Married on March 26 by Rev. Groh, Jacob Meyer, of Linden Hall, and Miss Anna Shuey, of Oak Hall.—On the 12th inst., by Rev. Fischer, Jeremiah Zettle and Sarah Sweetwood, both of near Spring Mills.

Joshua Potter, Jr., living two miles west of this place, was injured on Saturday, the 9th, in a peculiar way. A well was being dug on the premises by an old gentleman named Page, and had reached a depth of seven feet. Mr. Page had put a charge of powder in a rock, lit the fuse and then mounted a ladder to get out. The ladder broke and Mr. Page fell back into the well. His cries for help brought Mr. Potter to the brink of the well, and was extending his arms to assist Mr. Page when the charge went off, hurling the stones into Mr. Potter's face. His face and head were badly bruised and cut, requiring the services of a physician. Mr. Page escaped with lesser injuries.

The tract of woodland—110 acres—belonging to the Huston farm near this place, has been sold by Col. Coburn, to a gentleman named Meyers, of Berks county, at \$125 an acre. Mr. Meyers has already put a sawmill on the ground and will clear the tract for a farm and erect buildings.

Sunday afternoon as Alfred Osman, in company with a lady, was passing Old Fort in a buggy, a dog ran out at the horse, causing the animal to shy. The buggy was upset, spilling out the occupants, and the horse ran off, wrecking the buggy.

FARM BUREAU NOTES.

NITRATE FOR FARMERS.

In another article in this paper it will be noted that the Government will furnish nitrate of soda to the farmers again at cost. The price on this is \$81.00 per ton and can be ordered by application through the County agent. For further particulars get in touch with the Farm Bureau office. All orders must be placed by January 24.

FARMERS ACCOUNT BOOKS.

The County Agent has on hand in the Farm Bureau office several farmers account books that will be sold to any farmer desiring same at 45 cents which is the cost price of having them printed. These account books are very complete yet simple and for any farmer who wishes to keep such accounts to have an accurate record to be used in figuring the income tax, etc., they are very desirable. Farmers desiring to look them over can call at the Farm Bureau office where we will explain the books and glad to help in any way in keeping the records if anyone desires them.

ORDER FERTILIZERS NOW.

If you have not already ordered your fertilizer I would advise ordering at the earliest date possible. We have no assurance of immediate delivery and will save a great deal of inconvenience to have the material on hand when needed.

In communities where possible it will pay several farmers to go together and order in car-load lots. Last summer about \$3.00 per ton was saved in this way by ordering cooperatively.

R. H. OLMSTEAD, County Agent.

State's Basketball Coach Shell-Shocked in France.

Lieutenant B. M. (Dutch) Hermann, Penn State's varsity basketball coach and mentor of three undefeated Blue and White freshman football teams, is recovering from a severe case of shell shock in a base hospital in Toul, France. He was injured November 19.

In a letter written November 27 to State College friends, Lieutenant Hermann said a big Hun shell landed near him in a dense woods, where he was leading two platoons in an attack on a hill after crossing a field swept by German machine gun fire.

"While reorganizing there the Hun artillery opened on us and gave us a beautiful lambasting," he wrote. "I lay out in the open through three of their barrages, and they certainly turned things upside down in that woods."

"During the fourth barrage, three duds struck about three feet from my head so I decided to move. I saw a shell hole about twenty feet in front of me and started for it. Just then a big one landed near me, and it knocked me about fifteen feet. I regained consciousness the next day in field hospital. I was dumb for three days, but a specialist got my voice back for me."

Lieutenant Hermann expects to be invalided home shortly. He will doubtless be retained on Penn State's coaching staff when he returns to the college.

Advertise.

The constant drop of water wears away the hardest stone. The constant gnaw of Towser masticates the toughest bone. The constant wooing lover carries off the blushing maid. And the constant advertiser is the man that gets the trade.

Don't ever think that printer's ink is money to the bad, To help you jail a roll of kale there's nothing beats an ad. You can't fool people always, they've been a long time born. And most folks know that man is slow who tootheth not his horn. —Exchange.

Tribute to a "Country Editor."

The Philadelphia Press seems to be alone in its view that the new secretary of the treasury does not size up to the job. Its only argument is that Mr. Glass, being a country editor, has had no training in large finance. The big city editor who does not know that the country editor has more trouble with financing his job than any other part of its needs personal contact to enlighten him. Any man who can successfully run a country newspaper is fit for most any big job. Secretary of the Navy Daniels was not the first man to prove this, and it is safe to say that Secretary Glass will not be the last. Numerous country editors help much in running the country without holding any job.—Philadelphia Ledger.
