

THE CENTRE REPORTER.

THURSDAY, FEBRUARY 13, 1919.

THIRTY-FOUR YEARS AGO.

Paragraphs of News Taken from the Files of the Reporter of 1884.

May 28, 1884.

The Moyer saw mill, on the tract purchased from the Huston estate, east of town, turns out 200 railroad ties per day. The Moyers are from Berks county.

A steam saw mill is being put up on the Kerlin tract of woodland on the south side of the valley. Almost every timber tract of any value, in the valley, has a steam sawmill, and the noble pine and sturdy oak are fast disappearing. At the present rate, twenty years hence there will be little or no good timber left in the valley.

The railroad will be pushed right ahead and within sixty days the rails will be laid to Lemont. From Lemont to Bellefonte the work may not proceed quite so rapidly.

State Agricultural Notes.

It is estimated that ninety per cent. of the corn grown in Pennsylvania is fed on the farms.

Pennsylvania has produced during the past year an estimated total of 16,000 bushels of clover seed.

The estimated value per acre of the Pennsylvania tobacco crop of the past year is estimated at \$355.00.

Catarhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it has a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarhal, which is an inflamed condition of the mucous surface. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, etc.

F. J. CHENEY & CO., Toledo, O.

FARMERS' WEEK AT "STATE."

To be Held Last Week in February.— Nearly 100 Agricultural Men to Speak at Various Meetings.

The programs for Farmers' Week to be held at State College February twenty-fourth to twenty-eighth have been completed and are now being distributed in all parts of the state. This year's lecturers will emphasize very strongly rural life problems, and some of the most prominent agricultural men in the country are to give addresses, there being upward of one hundred scheduled to speak at the various meetings.

Herbert W. Collingwood, president of the Rural Publishing Company and editor of the Rural New Yorker will speak at one of the evening meetings on the agricultural press in relation to the agricultural colleges. Dr. Collingwood is one of the pioneers in scientific agriculture in America, having been one of the first graduates of the Michigan Agricultural College. Mr. W. J. Spillman, another prominent farming expert, will be there for one of the evening meetings. Mr. Spillman is at present an associate editor of the Farm Journal and was formerly head of the Bureau of Farm Management in the United States Department of Agriculture.

The town of State College has been canvassed to learn who will give accommodations to the big number of farmers who are expected to attend.

Don't Neglect Your Eyes

Symptoms often arising from defective vision in persons of all ages are headaches, dizziness, itching, burning and twitching of the eyelids, nausea, ear sickness, nervousness. Many who suffer from these try for a cure by the use of headache powders, liver pills, etc. In case of defective vision they only upset the stomach and cause no permanent relief whatever.

Come to my office and have your eyes thoroughly examined and determine the cause of your complaints.

Prices very reasonable. Seven years with one of the leading oculists and manufacturing opticians of Philadelphia.

OVERLAND CAR FOR SALE.—1912 model, five passenger car; has good engine and in good running order; would make a good truck.—D. J. VONADA, Centre Hall, R. 2, Belle phone 785.

13 Dollars—13 Cents

When Swift & Company paid, say,—13 dollars per hundredweight for live beef cattle last year, the profit was only 13 cents! In other words, if we had paid \$13.13, we would have made no profit.

Or, if we had received a quarter of a cent per pound less for dressed beef we would have made no profit.

It is doubtful whether any other business is run on so close a margin of profit.

This is bringing the producer and the consumer pretty close together—which should be the object of any industry turning raw material into a useful form.

This remarkable showing is due to enormous volume, perfected facilities (packing plants strategically located, branch houses, refrigerator cars, etc.), and an army of men and women chosen and trained to do their special work.

This, and many other points of interest, are found in the Swift & Company Year Book for 1919, just published which is brought out for the public as well as for the 25,000 Swift & Company shareholders.

The Year Book also represents the packer's side of the Federal Trade Commission investigation, upon which Congress is asked to base action against the industry.

Many who have never heard the packer's side are sending for the Year Book.

Would you like one? Merely mail your name and address to the Chicago office and the book will come to you.

PRINCE ALBERT

the national joy smoke

TALK about smokes, Prince Albert is geared to a joyhandout standard that just lavishes smokehappiness on every man game enough to make a bee line for a tidy red tin and a jimmy pipe—old or new!

Get it straight that what you've hankered for in pipe or cigarette makin's smokes you'll find aplenty in P. A. That's because P. A. has the quality!

You can't any more make Prince Albert bite your tongue or parch your throat than you can make a horse drink when he's off the water! Bite and parch are cut out by our exclusive patented process!

You just lay back like a regular fellow and puff to beat the cards and wonder why in samhill you didn't nail a section in the P. A. smokepasture longer than you care to remember back!

Buy Prince Albert everywhere tobacco is sold. Tippy red bags, tidy red tins, handsome pound and half pound tin humidors—and that clever, practical pound crystal glass humidor with sponge moistener top that keeps the tobacco in such perfect condition.

R. J. Reynolds Tobacco Co., Winston-Salem, N. C.

"Don't have to make so many trips now"

You should have a Perfection Oil Heater, too. No, one is sure of getting a full supply of coal this year. When you have a Perfection you can keep warm and comfortable with less coal. And that is what everyone should try to do. A Perfection is safe. Of course you can use any kind of kerosene, but

Rayo Lamps

A central draught lamp that produces a soft, clear and restful light. Many beautiful designs to choose from. Safe and easy to keep clean. See your dealer.

Rayo Lanterns

Give the most light for oil consumed. Cold and hot blast styles. Easy to light and clean. Stay lighted in the strongest wind. See your dealer.

ATLANTIC Rayolight

will give you the most heat. It is known by this special name because it is a special kind of kerosene. It has unusual qualities that give unusual results. No odor, smoke, sputter or charred wicks, but an even, steady heat or a clear, mellow light—always. Use it in your lamps and lanterns.

Go to your dealer now and select your Perfection Oil Heater. They are reasonably priced—\$5.65 to \$10.00.

Hubbard Brands Answer

With Europe calling on America for food we must gather record-breaking crops. There must be better methods all around—better cultivating—better drainage—better seeding—better fertilizer. Here is where you can bank on Hubbard Brands. The farmer is guaranteed top prices for his crops this season—so great is the demand. Use Hubbard Fertilizers and you won't be caught napping on the fertilizer score. Order early from your dealer and look for the Hubbard Trade Mark on the bag.
