

# WRIGLEY'S

All three brands sealed in air-tight packages. Easy to find—It is on sale everywhere. Look for, ask for, be sure to get WRIGLEY'S The Greatest Name in Goody-Land

## The Flavor Lasts

### Stock Raising in Western Canada is as profitable as Grain Growing

In Western Canada Grain Growing is a profit maker. Raising Cattle, Sheep and Hogs brings certain success. It's easy to prosper where you can raise 20 to 45 bu. of wheat to the acre and buy on easy terms.

**Land at \$15 to \$30 Per Acre—Good Grazing Land at Much Less.**

Railway and Land Companies offer unusual inducements to homeseekers to settle in Western Canada and enjoy her prosperity. Loans made for the purchase of stock or other farming requirements can be had at low interest. The Government of the Dominion and Provinces of Manitoba, Saskatchewan and Alberta extend every encouragement to the farmer and ranchman. You can obtain excellent land at low prices on easy terms, and get high prices for your grain, cattle, sheep and hogs—low taxes (none on improvements), good markets and shipping facilities, free schools, churches, splendid climate and sure crops.

For illustrated literature, maps, description of lands for sale in Manitoba, Saskatchewan and Alberta, reduced railroad rates, etc., apply to Superintendent of Immigration, Ottawa, Canada, or

## THE KINSHIP OF THE NEW AMERICAN

### Aims and Ideals of the United States and Canada Will Soon Be Signed.

The war is over, peace will soon be signed, the fighting nations have sheathed their swords, and the day of reconstruction has come.

What of it!

Hundreds of thousands of men, taken from the fields of husbandry, from the ranks of labor, from the four walls of the counting house, and the confines of the workshop, taken from them to do their part, their large part, in the prevention of the spoliation of the world, and in the meantime removed from the gear of common everyday life, will be returned, only to find in many cases old positions filled, the machinery with which they were formerly attached dislocated.

Are they to become aimless wanderers, with the ultimate possibility of augmenting an army of menacing loafers? If they do it is because their ability to assist in laying new foundations, in building up much required structures, is underestimated. Men who have fought as they have fought, who have risked and faced dangers as they have, are not of the caliber likely to flinch when it comes to the restoration of what the enemy partially destroyed, when it comes to the reconstruction of the world the ideals of which they had in view when they took part in the great struggle whose Divine purpose was to bring about this reconstruction.

Inured to toll, thoughtless of fatigue, trained in initiative and hardened by their outdoor existence they will return better and stronger men, boys will have matured and young men will have developed.

They will decide of themselves lines of action and thought, and what their future should and will be. On the field of battle they developed alertness and wisdom, and they will return with both shedding from every pore.

Action was their by-word and it will stand them in good stead now that the din of the battle no longer rings in their ears, or the zero hour signals them to the fray, and it will continue during their entire existence.

But if they return to find their old avocation gone, their places filled, the institutions with which they were connected no longer exist, new walks of life and employment must be opened to them. It may be that the counting house, the factory, the workshop will have lost their attraction. The returned soldier will look elsewhere for employment; within his reach there is always the "Forward-to-the-Land" necessity. In this lies the remedy that will not only take care of a multitude of those who may not be able to return to their former occupations, whose desires are not to do so, whose health prohibits them from indoor life or whose outdoor habits from the past one, two, three or four years have given them such a taste and desire for it that confinement would be unbearable. Farm life will thus appeal to them, and the indications are that it will be taken advantage of by thousands. It means much to them as well as to the Continent of America that provides the opportunity to the world at large, and to the stricken and famished nations of Europe, who, not only today, but for years to come, will require the sustenance that can only largely be supplied by the United States and Canada. By following the pursuit of agriculture the returned soldier will continue the cause he so greatly advanced when fighting on the field of battle. Both countries have undeveloped areas yet open to settlement.

There is little need here to direct

attention to the wealth that has come to the farmers of Canada within the last few years. It is not only in grain growing that unqualified and almost unequalled success has followed honest effort, but the raising of horses, cattle, sheep and hogs has been large source of profit. These are facts that are well known to the many friends and acquaintances of the thousands of farmers from the United States who have acquired wealth on the prairies of Western Canada. Farms of from one hundred and sixty to six hundred and forty acres of the richest soil may be secured on reasonable terms, and with an excellent climate with a school system equal to any in the world, and desirable social conditions, little else could be asked.

Canadian statesmen are today busily engaged planning for the future of the returned soldier with a view to making him independent of state help after the immediate necessary assistance has been granted, the main idea being to show in the fullest degree the country's appreciation of the services he has rendered.

