The Flavor Lasts!

Grow Wheat in Western Canada

One Crop Often Pays for the Land

Western Canada offers the greatest advantages to home seekers. Large profits are assured. You can buy on easy payment terms. Fertile Land at \$15 to \$30 per Acre—land similar to that which through many years has averaged from 20 to 45 bushels of wheat to the acre. Hundreds of cases are on record where in Western Canada a single crop has paid the cost of land and production. The Governments of the Dominion and Provinces of Manitoba, Saskatchewan and Alberta want the farmer to prosper, and extend every possible encouragement and help to Grain Growing and Stock Raising.

Though Western Canada offers land at such low figures, the high prices of grain, cattle, sheep and hogs will remain. Loans for the purchase of stock may be had at low interest; there are good shipping facilities; best of markets; free schools; churches; splendid climate; low taxation (none on improvements). For particulars as to location of lands for sale, lease, illustrated literature, reduced railway rates, etc., apply to Dept. of Immigration, Ottawa, Can., or F. A. Harrison, 210 North Third St., Harrisburg, Pa. Canadian Government Agent.

Practical Girl.

"He (ecstatically)—I could die for you. She—Goodness! I hope you won't think of such a thing until after we are married and I have the right to inherit."—Boston Transcript.

Get New Kidneys!

The kidneys are the most overworked organs of the human body, and when they fail in their work of filtering out and throwing off the poisons developed in the system, things begin to happen. One of the first warnings is pain or stiffness in the lower part of the back; highly colored urine; loss of appetite; indigestion; irritation, or even stone in the bladder. These symptoms indicate a condition that may lead to that dreaded and fatal malady, Bright's disease, for which there is said to be no cure. Do not delay a minute. At the first indication of trouble in the kidney, liver, bladder or urinary organs, start taking Gold Medal Haarlem Oil Capsules, and save yourself before it is too late. Instant relief is necessary in kidney and bladder troubles. A delay is often fatal. You can almost certainly find immediate relief in Gold Medal Haarlem Oil Capsules. For more than 200 years this famous preparation has been an unfailing remedy for all kidney, bladder and urinary troubles. It is the pure, original Haarlem Oil your great-grandmother used. About two capsules each day will keep you toned up and feeling fine. Get it at any drug store, and if it does not give you almost immediate relief, your money will be refunded. Be sure you get the GOLD MEDAL brand. None other genuine. In boxes, three sizes.—Adv.

Dry.

"How did you like the banquet?" "Not very much. The meal was as dry as the speeches."

It is better to have a heart of oak than a wooden head.

Your Eyes

A Wholesome, Cleansing, Refreshing and Healing Lotion—Murine for Redness, Soreness, Granulation, Itching and Burning of the Eyes or Eyelids; "3 Drops" After the Movies, Motoring or Golf will win your confidence. Ask Your Druggist for Murine when your Eyes Need Care. 25¢ Murine Eye Remedy Co., Chicago.

The Optimist.

The optimist is a man who has nothing much to make him cheerful, but who can look at the crowds of lady shoppers, these days, and be glad he's not a muskrat.—Cleveland Plain Dealer.

Whenever there is a tendency to constipation, sick-headache or biliousness, take a cup of Garfield Tea. All druggists. Adv.

Sound sleep is usually the result of soundless sleep.

Don't wait until your cold develops Spanish Influenza or pneumonia. Kill it quick.

Standard cold remedy for 20 years—in tablet form—safe, sure, no opiates—breaks up a cold in 24 hours—relieves grip in 3 days. Money back if it fails. The genuine box has a Red top with Mr. Hill's picture. At All Drug Stores.

AVOID INFLUENZA!

and its Dreaded Ally Pneumonia by using GOWAN'S Rub-It-On. See and Buy THE ORIGINAL SPECIFIC ENTIRELY REMEDY. Keep the organs in good condition using Gowan's Laxative Kidney Pills—25¢. Satisfaction guaranteed if directions are followed. Gowan's reduces fevers and helps the heart. Best for example. GOWAN MEDICAL CO., Concord, N. C.

Bronchial Troubles

Soothe the irritation and you relieve the distress. Do both quickly and effectively by using promptly a dependable remedy—PISO'S

OPERATION OF GASOLINE ENGINE IS NOT DIFFICULT IF INSTRUCTIONS ARE OBEYED

Repairing a Gas Engine on a Power Spraying Outfit.

