useful gift. We feel it our duty to urge our customers to refrain from buying nonessentials. So, instead of displaying a large stock of Christmas candles and our usual Christmas books and flowers, we are recommending gifts of useful household articles and articles of apparel."

What if Caroline could see it that way? mused Babette, and then, yielding to the temptation, she took the elevator to the floor where were sold the household articles, dishes and furniture and kitchen things. There she ran almost precipitately into Stephen. He, too, was holding one of the little holly-decked cards.

"I have been looking at a set of dishes," he said. "Maybe after we are married we can get one. He pressed Babette's hand-perhaps that wasn't exactly good form, but the crowd was pushing close beside them and no one could have seen. "It's pretty hard to wait," he said. "Babette, if we had the things to start housekeeping on, perhaps we wouldn't have to wait so long. Perhaps in February-I heard today I'm to get a good raise at New Year's."

"If, instead of getting each other a set of Scott or Dickens we could get that set of dishes and some things to cook with-" faltered Babette.

"I could give mother \$10 every week, and still have enough to run our little flat on," whispered Stephen, "and Roger will be bringing in more after New Year's."

There was little further explanation. It seemed as if they were compelled by a force greater than the will power of either, greater than the silent influence of Caroline or the binding force of that book on the parlor table. Yes, they did go and they ordered that set of dishes-that with the money Stephen had expected to spend the leather-bound Scott with on Babette's money saved for the edition de luxe of Dickens they went and, after a half hour with a patient saleswoman, bought everything that any clever bride ever needed to make a lit-

tle flat kitchen complete. Then they turned their steps home-

ward toward Caroline. "Perhaps we can arrange it in January-would you, Babette? I've got enough saved for the bedroom set, and

with the dishes and the kitchen things I've enough for the other things. Do you suppose your mother-"

"There was a pause, for traffic made social decorum on Caroline's parlor it hard to understand; then a lull; "There's something in that Tennyson on the parlor table that goes like this

### CAPT. R. NORRIS WILLIAMS.

Capt. R. Norris Williams, formerly national lawn tennis champion, who was a member of the American Davis cup team which captured the trophy from England, and in 1914 took the American title at Newport, has been awarded the French war cross. The decoration was given by General Requichot of the French army. Captain Williams received decorations for distinguished service in the second battle of the Marne. Williams was a Harvard student, a Plattsburg candidate and went over early and took a course with a French battery, after which he helped to lay barrages. He was born at Geneva, Switzerland, and is twenty-eight years of age.

# **OUTLOOK IS BRIGHT** FOR THOROUGHBREDS

# Make Good in Time of War and Thrive in Days of Peace.

# Lovers of Horses May Well Congratulate One Another on Great Things in Store-Advance in Value 50 Per Cent

With the victory and peace following the world's war, lovers of horses, and especially of the thoroughbred, may well congratulate one another on the great things in store for the American thoroughbred, says New York Telegraph. In the war the horse played no small part, for it was cavalry raids that routed the Turks, as well as to drive back the Huns on the western front. This country has been depleted of horses fit for cavalry remounts, and the United States government has recognized the need of the improvement of the breed of horses by acquiring thoroughbred stallions of the very highest type and placing them upon government breeding farms. In the years to come the United States will have a higher type of horse for every purpose.

Especially are the owners of race horses to be congratulated, for today their racers have advanced in value probably 50 per cent more over what they may have been considered worth a week before the end of the conflict. The reason for this is that the millionaire owners, who were in the sport for the sport to be had out of it rather than for profit, will now be encouraged to purchase most liberally of the best to be had. Recently one Canadian millionaire paid \$75,000 for three horses. The American sold because he expected to have his time taken up with helping the government. Three days after he had sold he wired his trainer to sell no more as he would continue racing, and that trainer remarked that he would gladly give \$100,000 to get back the three thoroughbreds he had sold for \$75,000.

It now is assured that racing will resumed in Canada next season, for the sport was only discontinued for the duration of the war, and may open automatically, without any legis. lation whatsoever. Across the Mexican border are two racetracks which were closed down on account of passport troubles. These both will be open in another year, and because there will be great opportunity for thoroughbred: to earn rich purses and stakes their value must of necessity be advanced with their ability to show their real worth in racing.

Engagements are sometimes broken. they had been told, and a "real lady" would never cease regretting the fact if she had ever allowed any more passionate salute from a man who did not become her husband. So Caroline had told Babette and her son and, though they had been engaged a year. there was but one salute a day, and that very decorously upon the check.

When the first Christmas of their engagement came about Caroline had reminded her children that "well-bred engaged people did not give personal The young man, besides presents." the engagement ring, should give nothing but flowers, books and candy." Her own husband had given her a copy of Tennyson's poems on the Christmas they were engaged, and the Tennyson now reposed beneath the book on good form on the parlor table.

He had given her roses on all holldays and candies every week-end. There was no reason, Caroline said, why her son should not do so much for Babette. He could afford it, for he was now getting a generous salary.

Babette didn't often protest, but she was a practical bit of a girl, and when she might have been making a collection of useful household things given her by her husband-to-be-as other girls she knew did-she took small pleasure in the little bunch of roses that faded on her bureau after every holiday nor in the candles that she

shared with her cousins every weekend

From her own slender earnings she might have bought things that would eventually have helped feather the nest, too, but Caroline assured her that would not have been in good form. The great authority especially cautioned young women against giving anything of a personal nature to their fignces.

Stephen, had, no desk save the office one he toiled at eight hours a day, and knew no sports save struggling with the crowds on his daily trip to and from that office, Babette's choice was limited to books.

He liked the Stevenson and the Kipling she had given him, but how much sooner they could have been married if instead of those books she could have given him something that would do for the little flat-chairs and tables, or a rug, perhaps!

It was three weeks before Christmas and Babette and Stephen had each secretly decided to linger after office hours to make the Christmas purchases. Unknown to each other they were both part of the great throng that swarmed one of the department | the British parliament.
