minutes. Sometimes it took me half an hour to get on my feet. I got so bad I had to lay off work for days at a time. Often I would have to get up a dozen times at night to pass the kidney secretions, and they burned like fire. My feet swelled, and at times they burned so that it seemed I was standing on a hot stove. I had spells of gasping for breath and I felt as if I was suffocating. My health failed rapidly. I was told that my working days were over, but Doan's Kidney Pills were brought to my attention and before I had used one box, I began to feel relieved. I kept on and by the time I had used ten boxes, I was absolutely cured. All pains left my back and other symptoms of kidney trouble disappeared and I felt as well and strong as ever."

Subscribed and sworn to before me this 15th day of July 1917. DAVID H. SHAPIRO, Notary Public.

HOW TO FIGHT SPANISH INFLUENZA

By DR. L. W. BOWERS.

Avoid crowds, coughs and sneezes, but fear neither germs nor Germans! Keep the system in good order, take plenty of exercise in the fresh air and practice cleanliness. Remember a clean mouth, a clean skin, and clean towels are a protecting armor against disease. To keep the liver and bowels regular and to carry away the poisons within, it is best to take a vegetable pill every other day, made up of May-apple, Aloe, Jalap, and sugar-coated, to be had at most drug stores, known as Dr. Pierce's Pleasant Pellets. If there is a sudden onset of what appears like a head cold, one should go to bed, wrap warm, take a hot mustard foot-bath and drink copiously of hot lemonade. If pain develops in head or back, ask the druggist for Anuric (anti-rheo) tablets. These will flush the bladder and kidneys and carry off poisonous germs. To control the pains and aches take one Anuric tablet every two hours, with frequent drinks of lemonade. The pneumonitis appears in a most treacherous way, when the influenza victim is apparently recovering and anxious to leave his bed. In recovering from a bad attack of influenza or pneumonitis the system should be built up with a good herbal tonic, such as Dr. Pierce's Golden Medical Discovery, made without alcohol from the roots and barks of American forest trees, or the Iron Tonic (Iron Tonic) tablets, which can be obtained at most drug stores, or send 10c. to Dr. Pierce's Knickerbocker Hotel, Buffalo, N. Y., for trial package.

USUAL METHODS OF BUTCHERING

Better Results Obtained From Home Work Where Suggestions Given Are Followed.

ELIMINATE POSSIBLE WASTE

Use Fat Trimmings for Lard and Lean for Sausage—In Trimming for Bacon, Keep Sides as Square as Possible.

The usual farm method of cutting up a hog is to sever the ribs on each side of the backbone, take out the backbone, and split the carcass down the middle. The ribs are taken out before the sides are "blocked." Another method is to split with a saw or cleaver as near the mid line as possible. Then divide each half into four parts—head, shoulder, middle and hams, as shown in accompanying illustration. Remove the leaf if this was not done before. Peel the leaf backward with the fingers, starting at the front end. The kidneys are in this fat.

The head is generally removed before the carcass is split into halves. Cut about an inch back of the ears, making a complete circle around the head. If the cut does not happen to strike the atlas joint, twist the head and it will yield. The fattest part of the head can be used for lard and the more fleshy parts may be used for sausage or headcheese. The jaw is sometimes used for cooking with sauerkraut or baked beans and in the spring with turnip greens.

Cutting Up Carcass. One-half the carcass should be placed on a cutting table and cut up. Cut off the front foot about 1 inch above the knee and the hind foot the same distance above the hock. The feet can be used to make pickled pigs' feet or pigs' feet jelly. The shoulder cut is made between the fourth and fifth ribs. Remove the ribs from the shoulders, also the piece of backbone which may be attached. Cut close to the ribs in removing them, so as to leave as much meat on the shoulder as possible. These are "spare ribs" and make an excellent dish when fried or baked. If only a small amount of cured meat is desired, the top of the shoulder may be cut off about one-third the distance from the top and parallel to it. The fat of the shoulder top may be used for lard and the lean meat for steak or roasts. It should be trimmed up smoothly. The fat trimmings should be used for lard and the lean trimmings for sausage.

Removing the Ham. The ham is removed from the middle by cutting just back of the rise in the backbone. Cut from the flank toward the root of the tail to an angle of about 45 degrees. Loin meat is thus saved which would otherwise be trimmed off the ham and used for sausage. Remove the ribs from the side, cutting as close to the ribs as possible. The loin and fatback are cut off in one piece; cut parallel with the back just below the tenderloin muscle on the rear part of the middle. Remove the fat on the top of the loin, but do not cut into the loin meat. The lean meat is used for chops or roasts and the fatback for lard. The remainder of the middle should then be trimmed for

WHY WOMEN DREAD OLD AGE

Acid-Stomach Victims Sickly, Weak, Unfit, Depressed

Maybe you have an acid stomach—and don't know it! There are millions of such people—weak, ailing, tired, worn out and "all in" before the day is half over. They are restless and impatient to their surroundings—often with aches and pains all over the body—suffering from lack of physical power and mental vigor—pale, exhausted—just dragging out a weary existence. Nine out of every ten of these people are unconscious victims of acid stomach.

Thousands upon thousands of people who are subject to attacks of indigestion and biliousness who are nervous, melancholy, mentally depressed; who suffer from rheumatism, headache or sciatica—yes, even many of those who have catarrh, ulcer or cancer of the stomach, if the trouble is traced to its source, it will often be found to be just acid stomach. For these are only some of the ailments that are caused by what the doctors call superacidity, which is another name for sour or acid stomach.

What you want to know above all else is how to quickly rid yourself of excess acid. A wonderful modern remedy called EATONIC literally wipes it out. It does the work easily, speedily and naturally. It makes the stomach pure, sweet, cool and comfortable. It helps you get full strength out of every mouthful of good you eat; and unless you do get full strength from your food you cannot enjoy robust, vigorous health.

You eat to LIVE. Your life depends on the strength you get from your food. There is no other way. EATONIC is in pleasant-tasting tablet form—just like a bit of candy. We urge you—no matter what you have tried—take EATONIC just one week and find out for yourself how wonderfully it helps your life. EATONIC banishes the immediate effects of acid stomach—flat, heartburn, belching, food repeating, sour, gassy stomach, indigestion, etc. See too, how quickly your general health improves—how much more easily it is digested—how much more readily it is assimilated and its nutritive value is made available to your system. EATONIC is absolutely harmless. It can be taken by the most delicate. Tens of thousands of people who have used it are enthusiastic in its praise.

EATONIC is absolutely guaranteed, so get a big 50c box from your druggist. If it does not help you your money will be refunded. If your druggist does not keep EATONIC, send your name and address to the Eaton-Bronley Company, 1015 N. Wabash Ave., Chicago, Ill., and they will at once mail you a 50c box and you can send them the money for it after you receive it.

Scenes of Prosperity Are Common in Western Canada

The thousands of U.S. farmers who have accepted Canada's generous offer to settle on homesteads or buy farm land in her provinces have been well repaid by bountiful crops of wheat and other grains. Where you can buy good farm land at \$15 to \$30 per acre—get \$2 a bushel for wheat and raise 20 to 45 bushels to the acre you are bound to make money—that's what you can do in Western Canada. In the provinces of Manitoba, Saskatchewan or Alberta you can get a HOMESTEAD OF 160 ACRES FREE and other land at very low prices. During many years Canadian wheat fields have averaged 20 bushels to the acre—many yields as high as 45 bushels to the acre. Wonderful crops also of Oats, Barley, and Flax. Mixed Farming is as profitable an industry as grain raising. Good schools, churches, markets convenient, climate excellent.
