State to War on Drug Peddlers.

A vigorous enforcement of the Pennsylvania Anti-Narcotic Act, especially in relation to drug addicts and drug peddlers, was promised this week by Dr. B. Franklin Royer, Acting Commissioner of Health in announcing the completion of the organization of the Bureau of Drug Control as an integral part of the State Department of Health.

The drug addict and the drug peddler are going to find it hard to do business in Pennsylvania henceforth. The State law, according to Dr. Royer, is a public health measure and will be rigidly enforced as such. The Federal Drug Act is primarily an international revenue law but the Pennsylvania Act is intra-State and under the police power of the State and regulates the possession and dispensing of narcotic drugs within Pennsylvania. Hereafter complete records of the sale of all narcotic drugs are to be furnished to the Bureau of Drug Control and the prescription records of physicians and pharmacists and others are to be open for inspection at all times. Drug addicts are to be watched and the Bureau will see that an accurate account is kept of the supply of the various narcotics within the State.

To the gentlemen of the community:— Hark to the call of the Y. W. C. A. Come to the Grange Hall to bid and to pay.

For a box, that some lady so generously has packed; And eat with her proudly when the bell has been tapped.

Penn State Student-Officers March in Inaugural Parade.

The Pennsylvania State College sent four hundred student-soldiers, including the military band to take part in the inaugural parade at Harrisburg when Governor-elect Sprout went into office on Tuesday. Colonel Lewis E. Beiler, of Philadelphia, asked that the State College be represented in the military section. The Penn State delegation was composed of about one-third of its uniformed and equipped Reserve Officers' Training Corps unit.

Sheriff Yarnell Buys Hecla Park.

Sheriff Ger. H. Yarnell last Saturday purchased the Hecla Park property from the old Central Railroad Co. of Penna. The consideration was \$4600. The transfer includes the grist mill and other buildings, also twenty-seven acres of land.

It is Sheriff Yarnell's expectation to operate the grist mill when electric power is once installed and to also conduct a general ice business.

State Agricultural Notes.

An increase in sheep raising in the State during the past year has added many additional sheep to the total in the State and the enforcement of the dog law promises to keep up the interest.

A large increase in the number of hogs in the State is expected from a census now being made.

New Telephone Toll Rates

Effective January 21, 1919.

(Announced December 13, 1918, by Postmaster General, Washington, D. C.)

New schedules of rates for telephone toll calls (to points outside the local service area) under which all toll calls throughout the United States are placed on a uniform basis, became effective 12.01 a. m., January 21, 1919.

Under these new schedules the "station to station" rate is the base rate upon which all rates for the various classes of service offered, are computed. This rate is determined by the air line distance between toll points and is computed, for the initial period, on the basis of 5c for each six miles up to 24 miles and 5c for each 8 miles beyond that distance.

For toll calls where the calling party does not specify a particular person to be reached at the called telephone, "station to station" rates are charged.

For toll calls where the calling party does specify a particular person to be reached at the called telephone and the connection is established and conversation held with that person, "person to person" rates are charged. As this service requires a greater amount of operating effort, the rate for such calls is about one-fourth greater than the "station to station" rate. The minimum "person to person" rate is 20c.

Toll calls involving an appointment to talk at a specified time, or involving the use of messenger service to secure attendance of a designated person at a public telephone at a distant point may be made at rates usually about one-half greater than the "station to station" rate, plus the cost of messenger service. The minimum rate for such calls is 25c.

For all toll calls other than those made on the "station to station" basis, where connection is established but the conversation is not held because the calling or called party is not present or will not talk, a "report charge" is made, equivalent to about one-fourth of the "station to station" rate. The minimum "report charge" is 10c; maximum \$2.00. No "report charge" is made if the call is completed before midnight of the day it is placed.

Night rates, applying only to calls made on a "station to station" basis, are quoted between 8.30 p. m. and 4.30 a. m. The rate between 8.30 p. m. and 12 midnight is about one-half the "station to station" day rate, and between 12 midnight and 4.30 a. m. about one-fourth the "station to station" day rate. The minimum night rate is 25c.

"Station to station" calls must be made as far as possible by giving the telephone number of the called telephone. When the number is not known and telephone directory information is not available the number should be obtained from "Information," or if the called telephone is at a distant point, the name and address of the called subscriber should be given to the Toll Operator, stating that it is a "station to station" call.

The "station to station" rates are substantially lower than the "person to person" rates. In order that patrons may effect the greatest economy in their charges for toll service, and also maximum speed of connections, they are urged to study their toll service requirements and to make the widest possible use of "station to station" calls.
