

## Back Feel Achy After Grip?

**C**OLDS and influenza leave thousands with weak kidneys and aching backs. The kidneys have to do most of the work of fighting off a cold or a contagious disease. They weaken—slow up. Then you feel dull and draggy, irritable or nervous, and have headaches, dizzy spells, lame back, backache, sore joints and irregular kidney action. Give the kidneys quick help and avoid serious kidney troubles. **Doan's Kidney Pills** are always in unusual demand after grip epidemics as so many people have learned their reliability. **Doan's** are used the world over. They are recommended by your own friends and neighbors.

### Personal Reports of Real Cases

#### A VIRGINIA CASE.

Mrs. E. C. Hampshire, 1312 Brambleton Ave., Norfolk, Va., says: "I was in awful shape four years ago with kidney complaint and nothing helped me until I began taking Doan's Kidney Pills. They fixed me up all right and I haven't had any sign of the trouble since. The cure Doan's made for me has been a test of time and has been lasting."

#### A MARYLAND CASE.

John W. Maroney, Sixth and High Sts., Oakland, Md., says: "I was troubled by my kidneys off and on for years. Whenever I caught cold it settled in my kidneys and brought on an attack of backache. The kidney secretions were irregular in passage, giving me much annoyance. When I read about Doan's Kidney Pills I used a box and they corrected the trouble. I haven't used them lately, but if I am troubled again I would use Doan's for I know how good they are."

### How They Conversed.

An American liaison officer, who knew little French and a French artillery officer who knew little English had important business together during the height of the recent fighting.

"Henri," said the commandant to a young sergeant, "I have seen you talking to Americans several times. Can you speak English?" "No, mon commandant," answered Henri simply.

For all that, Henri and the American officer were soon engaged in vivacious conversation. At its conclusion the commandant turned to Henri.

"But you speak English very well," he said. "No, mon commandant," Henri still insisted. "We were talking in German."

### Calculating Youth.

Margaret's uncle had taken a party of small children nutting, and when they were to distribute the nuts he told one of the boys to give each child so many handfuls. Margaret would not accept the nuts from this boy, saying she wanted her uncle to give the nuts to her. He felt a little flattered to think she would take them from no one but himself and asked why she felt that way. She came over to him and whispered: "Cause, uncle, your hands are bigger."

## RAT IS FRIEND OF MINERS

Workers Warned of Coming Catastrophe When the Rodents Leave Tunnel—Are Fed by Men.

Investigators of mining conditions and the peculiar dangers to which miners are subjected recently have taken much interest in the practice of Western gold miners to make pets of the rats which commonly infest mines. On the mother lode of California it has been found that the miners invariably feed the rats and take care of them, believing that the rodents are a source of protection against accident, says Our Dumb Animals. This is due, the men say, to the instinct of the rats, which warns them when a tunnel is unsafe. And when the rats leave a tunnel it is almost impossible to get the miners to work there. This recalls the belief among sailors that rats will leave a doomed ship. The miners also have found that rats are much more susceptible than humans to the dangerous gases that so often cause loss of life in the mines. Long before the miners themselves are affected by these gases the rats become sick and show symptoms of distress. So the men keep close watch of the rats' good health.