But, now that the war is ended, and the fact apparent that of all vocations the most profitable and independent is that of the farmer, there will be a strong desire to secure farm lands for cultivation. Canada offers the opportunity to those seeking, not as speculation but as production. The deepest interest is taken by Federal and Provincial authorities to further the welfare of the farmer and secure a maximum return for his efforts. Large sums of money are spent in educational and experimental work. Engaged in Experimental and Demonstration farms, and in the agricultural colleges, are men of the highest technical knowledge and practical experience, some being professors of international reputation. The results of experiments and tests are free and available to all. Educational opportunities for farmers are the concern of the Government and appreciation is shown by the number of farmers who attend the free courses.

Agriculture in Canada has reached a high standard, notwithstanding which lands are low in price.

Thus upon the United States and Canada for many years will rest the great burden of feeding the world. With free interchange of travel, difficulties of crossing and recrossing removed, Canada may look for a speedy re-summation of the large influx of settlers from the United States which prevailed previous to the war. During the war period there was a dread of something, no one seemed to know what; if the American went to Canada he might be conscripted, put in prison, or in his attempt to cross the border he would meet with innumerable difficulties, most of which, of course, was untrue. These untruths were circulated for a purpose by an element, which, it was discovered had an interest in fomenting and creating trouble and distrust between two peoples whose language and aims in life should be anything but of an unfriendly character. The draft law of the United States adopted for the carrying out of the high purposes had in view by the United States kept many men from going to Canada during the period of the war. The citizen army of the United States was quickly mobilized, and contained a large percentage of the young men from the farms. In this way many were prevented from going to Canada.

That is all over now. There are no real or imaginary restrictions; there is no draft law to interfere. On the contrary there is an unapproachable depth of good feeling, and the long existing friendship is stronger than ever. This has been brought about by the knowl-

edge of what has been done in the recent great struggle, each vying with the other in giving credit for what was accomplished. In thought and feeling, in language, in aims in life, in work, in desire to build up a new world, there has been bred a kinship which is as indissoluble as time itself.—Advertisement.

Every city woman thinks that she could make a fortune in three years if she had a place to raise chickens.

### WHY DRUGGISTS RECOMMEND SWAMP-ROOT

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine.

It is a physician's prescription. Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder do the work nature intended they should do.

Swamp-Root has stood the test of years. It is sold by all druggists on its merit and it should help you. No other kidney medicine has so many friends.

Be sure to get Swamp-Root and start treatment at once.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

Who can remember the old days when he used to have to wonder what to do with his spare time?

### RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/2 oz. of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and make it soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.—Adv.

If a man can't make good at anything else, he is apt to make good excuses.

When Baby Is Teething GOWAN'S BABY BOWEL MEDICINE will correct the Stomach and Bowel troubles. Perfectly harmless. See directions on the bottle.

Professors are often without honor, but seldom without competition.

Dr. Pierce's Pleasant Pellets put an end to sick and bilious headaches, constipation, dizziness and indigestion. "Clean house." Adv.

Tomorrow won't be any different from today unless you are.

### Influenza and kindred diseases start with a cold.

Don't trifle with it. At the first shiver or sneeze, take

**HILL'S CASCARA QUININE**

Standard cold remedy for 20 years—in tablet form—safe, sure, no opiates—breaks up a cold in 24 hours—relieves grip in 3 days. Money back if it fails. The genuine box has a Red top with Mr. Hill's picture. At All Drug Stores.

### Soldiers Soothe Skin Troubles with Cuticura

Scalp, Ointment, Talcum, etc., each 25c. Sample of "Cuticura," Dept. E. Boston.

### INFLUENZA

Catarrhal Fever, Pink Eye, Shipping Fever, Epizootic

And all diseases of the horse, affecting his throat speedily cured; colts and horses in the same stable kept from having them by using SPOHN'S COMPOUND, 1 to 6 doses often cure. Safe for brood mares, baby colts, stallions, all ages and conditions. Most skillful scientific compound. SPOHN'S is sold by your druggist.

SPOHN MEDICAL CO., Mrs. Goshen, Ind.

## Tired Nervous Mothers

Should Profit by the Experience of These Two Women

Buffalo, N. Y.—"I am the mother of four children, and for nearly three years I suffered from a female trouble with pains in my back and side, and a general weakness. I had professional attendance most of that time but did not seem to get well. As a last resort I decided to try Lydia E. Pinkham's Vegetable Compound which I had been advertised in the newspapers, and in two weeks noticed a marked improvement. I continued its use and am now free from pain and able to do all my household work."—Mrs. B. B. ZIELINSKA, 202 Weiss Street, Buffalo, N. Y.

Portland, Ind.—"I had a displacement and suffered so badly from it at times I could not be on my feet at all. I was all run down and so weak I could not do my housework, was nervous and could not lie down at night. I took treatments from a physician but they did not help me. My Aunt recommended Lydia E. Pinkham's Vegetable Compound. I tried it and now I am strong and well again and do my own work and I give Lydia E. Pinkham's Compound the credit."—Mrs. JOSEPHINE KIMBLE, 935 West Race Street, Portland, Ind.

Every Sick Woman Should Try