(Prepared by the United States Department of Agriculture.)

The gas engine, a great labor saver on thousands of farms on which stationary engines, tractors, motor trucks or automobiles are operated efficiently, is also at times the cause of a great waste of labor. Often large crews hired to help with thrashing, hay baling, cutting ensilage, etc., draw full wages for hours spent in idleness owing to inefficient handling of the engine. A man frequently will spend much more time and energy in starting a gas engine to pump water for stock, run a milking machine, or for some other similar purpose, than would be required to do the work by hand. The time lost throughout the country in this manner, enormous in the aggregate, is to a great extent preventable.

It is not desired to convey the impression that gas engines usually give trouble, or are difficult to operate, for this is by no means the case. Delays from engine trouble are usually due to the operator's ignorance of some of the details essential to proficient operation.

Use Information Furnished.

All catalogues and directions furnished by the manufacturer should be studied carefully. If none are received with the engine, a request for them should be sent promptly to the manufacturer. It is to be regretted that a few manufacturers are rather lax in the matter of furnishing such material, although it is obviously to their interest to make use of this comparatively inexpensive method of assisting the purchaser to obtain satisfactory service from the engine.

Any instruction book furnished by the manufacturer should be kept in a safe place, but convenient for reference.

It is safe to assume that the man who made the engine knows something about its operation and can give some information of value to the purchaser. In altogether too many cases, the instruction book and other literature intended to be of assistance to the user of the outfit are either thrown away or ignored completely, and not infrequently a man is sent from the factory, or a local expert is hired, to make simple adjustments concerning which full instructions are given in literature furnished by the manufacturer but which had never been read by the owner.

Lubrication.

A large percentage of repair expenses is due to insufficient or improper lubrication. In far too many cases owners of gas engines use grades of oil entirely unsuited to their engines, notwithstanding the fact that in each case the manufacturer has furnished a long list of various brands and grades of oil which have been tested and found suitable to the engine in question, and which can be obtained practically anywhere in the country.

Another common error is to use too little oil. It is poor economy to try to save on oil. On the other hand, an excess of oil in the cylinder, while better than too little, will cause carbon deposits, followed by loss of power, overheating, and preignition. Heavy, bluish smoke from the exhaust indicates that the cylinder is getting too much oil, but it is usually advisable to furnish enough to give at least a slight trace of bluish smoke.

If the cylinder is oiled from the crank case by the splash system, the lubricant being used over and over again, the oil should be examined frequently, and as soon as it becomes badly discolored or very thin it should be drained out and new oil substituted. Many manufacturers furnish directions as to how often this should be done. Filling the crank case with kerosene after draining out old oil, and then running the engine a few minutes without load, in order to remove dirt and carbon from bearings and other parts, is frequently recommended. This is good practice where the crank case can be drained completely, but on many engines there are pockets which cannot be fully drained, and the kerosene remaining in these pockets will thin the new oil. Under such circumstances the rinsing is of doubtful value. After such rinsing is done, the engine should not be run at full speed

or under load until the new oil has had ample time to reach all bearings. The dirty oil drained off may be filtered and used for oiling other farm machines, but it should not be used again in the cylinder. If the oil in the crank case quickly becomes thin it is evident that some of the fuel is getting past the piston rings. This seriously affects the lubricating quality of the oil. It should, of course, be replaced with fresh oil, and steps taken to improve the carburetion so as to form a fuel mixture which will burn more completely.

Keep All Nuts Tight.

It requires but a minute or two to go over an engine and see that all screws and nuts are tight, at the same time wiping off any oil and dirt which have collected. This should be done at least once every day the engine is used. Such practice will go far toward preventing many operating troubles, since all gas engines vibrate to some extent and this vibration tends to loosen bolts, nuts and other parts. This is always a potential source of breakdowns, if not of serious accidents. Furthermore, loosening of parts often results in a loss of power.

MAKE GOOD COWS

The following things that go to make good cows: (1) Good breeding (good sires), (2) proper development of the heifers, (3) not breeding heifers too young, (4) liberal and proper feeding, (5) accurate records, (6) good care, (7) healthy cows.

PLAN FOR BETTER PASTURES

Cut Useless Trees and Remove All Rubbish and Brush—Top Dressing of Manure is Good.

(Prepared by the United States Department of Agriculture.)

Cut or deaden all trees except those needed for shade, and clear off the brush and rubbish. Pasture plants can not compete with timber. One should decide whether he desires woods or pasture and act accordingly.

Have the shady places on the higher parts of the field and not along running streams or around ponds. Much fertility is lost from grazing lands because this rule is not more generally followed.

Fertilize as you would for a good meadow. There is nothing better than an occasional top dressing of stable manure. This should be applied in the fall or winter. Acid phosphate and basic slag are very efficient in promoting the growth of tame grasses and clovers and they in turn tend to crowd out the weeds. The weed problem in closely grazed pastures on rich soils is practically nothing.

Reseed an old pasture only as a last resort. If pastures in the East fail, it is usually because of depleted fertility and not from lack of seed. Reseeding should be done in a thorough and not a slipshod manner and only after the fertility of the soil has been restored.

GATHER UP ALL SCRAP IRON

Old Castings Scattered About Farm Would Bring Tidy Sum at Present Price for Metal.

Government publicity experts are sending out a circular advising farmers to gather together the scrap metal scattered about the premises and sell it. Enough old castings could be picked up on some farms to net quite a tidy sum at present prices.

SUNLIGHT NEEDED IN GARDEN

There is No Substitute for It and Vegetables Will Not Thrive Without It.

You can wear out your hoe, cultivating; exhaust the available water supply; water; go broke buying fertilizers; and still fail if your vegetables do not get sufficient sunlight. There is no substitute for sunlight in gardening. It's no use trying to find one.

Direct Reply. Rejected Suitor (a slacker)—"Is there another man?" Girl—"Two million; somewhere in France." Achieving the Goal. Pupil (airily)—You know, I am learning music only to kill time. Teacher (grimly)—You're doing it.

The Idea. "I conduct my piano business on strictly Christian principles." "How do you mean?" "My stock is both upright and square." Never marry a girl named Ann; An's an indefinite article.

"Bayer Tablets of Aspirin"

For Colds, Grippe, Influenzal Colds

No Discomfort! No Head-buzzing! No Distress! Millions of people take "Bayer Tablets of Aspirin" as the best means to prevent as well as to overcome Colds, Grippe and Influenzal Colds—being far more efficient than quinine. Besides relief comes without discomfort or distress.

"The Master of Colds"—Dependable!

Adults—Take one or two "Bayer Tablets of Aspirin" with water. If necessary, repeat dose three times a day, after meals.

"Bayer Tablets of Aspirin"

Buy only the original "Bayer packages." Look for the safety "Bayer Cross" always. 20 cent package—also larger packages. Owned by Americans Entirely.

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid

Acid-Stomach Ruins Health of Millions

Besides those painful attacks of indigestion; that awful bloated, lumpy feeling after eating and downright stomach misery that you who have experienced it know so well; besides disgusting belching, food-reeping, sour stomach and distressing heartburn—besides all this, ACID-STOMACH undermines the health and saps the strength of millions.

If you don't get rid of those stomach miseries there is no telling where your stomach troubles will end, for it is a well known scientific fact that many serious ailments have their start in an acid-stomach. Start now—this very day—to get rid of your stomach miseries. Take EATONIC—the wonderful remedy that absorbs the excess acid from the stomach and brings INSTANT relief. You simply have no idea how much better, stronger and brighter you feel at once. It drives out all the gas and bloating, puts an immediate stop to belching and heartburn,

and your stomach suffering and makes it cool, sweet, comfortable and strong. There can be no further excuse for you to allow acid-stomach to wreck your health—pile up misery upon misery until you get to the point where you feel down and out and that life has lost all its joys. Remember, just as acid-mouth ruins teeth, so acid-stomach ruins health. Take EATONIC. It's good, just like a bit of candy and makes the stomach feel fine. You can then eat the things you like and, what is more, every mouthful you eat will count in creating power and energy. You'll feel so much better—have punch and pep—the power and will to do things and get results, and your stomach misery will be gone. Take our advice. Get a big box of EATONIC from your druggist today. It costs so little. If it fails to remove your stomach distress, he will refund your money. That is guaranteed; you are to be satisfied or money refunded.
